SUPPLEMENTARY INFORMATION:

I. Abstract

This is a request for renewal of the existing reporting requirements of the approved collection of information, *West Coast Region Vessel Monitoring Requirement in the Pacific Coast Groundfish Fishery (0648–0573)*.

The National Oceanic and Atmospheric Administration (NOAA) has established large-scale depth-based management areas, referred to as Groundfish Conservation Areas (GCAs), where groundfish fishing is prohibited or restricted. These areas were specifically designed to reduce the catch of species while allowing healthy fisheries to continue in areas and with gears where little incidental catch of overfished species is likely to occur. Because NOAA needs methods to effectively enforce area restrictions, certain commercial fishing vessels are required to install and use a vessel monitoring system (VMS) that automatically position reports every 15 minutes. Exemptions from the reporting requirement are available for inactive vessels or vessels operating outside the monitored area. The vessels are also required to declare what gear will be used. To ensure the integrity of the GCAs and Rockfish Conservation Areas, a pilot VMS program was implemented on January 1, 2004. The pilot program required vessels registered to Pacific Coast groundfish fishery limited entry permits to carry and use VMS transceiver units while fishing off the coasts of Washington, Oregon and California. On January 1, 2007, the VMS program coverage was expanded to include all open access fisheries in addition to the limited entry fisheries.

Finally, in 2010, NMFS expanded the declaration reports to include several more limited entry categories.

II. Method of Collection

The installation/activation reports are available over the internet. Due to the need for the owner's signature, installation reports must be faxed or mailed to the National Marine Fisheries Service (NMFS). Hourly position reports are automatically sent from VMS transceivers installed aboard vessels. Exemption reports and declaration reports are submitted via a toll-free telephone number.
