Records Governing Off-the-Record Communications; Public Notice

This constitutes notice, in accordance with 18 CFR 385.2201(b), of the receipt of prohibited and exempt off-the-record communications.

Order No. 607 (64 FR 51222, September 22, 1999) requires Commission decisional employees, who make or receive a prohibited or exempt off-the-record communication relevant to the merits of a contested proceeding, to deliver to the Secretary of the Commission, a copy of the communication, if written, or a summary of the substance of any oral communication.

Prohibited communications are included in a public, non-decisional file associated with, but not a part of, the decisional record of the proceeding. Unless the Commission determines that the prohibited communication and any

responses thereto should become a part of the decisional record, the prohibited off-the-record communication will not be considered by the Commission in reaching its decision. Parties to a proceeding may seek the opportunity to respond to any facts or contentions made in a prohibited off-the-record communication and may request that the Commission place the prohibited communication and responses thereto in the decisional record. The Commission will grant such a request only when it determines that fairness so requires. Any person identified below as having made a prohibited off-the-record communication shall serve the document on all parties listed on the official service list for the applicable proceeding in accordance with Rule 2010, 18 CFR 385.2010.

Exempt off-the-record communications are included in the decisional record of the proceeding, unless the communication was with a cooperating agency as described by 40 CFR 1501.6, made under 18 CFR 385.2201(e)(1)(v).

The following is a list of off-the-record communications recently received by the Secretary of the Commission. Each filing may be viewed on the Commission’s website at <http://www.ferc.gov> using the eLibrary link. Enter the docket number, excluding the last three digits, in the docket number field to access the document. [Project No. 5912–004]

Town of Dover-Foxcroft; Notice of Intent To Prepare an Environmental Assessment

On May 1, 2026, the Town of Dover-Foxcroft (exemptee) filed an application for surrender of exemption from licensing for the Moosehead Hydroelectric Project No. 5912. The project is located on the Piscataquis River in the Town of Dover-Foxcroft in

Piscataquis County, Maine and does not occupy federal lands.

The exemptee proposes to surrender its exemption from licensing. The project has been inoperable since 2007. The Town determined that repair and redevelopment of the hydroelectric project would be cost prohibitive and uneconomical. The Town proposes to decommission the project by entirely removing the dam and powerhouse and restoring the riverbed.

A Notice of Application for Surrender of Exemption Accepted for Filing and Soliciting Comments, Motions to Intervene, and Protests was issued on June 5, 2026. The National Marine

Fisheries Service (NMFS), U.S. Fish and Wildlife Service, Maine Department of Inland Fisheries and Wildlife (Maine DIFW), and Maine Department of Marine Resources (Maine DMR) filed notices of intervention. In addition, the following entities filed comments in support of the proposed surrender: NMFS, Maine DIFW, Maine DMR, the Atlantic Salmon Federation, The Nature Conservancy, Maine Audubon, Maine Rivers, the Penobscot River Restoration Trust, and the Natural Resources Council of Maine. No other comments were received.

This notice identifies Commission staff's intention to prepare an environmental assessment (EA) under the National Environmental Policy Act (42 U.S.C. 4321 *et seq.*) for the project.¹ Commission staff plans to issue an EA by January 8, 2027. Revisions to the schedule may be made as appropriate. The EA will be issued for a 30-day comment period. All comments filed on the EA will be reviewed by staff and considered in the Commission's final decision on the proceeding.

For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, contact the Office of Public Participation at (202) 502-6595 or OPP@ferc.gov.

Dominion Energy South Carolina, Inc; Notice of Intent To Prepare an Environmental Assessment

On June 4, 2026, Dominion Energy South Carolina, Inc filed a request to amend the Turbine Venting Plan for the Parr Hydroelectric Project No. 1894. The project is located on the Broad River in Newberry and Fairfield counties, South Carolina. The project occupies federal lands managed by the US Forest Service

(USFS) within the Sumter National Forest.

The licensee requests Commission approval to amend the project's Turbine Venting Plan (Plan) such that the seasonal turbine venting window specified in the Plan, currently June 15 through August 31, be modified to June 15 through October 31, to increase dissolved oxygen levels downstream of Parr Shoals Dam. The licensee also requests Commission approval to amend Article 401(b), which, in part, requires the licensee to obtain Commission approval for extensions of the current turbine venting window that exceed 30 days (*i.e.*, extensions beyond September 30). The licensee requests Article 401(b) be amended so that it is consistent with the turbine venting window described above in the amended Plan.

This notice identifies Commission staff's intention to prepare an environmental assessment (EA) under the National Environmental Policy Act (42 U.S.C. 4321 *et seq.*) for the project.¹ Commission staff plans to issue an EA by September 30, 2026. Revisions to the schedule may be made as appropriate. All comments filed on the EA will be reviewed by staff and considered in the Commission's final decision on the proceeding.
