Title of Collection: Case Service Report (RSA–911).

OMB Control Number: 1820–0508.

Type of Review: Revision of a currently approved ICR.

Respondents/Affected Public: State, Local, and Tribal Governments.

Total Estimated Number of Annual Responses: 312.

Total Estimated Number of Annual Burden Hours: 8,885,949.

Abstract: The Case Service Report (RSA–911) is used to collect individual level data on State Vocational Rehabilitation (VR) program participants on a quarterly basis. The

data collected in this report are mandated by section 101(a)(10) and 607 of the Rehabilitation Act of 1973 (Act) and section 116(d) of the Workforce Innovation and Opportunity Act. In addition, the Rehabilitation Services Administration (RSA) uses data reported through this collection to support its other responsibilities under the Act. Section 14(a) of the Act calls for the evaluation of programs authorized under the Act, as well as an assessment of the programs' effectiveness in relation to cost. Many of these evaluations use RSA-911 data. RSA also uses data captured through the RSA-911 during the conduct of both the annual review and periodic on-site monitoring of VR agencies required by section 107 of the Act to examine the effectiveness of program performance. Other important management activities, such as the provision of technical assistance, program planning, and budget preparation and development, are greatly enhanced through the use of RSA-911 data. In addition, RSA uses RSA-911 data in the exchange of data under a data sharing agreement with the Social Security Administration and the U.S. Department of Health and Human Services as required by section 131 of the Act. Finally, the RSA-911 is considered to be one of the most robust databases in describing the demographics of the disabled population in the country and as such is used widely in researchers' disability-related analyses and reports.

Chief Data Officer, Office of Planning, Evaluation and Policy Development.

Title of Collection: RSA-509, Annual Protection and Advocacy of Individual Rights Program Performance Report.

OMB Control Number: 1820-0627.

Type of Review: Extension without change of a currently approved ICR.

Respondents/Affected Public: State, Local, and Tribal Governments

Total Estimated Number of Annual Responses: 57.

Total Estimated Number of Annual Burden Hours: 912.

Abstract: The Annual Protection and Advocacy of Individual Rights (PAIR) Program Performance Report (Form RSA-509) will be used to analyze and evaluate the PAIR Program administered by eligible systems in states. These systems provide services to eligible individuals with disabilities to protect their legal and human rights. RSA uses

the form to meet specific data collection requirements of Section 509 of the Rehabilitation Act of 1973, as amended (the Act), and its implementing federal regulations at 34 CFR part 381. PAIR programs must report annually using the RSA-509, which is due no later than 120 days after the end of each fiscal year.

The collection of information through Form RSA-509 has enabled RSA to furnish the President and Congress with data on the provision of protection and advocacy services and has helped to establish a sound basis for future funding requests. Data from the form have been used to evaluate the effectiveness of eligible systems within individual states in meeting annual priorities and objectives. These data also have been used to indicate trends in the provision of services from year-to-year.

Respondents are not-for-profit organizations.

Ross Santy,

Chief Data Officer, Office of Planning, Evaluation and Policy Development.
