

other than an interested party to the reviews may file written comments with the Secretary on what determination the Commission should reach in the reviews. Comments are due on or before 5:15 p.m. on September 15, 2026 and may not contain new factual information. Any person that is neither a party to the five-year reviews nor an interested party may submit a brief written statement (which shall not contain any new factual information) pertinent to the reviews by September 15, 2026. However, should the Department of Commerce ("Commerce") extend the time limit for its completion of the final results of its reviews, the deadline for comments (which may not contain new factual information) on Commerce's final results is three business days after the issuance of Commerce's results. If comments contain business proprietary information (BPI), they must conform with the requirements of §§ 201.6, 207.3, and 207.7 of the Commission's rules. The Commission's *Handbook on Filing Procedures*, available on the Commission's website at https://www.usitc.gov/documents/handbook_on_filing_procedures.pdf, elaborates upon the Commission's procedures with respect to filings.

In accordance with §§ 201.16(c) and 207.3 of the rules, each document filed by a party to the reviews must be served on all other parties to the reviews (as identified by either the public or BPI service list), and a certificate of service must be timely filed. The Secretary will not accept a document for filing without a certificate of service.

Determination.—The Commission has determined these reviews are extraordinarily complicated and therefore has determined to exercise its authority to extend the review period by up to 90 days pursuant to 19 U.S.C. 1675(c)(5)(B).

Authority: These reviews are being conducted under authority of title VII of the Tariff Act of 1930; this notice is published pursuant to § 207.62 of the Commission's rules.

By order of the Commission.

Issued: August 3, 2026.

SUPPLEMENTARY INFORMATION:

I. Discussion

By letter dated December 30, 2025 (ADAMS Package Accession No. ML25364A004), Duke Energy submitted to the NRC, the ESP application, in accordance with the requirements contained in part 52 of title 10 of the *Code of Federal Regulations* (10 CFR), "Licenses, Certifications, and Approvals for Nuclear Power Plants," Subpart A, "Early Site Permits." Duke Energy is seeking this ESP to approve the Belews Creek site for the potential deployment of multiple advanced nuclear reactors. Because a specific reactor technology has not yet been selected, the ESP application uses the Plant Parameter Envelope (PPE) approach. The PPE approach combines information from reactor vendors whose technologies are under consideration to define a bounding surrogate facility. It identifies the maximum or minimum values for key plant parameters across the candidate technologies, and these bounding values are used as inputs to the analyses supporting the ESP application, which is currently under NRC review.

Pursuant to Section 189a. of the Atomic Energy Act of 1954, as amended, and the Commission Policy Statement on Mandatory Hearings for Reactor Licensing (published in the **Federal Register** on June 8, 2026, at 91 FR 34661), notice is hereby given that the uncontested (*i.e.*, mandatory) hearing will be held on September 17, 2026, starting at 5 p.m. (ET) in the Ronald W Reagan Building (Administration Building) 1014 Main Street, Hwy 89, Danbury, NC 27016. Members of the public are invited to attend this hearing. There will be an opportunity for members of the public to ask questions and provide feedback on the ESP application. This is not an opportunity to request a contested hearing, where petitioners can file intervention requests that contain the contentions they wish to litigate pursuant to 10 CFR 2.309. The opportunity to request a contested hearing and petition for leave to intervene was noticed on February 9, 2026 (91 FR 5787) and no intervention petitions were received.

An open house will be held before the hearing begins, from 4:30 p.m. to 5 p.m., to give the public an opportunity to speak with the NRC staff. The hearing will then convene at 5 p.m. and begin with a presentation by the NRC staff that will explain the review process and provide a brief overview of the application, followed by a comment period of up to 3 hours. During the comment period, the public will be provided an opportunity to speak on the
