

of power operations and refueling of the DAEC reactor.

The need for the NRC's proposed actions, which would collectively support the reauthorization of power operations and refueling of the DAEC reactor under the existing RFL, is to provide 610 megawatts-electric of baseload power generation capability through February 21, 2034. In support of its decision to pursue the resumption of power operations at DAEC, NEDA cites a 25-year power purchase agreement signed in 2025 with Google to supply carbon-free energy from DAEC to Google's cloud and artificial intelligence infrastructure in Iowa.

Environmental Impacts of the Proposed Federal Actions

In the draft EA, the NRC staff assessed the potential reasonably foreseeable environmental effects (impacts) from the proposed actions associated with the following relevant resource areas: land use and visual resources; meteorology, air quality, and noise; surface water resources; groundwater resources, ecological resources (terrestrial and aquatic); Federally protected ecological resources, historic and cultural resources; socioeconomic conditions; radiological and nonradiological human health; waste management; uranium fuel cycle and transportation; and postulated accidents. The NRC staff also considered decommissioning impacts as well as greenhouse gas emissions and climate change effects. The NRC staff determined that the environmental

impacts of the proposed actions would be NOT SIGNIFICANT for each potentially affected environmental resource area. In addition, the NRC staff determined that the projected effects of climate change would not alter any of the impact determinations described in the EA.

Environmental Impacts of Alternatives to the Proposed Federal Actions

The NRC staff considered a reasonable range of alternatives to the proposed actions, including an analysis of any environmental impacts of not implementing the proposed actions (*i.e.*, the no-action alternative). The NRC staff determined that there are no alternatives that meet the need for the proposed actions. For the no-action alternative, the NRC staff determined that the environmental impacts could potentially be SIGNIFICANT. In contrast, the potential environmental impacts from the proposed actions of reauthorizing power operations at the existing DAEC would be NOT SIGNIFICANT for each potentially affected environmental resource area. Therefore, the NRC staff concluded that there are no environmentally preferable alternatives to the proposed actions.

IV. Draft Finding of No Significant Impact

The proposed Federal actions before the NRC are whether to grant requests for an exemption and license amendments to support reauthorizing power operations at DAEC through the remainder of its RFL term (to February

21, 2034). The NRC staff has conducted an environmental review of these actions and prepared a draft EA. This draft FONSI incorporates by reference the draft EA summarized in Section III of this notice and referenced in Section V of this notice. Based on its preliminary determination in the draft EA that the environmental impacts of the proposed actions would be NOT SIGNIFICANT for each potentially affected resource area, the NRC staff is issuing a draft determination that the proposed Federal actions will not have a significant effect on the quality of the human environment. Accordingly, the NRC staff has made a draft determination not to prepare an EIS for the proposed Federal actions and that a FONSI is warranted.

This draft FONSI and the related environmental documents are available for public inspection as discussed in the draft EA and Section I of this notice. Before making its final determination, the NRC staff will consider comments on the draft EA and draft FONSI received over a 30-day public comment period from Federal, State, Tribal, and local officials and members of the public. Once the NRC staff makes its final determination, the NRC will publish the final EA and final FONSI or proceed to prepare an EIS.

- III. Summary Proceeding(s)

I. Introduction

Pursuant to 39 CFR 3041.405, the Commission gives notice that the Postal Service filed request(s) for the Commission to consider matters related

to Competitive negotiated service agreement(s). The request(s) may propose the addition of a negotiated service agreement from the Competitive product list or the modification of an existing product currently appearing on the Competitive product list.

The public portions of the Postal Service’s request(s) can be accessed via the Commission’s website (<http://www.prc.gov>). Non-public portions of the Postal Service’s request(s), if any, can be accessed through compliance with the requirements of 39 CFR 3011.301.¹

Section II identifies the docket number(s) associated with each Postal Service request, if any, that will be reviewed in a public proceeding as defined by 39 CFR 3010.101(p), the title of each such request, the request’s acceptance date, and the authority cited by the Postal Service for each request. For each such request, the Commission appoints an officer of the Commission to represent the interests of the general public in the proceeding, pursuant to 39 U.S.C. 505 and 39 CFR 3000.114 (Public Representative). The Public Representative does not represent any individual person, entity or particular point of view, and, when Commission attorneys are appointed, no attorney-client relationship is established. Section II also establishes comment deadline(s) pertaining to each such request.

The Commission invites comments on whether the Postal Service’s request(s) identified in Section II, if any, are consistent with the policies of title 39. Applicable statutory and regulatory requirements include 39 U.S.C. 3632, 39 U.S.C. 3633, 39 U.S.C. 3642, 39 CFR part 3035, and 39 CFR part 3041. Comment deadline(s) for each such request, if any, appear in Section II.

Section III identifies the docket number(s) associated with each Postal Service request, if any, to add a standardized distinct product to the
