

Subject merchandise also includes components entered with (*i.e.*, on the same bill of lading as) van-type trailers and subassemblies, such as, but not limited to: hub and drum assemblies, brake assemblies (either drum or disc), bare axles, brake chambers, suspensions and suspension components, wheel end components, landing gear legs, wheels, tires, brake control systems, electrical harnesses and lighting systems, lift gate systems, tire inflation systems, or refrigeration units (with or without evaporators or fuel tanks) whether assembled or unassembled, whether as part of a kit or not, and whether or not accompanied by additional components that constitute as part of an unfinished and/or unassembled van-type trailer and subassemblies thereof that are subject to the investigation.

Processing of finished and unfinished van-type trailers and subassemblies, such as trimming, cutting, grinding, notching, punching, drilling, painting, coating, staining, finishing, assembly, or any other processing either in the country of manufacture of the in-scope product or in a third country does not remove the product from the scope. Inclusion of other components not identified as comprising the finished or unfinished van-type trailer does not remove the product from the scope.

Specifically excluded are subassemblies covered by the scope of the antidumping and countervailing duty orders on certain chassis and subassemblies thereof from the People's Republic of China. *See Certain Chassis and Subassemblies Thereof from the People's Republic of China: Antidumping Duty Order*, 86 FR 36093 (July 8, 2021) and *Certain Chassis and Subassemblies Thereof from the People's Republic of China: Countervailing Duty Order and Amended Final Affirmative Countervailing Duty Determination*, 86 FR 24844 (May 10, 2021).
