Food and Nutrition Administration

Title: Food Distribution Programs.
OMB Control Number: 0584–0293.

Summary of Collection: The Food Distribution Programs of the United States Department of Agriculture (USDA) assist American farmers and needy people by purchasing and delivering food to State agencies and ITOs that, in turn, distribute them to organizations that assist those in need. Effective administration of Food Distribution Programs is dependent on the collection and submission of information from State and local agencies, ITOs, and private-for-profit companies to FNA. This information includes, for example, the number of households served in the programs; the quantities of foods ordered and where the food is to be delivered; verification of the receipt of a food order; and the amounts of USDA Foods in inventory. This is a revision of the information collection under the burden number 0584–0293. This ICR will renew the previous collections associated with 0584–0293 and implement the two revised and seven new collections associated with the Food Distribution Programs: Improving Access and Parity final rule (89 FR 87228).

Need and Use of the Information: FNA collects information from state and local agencies, for-profit and non-profit businesses, and individuals and households. This collection is mandatory for the states, local agencies, and businesses, but it is required to obtain or maintain benefits for the individuals and households. The information collected from the state and local agencies is used for a variety of program activities such as ordering USDA foods; arranging for their delivery to storage facilities; sharing information concerning inaccurate or incomplete orders; providing inventory data; applying to participate in the programs and preparing plans to initiate or continue program operations; recovering unused funds; responding to audits; conducting on-site reviews; reporting on financial status and administrative costs; and other program monitoring activities. The information collected from individuals and households permits them to apply for benefits (including assistance during disasters or situations of distress) or to recertify their eligibility. FNS uses this information to manage the Food

Distribution Programs and monitor the use of Federal funds.

Description of Respondents: State, Local, or Tribal Government; Business or other for-profit; Not-for-profit institutions; and Individuals or households.

Number of Respondents: 815,362.

Frequency of Responses: Recordkeeping; Reporting; On occasion; Quarterly; Semi-annually; Monthly; and Annually.

Total Burden Hours: 890,743.

Food Safety and Inspection Service

Title: New Poultry Inspection System.
OMB Control Number: 0583–0156.

Summary of Collection: The Food Safety and Inspection Service (FSIS) has been delegated the authority to exercise the functions of the Secretary (7 CFR 2.18 and 2.53), as specified in the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451, *et seq.*). This statute mandates that FSIS protect the public by verifying that poultry products are safe, wholesome, and properly labeled.

Need and Use of the Information: FSIS requires that all poultry slaughter establishments develop, implement, and maintain, as part of their HACCP plans, or Sanitation SOPs, or other prerequisite programs, written procedures to prevent contamination of carcasses and parts by enteric pathogens, *e.g.*, *Salmonella* and *Campylobacter*, and fecal material throughout the entire slaughter and dressing operation. FSIS requires that these procedures include sampling for microbial organisms at the pre-chill and post-chill points in the process to monitor establishments' process control for enteric pathogens, except for low volume establishments that are required to test only at post-chill. If the information was not collected or collected less frequently it would reduce the effectiveness of the poultry products inspection program.

Description of Respondents: Business or other for-profit.

Number of Respondents: 289.

Frequency of Responses:

Recordkeeping; Reporting: On occasion.

Total Burden Hours: 191,204.

Food Safety and Inspection Service

Title: State Meat and Poultry Inspection Programs.

OMB Control Number: 0583–0170.

Summary of Collection: The Food Safety and Inspection Service (FSIS) has been delegated the authority to exercise the functions of the Secretary as provided in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601 *et seq.*) and the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451, *et seq.*) These statutes mandate that FSIS protect the public by ensuring that meat and

poultry products are safe, wholesome, and properly labeled.

Need and Use of the Information: FSIS collects information from State MPI programs to ensure that their programs operate in a manner that is at least equal to FSIS' Federal inspection program in the protection of the public interest; comply with requirements of Federal civil rights laws and regulations; meet necessary laboratory quality assurance standards and testing frequencies; and have the capability to perform microbiology and food chemistry methods that are "at least equal to" methods performed in the FSIS laboratories.

Under a cooperative agreement with FSIS, states may operate their own MPI programs provided they meet and enforce requirements "at least equal to" those imposed under the FMIA and PPIA. Thirty (30) states have MPI programs that operate under a cooperative agreement with FSIS and are subject to the comprehensive state review process. There are nine review components that make up the comprehensive state review process.

Description of Respondents: State, Local or Tribal Government.

Number of Respondents: 30.

Frequency of Responses: Reporting: Annually.

Total Burden Hours: 7,235.

Food Safety and Inspection Service

Title: Laboratory Assessment Requests.

OMB Control Number: 0583–0183.

Summary of Collection: FSIS has been delegated the authority to exercise the functions of the Secretary as provided in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601, *et seq.*), the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451, *et seq.*) and the Egg Products Inspection Act (EPIA) (21 U.S.C. 1031, *et seq.*). These statutes mandate that FSIS protect the public by ensuring that meat, poultry, and egg products are safe, wholesome, and properly labeled. As a public health regulatory agency, FSIS investigates reports of foodborne illness, contamination, and adulteration potentially associated with FSIS-regulated products. During these investigations, non-FSIS laboratories may test FSIS regulated product and share the results with FSIS. FSIS Office of Public Health Science (OPHS) Microbiological and Chemical Hazards Staff (MCHS) will review the results and associated documentation shared by the non-FSIS laboratory to determine whether FSIS will accept the results.

Need and Use of the Information: As part of the process to determine if the

non-FSIS laboratory result is acceptable, the MCHS lead investigator collects information from the non-FSIS laboratory and verifies that the non-FSIS laboratory can provide the appropriate certifications and documentation of accreditation, such as ISO17025, or another third-party accreditation entity covering the methods performed. The MCHS lead investigator also verifies that the laboratory has submitted all the necessary information, including evidence of chain of custody, the appropriate laboratory reports with sample identification, results, and authorization by the responsible official for affirming results. The laboratory may use FSIS Form 8000–17, *Evidence Receipt and Chain of Custody*, to submit information to FSIS.

Description of Respondents: Business or other for-profit.

Number of Respondents: 3.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 23.
