

receipt or deposit; corporation, foundation, or entity name; gift type (cash or in-kind); authority under which gift was received; deposit number; and appropriation type.

POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS:

Records are retained in accordance with the following General Records Disposition Schedules: DAA-0059-2017-0004-0004; DAA-0059-2017-0004-0001.

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

All users are given cyber security awareness training which covers the procedures for handling Sensitive but Unclassified (SBU) information, including personally identifiable information (PII). Annual refresher training is mandatory. In addition, all Department OpenNet users are required to take the Foreign Service Institute distance learning course instructing employees on privacy and security requirements, including the rules of behavior for handling PII and the potential consequences if it is handled improperly. Before being granted access to Official Gift Records and Gift Donor Vetting Records, State-80, a user must first be granted access to the Department of State computer system.

Department of State employees and contractors may remotely access this system of records using non-Department owned information technology. Such access is subject to approval by the Department's mobile and remote access program and is limited to information maintained in unclassified information systems. Remote access to the Department's information systems is configured in compliance with the Office of Management and Budget Circular Memorandum A-130 multifactor authentication requirements and includes a time-out function.

All Department of State employees and contractors with authorized access to records maintained in this system of records have undergone a background security investigation. Access to the Department, its annexes and posts abroad is controlled by security guards and admission is limited to those individuals possessing a valid identification card or individuals under proper escort. Access to computerized files is password-protected and under the direct supervision of the system manager. The system manager has the capability of printing audit trails of access from the computer media, thereby permitting regular and ad hoc monitoring of computer usage. When it is determined that a user no longer

needs access, the user account is disabled.

All cloud systems that provide IT services and process Department of State information must be specifically authorized by the Department of State Authorizing Official and Senior Agency Official for Privacy.

Information that conforms with Department-specific definitions for Federal Information Security Modernization Act (FISMA) low, moderate, or high categorization are permissible for cloud usage and must specifically be authorized by the Department's Cloud Program Management Office and the Department of State Authorizing Official. Specific security measures and safeguards will depend on the FISMA categorization of the information in a given cloud system. In accordance with Department policy, systems that process more sensitive information will require more stringent controls and review by Department cybersecurity experts prior to approval. Prior to operation, all Cloud systems must comply with applicable security measures that are outlined in FISMA, FedRAMP, OMB regulations, National Institute of Standards and Technology's (NIST) Special Publications (SP) and Federal Information Processing Standards (FIPS) and Department of State policies and standards.

All data stored in cloud environments categorized above a low FISMA impact risk level must be encrypted at rest and in-transit using a federally approved encryption mechanism. The encryption keys shall be generated, maintained, and controlled in a Department data center by the Department key management authority. Deviations from these encryption requirements must be approved in writing by the Department of State Authorizing Official. High FISMA impact risk level systems will additionally be subject to continual auditing and monitoring, multifactor authentication mechanism utilizing Public Key Infrastructure (PKI) and NIST 800 53 controls concerning virtualization, servers, storage, and networking, as well as stringent measures to sanitize data from the cloud service once the contract is terminated.

RECORD ACCESS PROCEDURES:

Individuals who wish to gain access to or amend records pertaining to themselves should submit a Privacy Act request to the U.S. Department of State Information Access Programs (IAP) directorate by following the guidance and procedures located at <https://foia.state.gov/request/request2.aspx>. Mailed requests can be addressed to U.S. Department of State; Information

Access Programs Directorate (A/SKS/IAP); 2201 C Street, NW; Washington, DC 20520-0000. To request information under the Privacy Act, the individual should be a citizen of the United States, or an alien lawfully admitted for permanent residence. The Privacy Act permits access to an individual's own records only if those records are within a system of records that are retrieved by an individual's name or personal identifier.

CONTESTING RECORD PROCEDURES:

Individuals who wish to contest the content of any record pertaining to him or her in the system should write to U.S. Department of State; Information Access Programs Directorate (A/SKS/IAP); 2201 C Street, NW; Washington, DC 20520.

NOTIFICATION PROCEDURES:

Individuals who wish to be notified if the system contains a record pertaining to him or her should write to the U.S. Department of State; Information Access Programs Directorate (A/SKS/IAP); 2201 C Street, NW; Washington, DC 20520-0000.

EXEMPTIONS PROMULGATED FOR THE SYSTEM:
