

seeking consent from nominees for FDA to publicly post their CVs in the event they are selected to serve on an FDA advisory committee.

In the **Federal Register** of March 23, 2026 (91 FR 13852), FDA published a 60-day notice requesting public comment on the proposed collection of information. We received one comment. The comment suggests our process could be easier if we were to have more on-line tools available. They also commented that FDA should be clearer on how the information is used in decision making.

FDA appreciates the comment. FDA has established an applicant portal on its website at: <https://www.accessdata.fda.gov/scripts/FACTRSPortal/FACTRS/>

*index.cfm* through which submissions are made to the Agency. To facilitate reporting we have established a standardized electronic format for information data elements and a separate functionality for uploading necessary documentation, such as CVs and letters of recommendation.

This data and information are made available to Agency staff to allow them to conduct reviews of nominations and coordinate follow-up with the potential candidate to explain the advisory committee process and confirm their willingness to serve. If a candidate is deemed acceptable for participation on a committee, further action is taken to appoint them to a specific advisory

committee that is appropriate to their expertise and the committee's function. FDA publishes the CV of new advisory committee members on our website. FDA believes this will increase public confidence that FDA's review of advisory committee membership nominations and the subsequent selection process has been conducted thoroughly and objectively, without regard to politics or relationships with third parties. Applying this policy across all FDA advisory committees further supports FDA's goal of maintaining science as the primary determinant in Agency decision making.

FDA estimates the burden of this collection of information as follows:

TABLE 1—ESTIMATED ANNUAL REPORTING BURDEN<sup>1 2</sup>
