III. Summary of Public Comments Received and Agency Response to Comments

During the public comment period provided, EPA received four comments in response to the February 19, 2026, **Federal Register** notice announcing the Agency's receipt of the requests for voluntary cancellations and/or amendments to terminate uses of products listed in Tables 1, and 2 of Unit II, (91 FR 7979) (FRL–13170–01–OCSPP). Three of the comments agree with canceling pesticides which is the purpose of this **Federal Register** Notice. One comment was specific to paraquat, a chemical not listed in this **Federal Register** Notice; therefore, no response will be provided to the comment in this **Federal Register** Notice.

IV. Cancellation Order

Pursuant to FIFRA section 6(f) (7 U.S.C. 136d(f)(1)), EPA hereby approves the requested cancellations and/or amendments to terminate uses of registrations identified in Tables 1 and 2 of Unit II. Accordingly, the Agency hereby orders that the product registrations identified in Tables 1 and 2 of Unit II, are canceled and/or amended to terminate the affected uses. The effective date of the cancellations that are subject of this notice is August 6, 2026. Any distribution, sale, or use of existing stocks of the products identified in Tables 1 and 2 of Unit II, in a manner inconsistent with any of the provisions for disposition of existing stocks set forth in Unit VI, will be a violation of FIFRA.

V. What is the Agency's authority for taking this action?

Section 6(f)(1) of FIFRA (7 U.S.C. 136d(f)(1)) provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the EPA Administrator may approve such a request. The notice of receipt for this action was published for comment in the **Federal Register** of February 19, 2026 (91 FR 7979) (FRL–13170–01–OCSPP). The comment period closed on March 23, 2026.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States, and which were packaged, labeled, and released for shipment prior to the effective date of the action.

The registrants may continue to sell and distribute existing stocks of products listed in Table 1 of Unit II until August 6, 2027, which is 1 year after publication of this cancellation order in the **Federal Register**. Thereafter, the registrants are prohibited from selling or distributing products listed in Table 1 of Unit II, except for export in accordance with FIFRA section 17 (7 U.S.C. 136o) or for proper disposal.

Now that EPA has approved product labels reflecting the requested amendments to terminate uses, registrants are permitted to sell or distribute products listed in Table 2 of Unit II, under the previously approved labeling until February 7, 2028, a period of 18 months after publication of the cancellation order in this **Federal Register**, unless other restrictions have been imposed. Thereafter, registrants will be prohibited from selling or distributing the products whose labels include the terminated uses identified in Table 2 of Unit II, except for export consistent with FIFRA section 17 or for proper disposal.

Persons other than the registrant may sell, distribute, or use existing stocks of canceled products and/or products whose labels include the terminated uses until supplies are exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled products and/or terminated uses.

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–XXXX; FR ID 360845]

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice; request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before October 5, 2026. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email to *PRA@fcc.gov* and to *Cathy.Williams@fcc.gov.*

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418–2918.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060–XXXX.

Title: One-Time Information Collection on Submarine Cable Licenses.

Form Number: N/A.

Type of Review: New Collection.

Respondents: Business and other for profit entities and State, Local or Tribal Governments.

Number of Respondents and Responses: 236 respondents; 236 responses.

Estimated Time per Response: 10 hours.

Frequency of Response: One time reporting requirement; third party disclosure.

Obligation To Respond: Required to obtain or retain benefits. The statutory authority for this information collection is contained in Sections 1, 4(i), 4(j), 201–255, 303(r), 403, 413 of the

Communications Act of 1934, as amended, 47 U.S.C. 151, 154(i), 154(j), 201–255, 303(r), 403, 413, and the Cable Landing License Act of 1921, 47 U.S.C. 34–39, and Executive Order No. 10530, Section 5(a) (May 12, 1954) reprinted as amended in 3 U.S.C. 301.

Total Annual Burden: 2,360 hours.

Total Annual Cost: $35,400.

Needs and Uses: The Federal Communications Commission (Commission) is requesting that the Office of Management and Budget (OMB) approve a new one-time information collection applicable to all submarine cable landing licensees as adopted in the *Submarine Cable First Report and Order,* FCC 25–49. The *Submarine Cable First Report and Order* modernized the Commission's submarine cable rules to facilitate infrastructure deployment, while strengthening national security. Pursuant to the Cable Landing License Act and Executive Order 10530, the Commission holds broad legal authority to regulate submarine cables that connect to the United States. Under section 35 of title 47, the Commission has legal authority to withhold or revoke a license if such action will ''promote the security of the United States.''

The *Submarine Cable First Report and Order* was the first major review of the Commission's submarine cable rules since 2001, and updated rules and procedures to streamline and improve the timeliness and transparency of its submarine cable licensing process. The Commission also modernized the definition of submarine cable system to include Submarine Line Terminal Equipment (SLTE) as part of the cable system and adopted common sense measures to presumptively preclude foreign adversaries and other entities from accessing the nation's communications networks. The updates will provide greater certainty for applicants, while making targeted improvements to address national security threats.

In line with the Commission's modernization efforts, the *Submarine Cable First Report and Order* adopted a one-time information collection to obtain information on how many entities currently own or operate SLTE on existing licensed cable systems. The one-time information collection will further inform the Commission about the identities of SLTE owners and operators and their role in operating a portion of the submarine cable system. The one-time collection will also assess for insolvent cables or licensees and require licensees to disclose whether or not their submarine cable systems use equipment or services identified on the Commission's Covered List, uses a third-party foreign adversary service provider, or uses a third-party service provider that can access the submarine cable system from a foreign adversary country.

Federal Communications Commission.

Secretary, Office of the Secretary.
