Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer on (240) 276-0361.

Comments are invited on: (a) whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d)

ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: Extension to the Currently Approved 0930-0395 0930-0395 Generic Clearance for Grant Program Monitoring Activities

The Substance Abuse and Mental Health Services Administration (SAMHSA) is requesting approval from the Office of Management and Budget (OMB) for an extension of the generic information collection request (ICR) entitled Generic Clearance for Grant Program Monitoring Activities currently approved under the OMB number 0930-0395. This generic ICR allows SAMHSA to collect standardized information from its grant recipients necessary to perform agency program oversight activities such as monitoring progress on recipient activities and determining and responding to recipient's training and technical assistance (T/TA) needs. SAMHSA currently manages grant programs that provide prevention, treatment, recovery support services, and T/TA for substance use treatment and mental health providers along the continuum of care including prevention, harm reduction, treatment, and recovery. To carry out OMB Circular A-102¹ and 2 CFR part 215.51,² SAMHSA must collect grant program information necessary to ensure compliance with federal and programmatic requirements.

SAMHSA's grant recipients are currently required to submit various types of performance reports in accordance with their individual program requirements. For example, recipients often submit bi-annual progress reports as one form of information collection.

When required, performance reports shall generally contain, for each award, brief information on each of the following:

- Update on the status of key personnel required by the grant and staffing levels proposed by the recipient.
- Annual number of clients served, or individuals trained compared to the proposed/planned and the actual clients served/individuals trained.

¹ Circular A-102: Grants and Cooperative Agreements with State and Local Governments

² 2 CFR part 215.51: <https://www.govinfo.gov/content/pkg/CFR-2012-title2-vol1/pdf/CFR-2012-title2-vol1-subtitleA.pdf>.

- Comparison of actual progress and accomplishments with the goals and objectives established for the period.
- Obstacles and next steps for achieving established goals that were not met, if appropriate.
- Success stories of positive outcomes of clients served or impact of the program on the community.
- Other pertinent information including, when appropriate, program specific questions that reflect statutory requirements, the agency's strategic priorities, and/or program's policy goals.
- Information previously requested in a grant Notice of Funding Opportunities (NOFO).

SAMHSA program offices have ever-evolving monitoring needs, dependent on both internal and external factors, such as, but not limited to current grant recipient activities and needs; uses of federal funds; changes to aspects of programs based on statutory authority, federal regulations or policy, and/or Congressional appropriations; availability of program office funds for site visits (desk monitoring); matters of importance related to national health and safety needs of the public, or other events that lead to program changes. There are times when standardized collections of quantitative and qualitative information allows for program offices the ability to monitor recipient activities and needs.

A generic clearance would provide SAMHSA's program offices the flexibility to create and use tailored information collection templates based on current program reporting requirements. This is important to allow for SAMHSA's:

- Monitoring of compliance with federal practice, guidelines, and requirements,
- Oversight of the implementation of the scope of the grant activities with the grant recipients' proposed project,
- Assessment of the efficiency and efficacy of recipient activities,
- Quick understanding of and remediation to national, regional, and/or site-specific issues,
- Provision of additional support and technical assistance, as needed,
- Documentation of promising practices, innovative services, and program strengths, and
- Flexible and responsive oversight of federal funds.

SUPPLEMENTARY INFORMATION:

Public Participation and Request for Comments

This notice relies on the authority of the Paperwork Reduction Act of 1995; 44 U.S.C. chapter 35, as amended. An ICR is an application to OIRA seeking the approval, extension, or renewal of a Coast Guard collection of information (Collection). The ICR contains information describing the Collection’s purpose, the Collection’s likely burden on the affected public, an explanation of the necessity of the Collection, and other important information describing the Collection. There is one ICR for each Collection. The Coast Guard invites comments on whether this ICR should be granted based on the Collection being necessary for the proper performance of Departmental functions. In particular, the Coast Guard would appreciate comments addressing: (1) the practical

utility of the Collection; (2) the accuracy of the estimated burden of the Collection; (3) ways to enhance the quality, utility, and clarity of information subject to the Collection; and (4) ways to minimize the burden of the Collection on respondents, including the use of automated collection techniques or other forms of information technology. These comments will help OIRA determine whether to approve the ICR referred to in this Notice.

We encourage you to respond to this request by submitting comments and related materials. Comments to Coast Guard or OIRA must contain the OMB Control Number of the ICR. They must also contain the docket number of this request, USCG–2026–0045, and must be received by September 9, 2026.

Submitting Comments

We encourage you to submit comments at <https://www.regulations.gov>. If your material cannot be submitted using <https://www.regulations.gov>, contact the person in the **FOR FURTHER INFORMATION CONTACT** section of this document for alternate instructions. Documents mentioned in this notice as being available in the docket, and public comments, are in our online docket at <https://www.regulations.gov> and can be viewed by following that website’s instructions. If you go to the online docket and sign up for email alerts, you will be notified when comments are posted.

We accept anonymous comments. Comments we post to <https://www.regulations.gov> will include any personal information you have provided.
