in this notice on or before September 3, 2026.

ADDRESSES: Submit your objections via email to *CSAPR@epa.gov.* Include ''2025 CSAPR Assurance Provisions'' in the email subject line and include your name, title, affiliation, address, phone number, and email address in the body of the email.

FOR FURTHER INFORMATION CONTACT: For information about this notice, contact Lisa Thompson at telephone number: (919) 541–5158 or email address: *thompson.lisa@epa.gov.*

SUPPLEMENTARY INFORMATION: *Preamble acronyms and abbreviations.* Throughout this document, the use of ''we,'' ''us,'' or ''our'' refers to the EPA. The EPA uses multiple acronyms and terms in this preamble. While this list may not be exhaustive, to ease the reading of this preamble and for reference purposes, the EPA defines the following terms and acronyms here:

CFR Code of Federal Regulations
CSAPR Cross-State Air Pollution Rule
EPA Environmental Protection Agency
FR Federal Register
NODA Notice of data availability
NOX Nitrogen oxides

The regulations for each CSAPR trading program contain ''assurance provisions'' designed to ensure that the emission reductions required from each State covered by the program occur within the State. If total emissions from a State's affected units exceed the State's assurance level, the State must surrender two allowances for each ton of emissions exceeding the assurance level (in addition to the ordinary obligation to surrender one allowance for each ton of emissions). In the emissions reports covering the 2025 control period, Virginia units participating in the CSAPR NO_X Ozone Season Group 2E Trading Program reported emissions exceeding the State's assurance level under the program by 70 tons, resulting in a requirement to surrender 140 additional allowances.

When a State exceeds its assurance level, the EPA apportions the responsibility for surrendering the required additional allowances among groups of units in the State represented by ''common designated representatives'' based on the extent to which each group's emissions exceeded the group's share of the State's assurance level.[1] Applying the procedures in the regulations for the 2025 control period, the EPA completed preliminary calculations that indicate that the responsibility for surrendering 140 additional allowances in Virginia should be apportioned primarily to the group of units operated by Hopewell Power Generation, LLC and Dominion Generation, with smaller shares apportioned to the groups of units operated by Wolf Hills Energy, LLC and Calpine Operating Services Company, Inc.

In this notice, the EPA is providing notice of the data on which the Agency relied to determine the amounts of the exceedance of the Virginia assurance level and the notice of the preliminary calculations of the amounts of additional allowances that owners and operators of certain Virginia units must surrender as a result of the exceedance.[2] By October 1, 2026, the EPA will provide notice of the final calculations of the amounts of additional allowances that must be surrendered, incorporating any adjustments made in response to objections received.[3] Each set of owners and operators identified pursuant to the notice of the final calculations must hold the required additional allowances in an assurance account by November 1, 2026.

The data and preliminary calculations are available in an Excel spreadsheet titled ''2025_CSAPR_assurance_provision_calculations_prelim.xlsx'' at *https://www.epa.gov/Cross-State-Air-Pollution/csapr-assurance-provision-nodas.* The spreadsheet contains data for the 2025 control period showing, for each Virginia unit identified as affected under the CSAPR NO_X Ozone Season Group 2E Trading Program, the unit's reported amount of NO_X emissions and the amount of CSAPR NO_X Ozone Season Group 2E allowances allocated to the unit, including any allowances allocated from new unit set-asides. The spreadsheet also provides 2025 control period calculations showing the total reported NO_X emissions from all such units in Virginia and the amounts by which those total reported NO_X emissions exceeded the State's assurance level under the program. Finally, the spreadsheet includes calculations for the 2025 control period showing, for each common designated representative for a group of such units, the common designated representative's share of the total reported NO_X emissions, the common designated representative's share of the State's assurance level, and the amount of additional CSAPR NO_X Ozone Season Group 2E allowances that the owners and operators of the units in the group must surrender.

Objections should strictly be limited to whether the EPA identified the data and performed the calculations in the spreadsheet correctly in accordance with the regulations. Objections must include: (1) precise identification of the specific data or calculations the commenter believes are inaccurate, (2) new proposed data or calculations upon which the commenter believes the EPA should rely instead, and (3) the reasons why the EPA should rely on the commenter's proposed data or calculations and not the data and calculations referenced in this notice.

