

SUPPLEMENTARY INFORMATION: Section 315(f) of the Coastal Zone Management Act (CZMA) requires NOAA to conduct periodic evaluations of federally approved National Estuarine Research Reserves. The evaluation process includes holding one or more public meetings, considering public comments, and consulting with interested Federal, State, local agencies, and members of the public. During the evaluation, NOAA will consider the extent to which the state has met the national objectives and adhered to the management plan approved by the Secretary of Commerce, the requirements of Section 315 of the CZMA, and the terms of financial assistance under the CZMA. When the evaluation is complete, NOAA's Office for Coastal Management will place a notice in the **Federal Register** announcing the availability of the final evaluation findings.

SUPPLEMENTARY INFORMATION:

Title and OMB Number: Defense Federal Acquisition Regulation Supplement (DFARS) Subpart 215.4, Contract Pricing, and Related Clause at DFARS 252.215; OMB Control Number 0704–0232.

Type of Request: Extension of a currently approved collection.

Affected Public: Businesses or other for-profit and not-for-profit institutions.

Respondent's Obligation: Required to obtain or retain benefits.

Frequency: On Occasion.

Number of Respondents: 124.

Responses per Respondent: 1.2, approximately.

Annual Responses: 147.

Average Burden per Response: 42.2 hours, approximately.

Annual Burden Hours: 6,200.

Needs and Uses: The clause at DFARS 252.215–7002, Cost Estimating System Requirements, requires that certain large business contractors—

- Establish an acceptable cost estimating system and disclose the estimating system to the administrative contracting officer in writing;
- Maintain the estimating system and disclose significant changes in the system to the administrative contracting officer on a timely basis; and
- Respond in writing to written reports from the Government that identify material weaknesses in the estimating system.

DoD contracting officers use this information to determine if the contractor has an adequate system for generating cost estimates, which forecasts costs based on appropriate source information available at the time, and has the ability to monitor the correction of material weaknesses. The need for information collection decreases as contractor estimating systems improve and gain contracting officer approval. Due to the use of current data, the burden calculation for this information collection has been reduced.

Needs and Uses:

DFARS 252.232–7007, *Limitation of Government's Obligation*. The data submitted by contractors enables contracting officers to calculate improved financing opportunities that will provide benefit to both industry (prime contractor and subcontractor level) and the taxpayer. DFARS 252.232–7007 is prescribed for use in solicitations and resulting incrementally-funded fixed-price contracts. Paragraph (c) of the clause requires a written notification from the contractor that: (1) states the estimated date when the total amount payable by the Government, including any cost for termination for convenience, will approximate 85 percent of the total amount then allotted to the contract for performance of the applicable items; (2) states an estimate of additional funding, if any, needed to continue performance of applicable line items up to the next

scheduled date for allotment of funds, or to a mutually agreed upon substitute date; and (3) advises the contracting officer of the estimated amount of additional funds that will be required for the timely performance of the items funded pursuant to the clause, for a subsequent period as may be specified in the allotment schedule or otherwise agreed to by the parties to the contract.

DFARS 252.232–7012, *Performance Based Payments—Whole Contract Basis*. Contracting officers use the information provided by contractors to create a cash-flow model for use in evaluating alternative financing arrangements. The analysis tool calculates improved financing opportunities that will provide benefit to both industry (prime contractor and subcontractor level) and the taxpayer.

DFARS 252.232–7012 requires contractors to report the negotiated value of all previously completed performance-based payments; negotiated value of current performance-based payment(s) event(s); cumulative negotiated value of performance-based payment(s) events completed to date; total costs incurred to date; cumulative amount of payments previously requested; and the payment amount requested for the current performance-based payment.

DFARS 252.232–7013, *Performance Based Payments—Deliverable-Item Basis*. DFARS 252.232–7013 requires contractors to report the negotiated value of current performance-based payment(s) event(s); cumulative negotiated value of performance-based payment(s) events completed to date; total costs incurred to date; cumulative amount of payments previously requested; and the payment amount requested for the current performance-based payment.

Due to the use of current data, the burden calculation for OMB Control Number 0704–0359 has been reduced.

DoD Clearance Officer: Mr. Reginald T. Lucas. Requests for copies of the information collection proposal should be sent to Mr. Lucas at whs.mc-alex.esd.mbx.dd-dod-information-collections@mail.mil.
