[Project No. 175–032]

Pacific Gas and Electric Company; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380, the Office of Energy Projects has reviewed the application for a new license to continue to operate and maintain the Balch Hydroelectric Project No. 175. The existing 131.52-megawatt (MW) project is located on the North Fork Kings River in Fresno County, California, approximately 45 miles northeast of the City of Fresno. The project currently occupies 506.28 acres of federal land in the Sierra and Sequoia National Forests managed by the U.S. Forest Service. Commission staff has prepared an Environmental Assessment (EA) for the project.

The EA contains staff's analysis of the potential environmental impacts of the project and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

The Commission provides all interested persons with an opportunity to view and/or print the EA via the internet through the Commission's Home Page (<http://www.ferc.gov/>), using the "eLibrary" link. Enter the docket number, excluding the last three digits in the docket number field (*i.e.*, P–175), to access the document. For assistance,
