SUPPLEMENTARY INFORMATION:

Public Participation and Request for Comments

This notice relies on the authority of the Paperwork Reduction Act of 1995;

44 U.S.C., chapter 35, as amended. An ICR is an application to OIRA seeking the approval, extension, or renewal of a Coast Guard collection of information (Collection). The ICR contains information describing the Collection’s purpose, the Collection’s likely burden on the affected public, an explanation of the necessity of the Collection, and other important information describing the Collection. There is one ICR for each Collection.

The Coast Guard invites comments on whether this ICR should be granted based on the Collection being necessary for the proper performance of Departmental functions. In particular, the Coast Guard would appreciate comments addressing: (1) the practical utility of the Collection; (2) the accuracy of the estimated burden of the Collection; (3) ways to enhance the quality, utility, and clarity of information subject to the Collection; and (4) ways to minimize the burden of the Collection on respondents, including the use of automated collection techniques or other forms of information technology.

In response to your comments, we may revise this ICR or decide not to seek a reinstatement of the Collection. We will consider all comments and material received during the comment period.

We encourage you to respond to this request by submitting comments and related materials. Comments must contain the OMB Control Number of the ICR and the docket number of this request, USCG–2026–0114, and must be received by October 5, 2026.

Information Collection Request

Title: Applications for Vessel Inspection, Waiver and Continuous Synopsis Record.

OMB Control Number: 1625–0002.

Summary: The collection of information requires the owner, operator, agent, or master of a vessel to apply in writing to the Coast Guard before the commencement of an inspection for certification, when a waiver is desired from the requirements of navigation and vessel inspection, or to request a Continuous Synopsis Record.

Need: 46 U.S.C. 3306 authorizes the Coast Guard to establish regulations to protect life, property, and the environment. The reporting requirements are part of the Coast Guard’s Marine Safety Program.

Forms:

- CG–2633, Application for Waiver and Waiver Order.
- CG–3752, Application for Inspection of U.S. Vessel.
- CG–6039, Application for Continuous Synopsis Record.

Respondents: Vessel owner, operator, agent, master or interested U.S. Government agency.

Frequency: On occasion, annually, or on a 5-year cycle.

Hour Burden Estimate: The estimated burden has increased from 745 hours to 1,005 hours per year due to an increase in the estimated annual number of responses.

To streamline the inspection application process, the Coast Guard updated form CG–3752 (*Application for Inspection of U.S. Vessel*). This update consolidates the original form and form CG–3752A (*Application for Inspection of U.S. Vessel (New Construction)*) into a single, two-page document.

Respondents only complete the second page if a U.S. vessel is under new construction or entering certificated service. Table 1 shows the updated features and benefits to the public and the Coast Guard.

TABLE 1—IMPROVEMENTS AND JUSTIFICATIONS

Updated feature	Benefits
Consolidated Format	Reduces redundancy and streamlines the application process.

TABLE 1—IMPROVEMENTS AND JUSTIFICATIONS—Continued

Updated feature	Benefits
Interactive Elements	Includes embedded hyperlinks, dropdowns, and electronic signatures to increase efficiency, while retaining manual entry options if needed.

Despite these structural updates, the estimated burden for the new form remains unchanged.
