

1982, the shell buttons (ACCN.231–44) were found during reconstruction of Quarters 11 at Camp Reynolds (West Garrison), Angel Island, Angel Island State Park, Marin County, California.

Associated funerary objects have been identified. The two lots of associated funerary objects include flaked stone artifacts and possible petroglyph or pecked stone found at the US Immigration Station (North Garrison), Angel Island, Angel Island State Park, Marin County, California. In 1981, a flaked stone artifact (ACCN.231–41) was found by a school group on the beach. At an unknown date, a possible petroglyph or pecked stone was found in the maintenance yard. The item was not catalogued.

Associated funerary objects have been identified. The one lot of associated funerary objects are stone artifacts found near Perle's Beach, Angel Island, Angel Island State Park, Marin County, California. In 1991, a projectile point (ACCN.231–26) was found at the beach. In 1994, a netweight (ACCN.231–27) was found along the road from Perle's Beach.

Associated funerary objects have been identified. The five lots of associated funerary objects are rocks, groundstone artifacts, flaked stone artifacts, beads, and unidentified missing material. stone artifacts found at multiple unknown locations on Angel Island, Angel Island State Park, Marin County, California, Angel Island. In 1999, a projectile point (ACCN.231–26) was found by students. At an unknown date, a projectile point (ACCN.231–1) was found by a park visitor. At unknown dates, unknown people found the remaining associated funerary objects. Those items were not catalogued.

Human remains representing, at least, one individual has been identified. The one lot of associated funerary objects are mammal bone. In 1963, an unknown person removed the human remains and associated funerary objects (ACCN.309–X) from site CA–MRN–1, in Sausalito, Marin County, California. At an unknown date, the California Department of Parks and Recreation acquired the human remains and associated funerary objects.

Human remains representing, at least, 12 individuals and 21 associated funerary objects have been reasonably identified in a Notice of Inventory Completion published in the **Federal Register** on September 12, 2022, by The University of California, Berkeley and the California Department of Parks and Recreation (87 FR 55841–55842). The 371 lots of associated funerary objects listed in this notice are ceramic artifacts, charcoal samples, fire-affected rocks,

flaked stone artifacts, flotation samples, glass artifacts, historic items, modified bone, modified shell, modified stone, organic ecofacts, rocks, shell beads, soil samples, unsorted residue, and unidentified missing material. On October 3, 1994, Thomas Wheeler, California State Parks archaeologist, removed the associated funerary objects (ACCN.P1110) from CA–MRN–284, along the coast of Tomales Bay at the northern end of Tomales Bay State Park, Marin County, California, during work to address erosion.

Marin County has been the ancestral territory of the Coast Miwok since time immemorial. Based on geographical, kinship, archeological, linguistic, folkloric, oral traditional, and historical information evidence, the present-day Federated Indians of Graton Rancheria are culturally affiliated with the Coast Miwok in Marin County.

Cultural Affiliation

Based on the information available and the results of consultation, cultural affiliation is clearly identified by the information available about the human remains and associated funerary objects described in this notice.

Determinations

The California Department of Parks and Recreation has determined that:

- The human remains described in this notice represent the physical remains of 18 individuals of Native American ancestry.
- The 1,853 lots of objects described in this notice are reasonably believed to have been placed intentionally with or near individual human remains at the time of death or later as part of the death rite or ceremony.
- There is a connection between the human remains and associated funerary objects described in this notice and Federated Indians of Graton Rancheria, California.

Requests for Repatriation

Written requests for repatriation of the human remains and associated funerary objects in this notice must be sent to the authorized representative identified in this notice under **ADDRESSES**. Requests for repatriation may be submitted by:

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice.
2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or an Indian Tribe or Native Hawaiian organization with cultural affiliation.

Repatriation of the human remains and associated funerary objects described in this notice to a requestor may occur on or after August 31, 2026. If competing requests for repatriation are received, the California Department of Parks and Recreation must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains and associated funerary objects are considered a single request and not competing requests. The California Department of Parks and Recreation is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice and any other consulting parties.

Authority: Native American Graves Protection and Repatriation Act, 25 U.S.C. 3003, and the implementing regulations, 43 CFR 10.10.

Dated: July 20, 2026.

Notice of Inventory Completion: Louisiana Department of Culture, Recreation, and Tourism, Division of Archaeology, Baton Rouge, LA

AGENCY: National Park Service, Interior.
ACTION: Notice.

SUMMARY: In accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), the Louisiana Division of Archaeology (LDOA) has completed an inventory of human remains and associated funerary objects and has determined that there is a cultural affiliation between the human remains and associated funerary objects and Indian Tribes or Native Hawaiian organizations in this notice.

