*Type of Request:* Extension of a currently approved collection.

*Affected Public:* Businesses or other for-profit and not-for-profit institutions.

*Respondent's Obligation:* Required to obtain or retain benefits.

*Responses per Respondent:* 1.2, approximately.

*Annual Responses:* 147.

*Average Burden per Response:* 42.2 hours, approximately.

*Annual Burden Hours:* 6,200.

*Needs and Uses:* The clause at DFARS 252.215–7002, Cost Estimating System Requirements, requires that certain large business contractors—

- Establish an acceptable cost estimating system and disclose the estimating system to the administrative contracting officer in writing;
- Maintain the estimating system and disclose significant changes in the system to the administrative contracting officer on a timely basis; and
- Respond in writing to written reports from the Government that identify material weaknesses in the estimating system.

DoD contracting officers use this information to determine if the contractor has an adequate system for generating cost estimates, which forecasts costs based on appropriate source information available at the time, and has the ability to monitor the correction of material weaknesses. The need for information collection decreases as contractor estimating systems improve and gain contracting officer approval.