Abigale Tardif,

Principal Deputy Assistant Administrator, Office of Air and Radiation, U.S. Environmental Protection Agency.

BILLING CODE 6560–50–P

[1] For the CSAPR NO_X Ozone Season Group 2E Trading Program, the procedures are set forth at 40 CFR 97.802 (definitions of ''common designated representative,'' ''common designated representative's assurance level,'' and ''common designated representative's share''), 97.806(c)(2) and (c)(4)(iv), and 97.825.

[2] 40 CFR 97.825(b)(1)(ii).

[3] 40 CFR 97.825(b)(2)(ii).

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–1255; FR ID 360075]

Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice; request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before October 5, 2026. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email to *PRA@fcc.gov* and to *Cathy.Williams@fcc.gov.*

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418–2918.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060–1255.

Title: Rules and Policies Regarding Calling Number Identification Service—Caller ID, CC Docket No. 91–281.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 46,291 respondents; 1,705 responses.

Estimated Time per Response: .083 hours (5 minutes).

Frequency of Response: Monthly and on-going reporting requirements.

Obligation to Respond: Required to obtain or retain benefit. The statutory authority for the information collection requirements is found at section 201(b) of the Communications Act of 1934, as amended, 47 U.S.C. 201(b), and section 222, 47 U.S.C. 222. The Commission's implementing rules are codified at 47 CFR 64.1600–01.

Total Annual Burden: 142 hours.

Total Annual Cost: No cost.

Needs and Uses: The Commission amended rules requiring that carriers honor privacy requests to state that § 64.1601(b) of the Commission's rules shall not apply when calling party number (CPN) delivery is made in connection with a threatening call. Upon report of such a threatening call by law enforcement on behalf of the threatened party, the carrier will provide any CPN of the calling party to law enforcement and, as directed by law enforcement, to security personnel for the called party for the purpose of identifying the party responsible for the threatening call. Carriers now have a recordkeeping requirement in order to quickly provide law enforcement with information relating to threatening calls.

The Commission also amended rules to allow non-public emergency services to receive the CPN of all incoming calls from blocked numbers requesting assistance. The Commission believes amending its rules to allow non-public emergency services access to blocked Caller ID promotes the public interest by ensuring timely provision of emergency services without undermining any countervailing privacy interests. Carriers now have a recordkeeping requirement in order to provide emergency serve providers with the information they need to assist callers.

Federal Communications Commission.

Marlene Dortch,

Secretary, Office of the Secretary.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060–0110.

Title: FCC Form 2100, Application for Renewal of Broadcast Station License, LMS Schedule 303–S.

Form Number: FCC Form 2100, LMS Schedule 303–S.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities; Not for profit institutions; State, Local or Tribal Governments.

Number of Respondent and Responses: 4,738 respondents, 4,738 responses.

Estimated Time per Response: 0.075 hours—12 hours.

Frequency of Response: On occasion reporting requirement; Every eight-year reporting requirement; Third party disclosure requirement.

Total Annual Burden: 13,090 hours.

Total Annual Cost: $4,181,731.

Obligation of Respond: Required to obtain or retain benefits. The statutory authority for the collection is contained Sections 154(i), 303, 307 and 308 of the Communications Act of 1934, as amended, and Section 204 of the Telecommunications Act of 1996.

Needs and Uses: The Commission is requesting Office of Management and Budget (OMB) approval for an extension of an existing information collection.

The Licensing Management System (LMS) Schedule 303–S is used to apply for license renewals for commercial or noncommercial AM, FM, TV, FM translator, TV translator, Class A TV, or Low Power TV, and Low Power FM broadcast station licenses. Licensees of broadcast stations must apply for renewal of their licenses every eight years.

Schedule 303–S's On-Air and Online Notice (third party disclosure) Requirements: 47 CFR 73.3580, as amended in the Commission's *2020 Public Notice Second Report and Order,* requires local public notice of the filing of all applications to renew a broadcast
