

9,600 comments on the draft EIS and one comment on the draft PPRA. However, on August 18, 2025, APHIS published a withdrawal of the NOI (90 FR 40050; Docket No. APHIS–2025–0029). Therefore, consistent with this August 18, 2025 **Federal Register** notice, APHIS terminated work on the EIS.

Based on APHIS' evaluation in the PPRA of information and data submitted by Bayer/Monsanto in its petition, available scientific data, and public comments received in response to the petition and draft PPRA, APHIS has determined that MON 87429 is unlikely to pose a greater plant pest risk than the unmodified comparator and therefore is no longer subject to our regulations in 7 CFR part 340 governing the introduction of certain organisms developed using genetic engineering.

Copies of the signed determination, PPRA, and response to comments, as well as the previously published petition and supporting documents, are available as indicated in the **ADDRESSES** and **FOR FURTHER INFORMATION CONTACT** sections of this notice.

SUPPLEMENTARY INFORMATION:

Title: Land Exchanges.

OMB Number: 0596–0105.

Expiration Date of Approval: April 30, 2027.

Type of Request: Extension without revision of a currently approved information collection.

Abstract: Land exchanges are discretionary, voluntary real estate transactions between the Secretary of Agriculture (acting by and through the Forest Service) and a non-Federal exchange party (or parties). Land exchanges can be initiated by a non-Federal party (or parties), an agent of a landowner, a broker, a third party, or a non-Federal public agency.

If the authorized officer agrees to proceed with an exchange proposal, all prospective parties must execute an Agreement to Initiate as required by Title 36 Code of Federal Regulations (CFR), part 254, subpart A—section 254.4—Agreement to Initiate. The Agreement to Initiate document specifies the preliminary and non-binding intentions of the non-Federal land exchange party and the Forest Service in pursuing a land exchange. The Agreement to Initiate must contain, among other information, the description of properties being considered in the land exchange, an implementation schedule of action items, identification of the party responsible for each action item, as well as target dates for completion of each action item.

After the authorized officer decides to approve the exchange under 36 CFR 254.13, the Forest Service and the non-Federal land exchange party may enter into a binding Exchange Agreement, pursuant to Title 36 CFR part 254, subpart A, section 254.14—Exchange Agreement. Its legally binding effect is subject to the conditions specified in 36 CFR 254.14(b). The Exchange Agreement documents the conditions that must be met to complete the exchange. The Exchange Agreement must contain identification of parties, description of lands and interests to be

exchanged, identification of all reserved and outstanding interest, stipulation of any necessary cash equalization, terms regarding responsibility for hazardous substances on the involved non-Federal lands, the agreed-upon values of the involved lands, and all other terms and conditions necessary to complete the exchange.

The Forest Service collects the information from the non-Federal party (or parties) necessary to complete the Agreement to Initiate and the Exchange Agreement. The information is collected by Forest Service personnel from parties involved in the exchange via telephone, email or in person. Data from this information collection is unique to each land exchange and is not available from other sources. No standardized forms are associated with this information collection.
