Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice; request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's

burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

DATES: Written PRA comments should be submitted on or before October 2, 2026. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicole Ongele, FCC, via email PRA@fcc.gov and to nicole.ongele@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Nicole Ongele, (202) 418–2991.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060–0805.

Title: Section 90.527, Regional Plan Requirements; and Section 90.523, Eligibility.

Form No.: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for profit; not-for-profit institutions; state, local or tribal government.

Number of Respondents and Responses: 1,066 respondents; 1,066 responses.

Estimated Time per Response: 1 hour.

Frequency of Response: On occasion reporting and one-time reporting requirements; third party disclosure.

Obligation to Respond: Required to obtain or retain benefits (47 CFR 90.523 and 90.527). Statutory authority for this information collection is contained in 4(i), 11, 303(g), 303(r), 332(c)(7), and 337(f) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 161, 303(g), 303(r), 332(c)(7), and 337(f), unless otherwise noted.

Total Annual Burden: 1,066 hours.

Total Annual Cost: No Cost.

Needs and Uses: Section 90.523 requires that nongovernmental organizations that provide services which protect the safety of life or property obtain a written statement from an authorizing state or local government entity to support the nongovernmental organization's application for assignment of 700 MHz frequencies.

Section 90.527 requires 700 MHz regional planning regions to submit an initial plan for use of the 700 MHz general use spectrum in the

consolidated narrowband segment 769–775 MHz and 799–805 MHz. Regional planning committees may modify plans by written request, which must contain the full text of the modification and certification that the modification was successfully coordinated with adjacent regions. Regional planning promotes a fair and open process in developing allocation assignments by requiring input from eligible entities in the allocation decisions and the application technical review/approval process. Entities that seek inclusion in the plan to obtain future licenses are considered third party respondents.

Commission staff use the information to assign licenses, determine regional spectrum requirements and to develop technical standards. The information is also used to determine whether prospective licensees operate in compliance with the Commission's rules. Without such information, the Commission could not accommodate regional requirements or provide for the efficient use of the available frequencies. This information collection includes rules to govern the operation and licensing of the 700 MHz band rules and regulation to ensure that licensees continue to fulfill their statutory responsibilities in accordance with the Communications Act of 1934, as amended. Such information will continue to be used to verify that applicants are legally and technically qualified to hold licenses, and to determine compliance with Commission rules.