DATES: Repatriation of the human remains and associated funerary objects in this notice may occur on or after August 31, 2026.

ADDRESSES: Send written requests for repatriation of the human remains and associated funerary objects in this notice to Karla Oesch, Collections Manager, Louisiana Division of Archaeology, P.O. Box 44247 Baton Rouge, LA 70804, email koesch@crt.la.gov.

SUPPLEMENTARY INFORMATION: This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of the Louisiana Division of Archaeology, and additional information on the determinations in this notice, including the results of consultation, can be found in its inventory or related records. The National Park Service is not responsible for the determinations in this notice.

Abstract of Information Available

Human remains representing at least, one individual has been identified from 16AV2, Greenhouse Site, in Avoyelles Parish, LA. The collection was made at some point prior to 2015 and the closure of the museum at the Marksville State Historic Site. In 2015, the collection was transferred to LDOA curation facility. During a 2021 inventory of the collection, the remains were rediscovered. In September 2021, Office of State Parks transferred ownership of the collection to LDOA. No associated funerary objects are present.

Human remains representing at least, one individual has been identified from 16AV13, Upper Saline Mound, in Avoyelles Parish, LA. The exact date for fieldwork is unclear, but the site was visited between 1988 and 1990 by Shuman and Jones. The project was stored at LSU until 1993 when it was transferred to LDOA for long term curation. At least one lot of potentially associated funerary objects was noted including ceramics, lithics, and groudstone.

Human remains representing at least, one individual has been identified from 16AV67, Indian Bayou Mounds, in Avoyelles Parish, LA. The fieldwork was conducted in January 1980 by Duke Rivet. The collection was entered into the LDOA database in 2001. At least one lot of potentially associated funerary objects were noted including ceramics and lithics.

Cultural Affiliation

Based on the information available and the results of consultation, cultural affiliation is reasonably identified by the geographical location or acquisition history of the human remains and associated funerary objects described in this notice.

Determinations

The Louisiana Division of Archaeology has determined that:

- The human remains described in this notice represent the physical remains of three individuals of Native American ancestry.

- The two lots of objects described in this notice are reasonably believed to have been placed intentionally with or near individual human remains at the time of death or later as part of the death rite or ceremony.

- There is a connection between the human remains and associated funerary objects described in this notice and the Alabama-Coushatta Tribe of Texas; Coushatta Tribe of Louisiana; Jena Band of Choctaw Indians; Mississippi Band of Choctaw Indians; and The Choctaw Nation of Oklahoma.

Requests for Repatriation

Written requests for repatriation of the human remains and associated funerary objects in this notice must be sent to the authorized representative identified in this notice under **ADDRESSES**. Requests for repatriation may be submitted by:

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice.
2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or an Indian Tribe or Native Hawaiian organization with cultural affiliation.

Repatriation of the human remains and associated funerary objects described in this notice to a requestor may occur on or after August 31, 2026. If competing requests for repatriation are received, the Louisiana Division of Archaeology must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains and associated funerary objects are considered a single request and not competing requests. The Louisiana Division of Archaeology is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice and any other consulting parties.

Authority: Native American Graves Protection and Repatriation Act, 25 U.S.C. 3003, and the implementing regulations, 43 CFR 10.10.

Notice of Inventory Completion: Montcalm County Sheriff's Office, Stanton, MI

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: In accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), the Montcalm County Sheriff's Office has completed an inventory of human remains and has determined that there is a cultural affiliation between the human remains and Indian Tribes or Native Hawaiian organizations in this notice.

DATES: Repatriation of the human remains in this notice may occur on or after August 31, 2026.

ADDRESSES: Send written requests for repatriation of the human remains in this notice to Lt. Mitchell Chapin, Montcalm County Sheriff's Office, 659 N State Street, Stanton, MI 48888, email mchapin@montcalmcountymi.gov.

SUPPLEMENTARY INFORMATION: This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of the Montcalm County Sheriff's Office, and additional information on the determinations in this notice, including the results of consultation, can be found in its inventory or related records. The National Park Service is not responsible for the determinations in this notice.

Abstract of Information Available

Human remains representing at least one individual have been identified. No associated funerary objects are present. Remains are currently located in the evidence room of the Montcalm County Sheriff's Office. Remains include eight skeletal bones. Skeletal bones are being kept inside of a bag, within a small briefcase. Remains were located by the homeowner at 4169 W Stanton Rd. Stanton, MI 48888. Remains were physically located at the address of 4171 W Stanton Rd. Stanton, MI 48888 in the years 1991 and 1992 while a home was being constructed. Initial remains were collected by the Sheriff's Office in 1991/1992 and analyzed by Western Michigan University (WMU). WMU determined the remains to have laid in the ground for over 100 years and were not of
