

Rules and Regulations

Federal Register

Vol. 91, No. 147

Monday, August 3, 2026

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA–2026–1621; Airspace Docket No. 25–AWP–149]

RIN 2120–AA66

Amendment of Very High Frequency Omnidirectional Range Federal Airways V–108 in the Vicinity of Concord, California

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends Very High Frequency Omnidirectional Range (VOR) Federal Airway V–108 in the vicinity of Concord, California. The FAA is taking this action due to the planned decommissioning of the Concord VOR/Distance Measuring Equipment (DME) navigational aid (NAVAID) as part of the VOR Minimum Operational Network (MON) program.

DATES: Effective date 0901 UTC, October 29, 2026. The Director of the Federal Register approves this incorporation by reference action under 14 CFR part 71, subject to the annual revision of FAA Order JO 7400.11 and publication of conforming amendments.

ADDRESSES: A copy of the notice of proposed rulemaking (NPRM), all comments received, this final rule, and all background material may be viewed online at www.regulations.gov using the FAA Docket number. Electronic retrieval help and guidelines are available on the website. It is available 24 hours each day, 365 days each year. An electronic copy of this document may also be downloaded from www.federalregister.gov.

FAA Order JO 7400.11K, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at www.faa.gov/air_traffic/publications/. You may also contact the

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it modifies the Air Traffic Services (ATS) route structure as necessary to preserve the safe and efficient flow of air traffic within the National Airspace System.

History

The FAA published an NPRM for Docket No. FAA–2026–1621 in the **Federal Register** (91 FR 8797; February 24, 2026), proposing to amend Very High Frequency Omnidirectional Range (VOR) Federal Airway V–108 in the vicinity of Concord, California. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Incorporation by Reference

VOR Federal Airways are published in paragraph 6010 of FAA Order JO 7400.11, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 on an annual basis. This document amends the current version of that order, FAA Order JO 7400.11K, dated August 4, 2025, and effective September 15, 2025. These amendments will be published in the next update to FAA Order JO

7400.11. FAA Order JO 7400.11K, which lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points, is publicly available as listed in the **ADDRESSES** section of this document.

The Rule

The FAA is amending 14 CFR part 71 by modifying VOR Federal Airway V–108 in the vicinity of Concord, California.

V–108: Prior to this final rule, V–108 extended between the intersection of the Point Reyes, CA, VOR/DME 006° and the Scaggs Island, CA, VORTAC 314° radials and the Hill City, KS, VORTAC. A portion of V–108, Scaggs Island VORTAC and the Linden, CA, VOR/DME will become unusable with the decommissioning of Concord, CA, VOR/DME. As amended, V–108 would extend between the intersection of the Point Reyes, CA, VOR/DME 006° and the Scaggs Island, CA, VORTAC 314° radials and the Hill City, KS, VORTAC.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Order 2100.6B, “Rulemaking and Guidance Procedure” (March 10, 2025); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action of amending Very High Frequency Omnidirectional Range (VOR) Federal Airway V–108 qualifies for categorical exclusion under the National Environmental Policy Act (42 U.S.C. 4321, *et seq.*) and FAA Order 1050.1G, *FAA National Environmental Policy Act Implementing Procedures*, paragraph B–2.5(a) which categorically excludes from further environmental impact review rulemaking actions that

designate or modify classes of airspace areas, airways, routes, and reporting points (see 14 CFR part 71, Designation of Class A, B, C, D, and E Airspace Areas; Air Traffic Service Routes; and Reporting Points); and paragraph B–2.5(k), which categorically excludes from further environmental impact review the publication of existing air traffic control procedures that do not essentially change existing tracks, create new tracks, change altitude, or change the concentration of aircraft on these tracks. As such, this action is not expected to result in any potentially significant environmental impacts. Additionally, in accordance with Appendix B, paragraph B–1 of FAA Order 1050.1G, the FAA has determined that no extraordinary circumstances exist that warrant preparation of an environmental assessment or environmental impact statement.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR Part 71 continues to read as follows:

Authority: 49 U.S.C. 106(f), 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of FAA Order JO 7400.11K, Airspace Designations and Reporting Points, dated August 4, 2025, and effective September 15, 2025, is amended as follows:

Paragraph 6010 VOR Federal Airways.

* * * * *

V–108 [Amended]

From INT Point Reyes 006° and Scaggs Island 314° radials, via Scaggs Island, CA; INT Scaggs Island 131° and Oakland, CA, 004° radials; From INT Sacramento 194° and Linden 268° radials; Linden, CA. From Meeker, CO; via Red Table, CO; Black Forest, CO; Hugo, CO; 74 miles, 65 MSL, Goodland, KS; Hill City, KS.

RIN 2120–AA66

Establishment of United States Area Navigation Route T–581 in the Vicinity of Missoula, Montana

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action establishes United States Area Navigation (RNAV) Route T–581 in the vicinity of Missoula, Montana. The FAA is taking this action to increase navigational flexibility and safety margins for the users and to expand Air Traffic Control operational capabilities.

DATES: Effective date 0901 UTC, October 29, 2026. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order JO 7400.11 and publication of conforming amendments.

ADDRESSES: A copy of the notice of proposed rulemaking (NPRM), all comments received, this final rule, and all background material may be viewed online at www.regulations.gov using the FAA Docket number. Electronic retrieval help and guidelines are available on the website. It is available 24 hours each day, 365 days each year. An electronic copy of this document may also be downloaded from www.federalregister.gov.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it modifies the Air Traffic Services (ATS) route structure as necessary to preserve the safe and efficient flow of air traffic within the National Airspace System.

History

The FAA published an NPRM for Docket No. FAA–2025–3288 in the **Federal Register** (90 FR 57721; December 12, 2025), proposing to establish United States Area Navigation (RNAV) Route T–581 in the vicinity of Missoula, Montana. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Incorporation by Reference

United States Area Navigation Routes are published in paragraph 6011 of FAA Order JO 7400.11, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 on an annual basis. This document amends the current version of that order, FAA Order JO 7400.11K, dated August 4, 2025, and effective September 15, 2025. These amendments will be published in the next update to FAA Order JO 7400.11. FAA Order JO 7400.11K, which lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points, is publicly available as listed in the **ADDRESSES** section of this document.

The Rule

The FAA is amending 14 CFR part 71 by establishing RNAV Route T–581 in the vicinity of Missoula, Montana.

T–581: As a new RNAV route, T–581 extends between the Missoula, MT, VOR/DME and the Kalispell, MT, VOR/DME.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established
