

II. What information collection activity or ICR does this action apply to?

Title: Generic Clearance for TSCA Section 4 Test Rules, Test Orders, Enforceable Consent Agreements (ECAs), Voluntary Data Submissions, and Exemptions from Testing Requirement (Renewal).

EPA ICR No.: 1139.52.

OMB Control No.: 2070–0033.

ICR Status: This ICR is currently approved through March 31, 2027. Under the PRA, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the Code of Federal Regulations (CFR), after appearing in the **Federal Register** when approved, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers for certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: This ICR covers the information collection activities associated with the submission of information to EPA pursuant to TSCA section 4 regulatory actions. (15 U.S.C. 2603). Under TSCA, EPA has the authority to issue regulatory actions designed to gather or develop health and safety information and exposure information on chemical substances and mixtures, and to control unreasonable risks associated with new and existing chemical substances. TSCA section 4 authorities allow EPA to require the development of information related to chemicals and the use of prescribed "protocols and methodologies" in order to inform EPA and other federal agencies about chemical risks, which in turn will inform decision makers for purposes of prioritization for risk evaluation, risk evaluation and risk management of those chemicals as necessary.

The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here:

Form number(s): 9600–034.

Respondents/affected entities: Entities potentially affected by this ICR are manufacturers (including imports) or processors of chemical substances of mixtures, e.g., entities identified by North American Industrial Classification System Codes 325 and 324.

Respondent's obligation to respond: Mandatory, per 15 U.S.C. 2603.

Estimated number of potential respondents: 353.

Frequency of response: On occasion.

Total estimated average number of responses for each respondent: 1.5.

Total estimated burden: 119,546 hours (three-year total). Burden is defined at 5 CFR 1320.3(b).

Total estimated costs: \$10,802,906 (three-year total), includes \$202,722,312 annualized capital investment or maintenance and operational costs.

III. Are there changes in the estimates from the last approval?

There is an increase of 7,451 hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This change, reflects EPA's updating of number of actions per year using the assumptions in the 2024 TSCA Fees Rule (89 FR 12961 February 21, 2024 (FRL–79110–05–OCSP)). Based upon revised estimates, the estimated number of test orders initiated per year increased from 10 to 14, while both the number of test rules and enforceable consent agreements decreased from 0.5 to 0.33 per year. This change is an adjustment.

IV. What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** document pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.

(Authority: 44 U.S.C. 3501 *et seq.*)

Dated: August 5, 2026.

Douglas M. Troutman,

Assistant Administrator, Office of Chemical Safety and Pollution Prevention.

BILLING CODE 6560–50–P

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–XXXX; FR ID 361583]

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice; request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before October 13, 2026. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email to PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418–2918.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060–XXXX.

Title: Upper C-band Clearinghouse and Relocation Coordinator Real-Time Disclosure of Communications Required

by Sections 27.1413(c)(10) and 27.1414(c)(4)(i).

Form Number: N/A.

Type of Review: New information collection.

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 2 respondents and up to 12 responses.

Estimated Time per Response: 1 hour.

Frequency of Response: On occasion reporting requirement.

Obligation To Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in sections 1, 2, 4(i), 4(j), 5(c), 201, 302, 303, 304, 307(e), and 309 of the Communications Act of 1934, as amended, 47 U.S.C. 151, 152, 154(i), 154(j), 155(c), 201, 302, 303, 304, 307(e), 309.

Total Annual Burden: 12 hours.

Total Annual Cost: No cost.

Needs and Uses: Pursuant to Congress' directive in Public Law 119–21, 40002(b)(2), 139 Stat. 72 (2025), that it grant licenses for spectrum in the 3.98–4.2 GHz band (Upper C-band) through a system of competitive bidding no later than July 4, 2027, on July 22, 2026, the Commission adopted the *Upper C-band Report and Order*, FCC 26–46, in which it reconfigured 160 megahertz of spectrum in the 3.98–4.14 GHz portion of the Upper C-band in order to make new flexible-use licenses in that band available in a Commission auction that is tentatively scheduled to begin in April 2027.

Prior to the Commission's adoption of the *Upper C-Band Report and Order*, the 4.0–4.2 GHz portion of the Upper C-band was allocated for non-Federal use on a primary basis for Fixed Satellite Service (FSS) and Fixed Service (FS) links throughout the United States, although FS operations were sunset in the contiguous United States across the entire C-band as part of the Lower C-band transition. Space station operators use 4.0–4.2 GHz nationwide to provide space-to-Earth (*i.e.*, downlink) signals of various bandwidths to licensed transmit-receive, registered receive-only, and unregistered receive-only earth stations throughout the United States. In addition, the 3.98–4.0 GHz portion of the Upper C-band in the contiguous United States was reserved as a guard band to protect operations in the Upper C-band from potential harmful interference. In the *Upper C-band Report and Order*, the Commission modified the licenses and market access authorizations of incumbent FSS operators to clear the Upper C-band for new flexible-use terrestrial wireless

operations in the contiguous United States.

The Commission established a framework in the *Upper C-band Report and Order* for relocating impacted incumbent FSS operations within the contiguous United States and for requiring that new Upper C-band licensees reimburse eligible FSS incumbents' reasonable and necessary transition costs. To facilitate a rapid and predictable transition of incumbent FSS services in the Upper C-band, the *Upper C-band Report and Order* establishes a Primary Transition Deadline of December 30, 2030 for the relocation of all incumbent FSS operations in the top 75 Partial Economic Areas (PEAs) in the contiguous United States, and a Final Transition Deadline of June 30, 2031 for the entire 160 megahertz in all remaining PEAs in the contiguous United States. Terrestrial wireless operations may begin in PEAs subject to the Final Transition Deadline as of July 1, 2031 or once all eligible space station operators have had their Certifications of Completion for those PEAs validated and the associated incentive payments have been made by the new Upper C-band wireless licensees.

In keeping with the approach used to relocate incumbents in the Lower C-band, the Commission concluded in the *Upper C-band Report and Order* that an independent third-party clearinghouse (Upper C-band Clearinghouse) should be used to oversee the cost-related aspects of the FSS transition, and that the logistics of clearing FSS operations from 4.0–4.16 GHz should be structured around an eligible space station operator-led process facilitated by a Relocation Coordinator (RC) that will use its expertise to track and supplement transition efforts across all eligible space station operators to ensure a timely and coordinated relocation process.

To protect the fair and level playing field for applicants to participate in the Commission's auction for licenses in the Upper C-band, the Upper C-band Clearinghouse and the RC are each required to make real-time disclosures of the content and timing of and the parties to communications, if any, from or to such applicants, as applicants are defined by the Commission's rule prohibiting certain auction-related communications, 47 CFR 1.2105(c)(5)(i), whenever the prohibition in 47 CFR 1.2105(c) applies to competitive bidding for licenses in the Upper C-band. See 47 CFR 27.1413(c)(10), 27.1414(c)(4)(i) (as adopted in the *Upper C-band Report and Order*). The Commission is seeking approval for a new information collection to permit

the Upper C-band Clearinghouse and the RC to make the required real-time disclosure of any such communications, as necessary.

Federal Communications Commission.

Marlene Dortch,

Secretary, Office of the Secretary.

BILLING CODE 6712–01–P

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–0501; FR ID 361611]

Information Collection Being Submitted for Review and Approval to Office of Management and Budget

AGENCY: Federal Communications Commission.

ACTION: Notice; request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal Agencies to take this opportunity to comment on the following information collection. Pursuant to the Small Business Paperwork Relief Act of 2002, the FCC seeks specific comment on how it can further reduce the information collection burden for small business concerns with fewer than 25 employees.

DATES: Written comments and recommendations for the proposed information collection should be submitted on or before September 10, 2026.

ADDRESSES: Comments should be sent to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function. Your comment must be submitted into www.reginfo.gov per the above instructions for it to be considered. In addition to submitting in www.reginfo.gov also send a copy of your comment on the proposed information collection to Cathy Williams, FCC, via email to PRA@fcc.gov and to Cathy.Williams@fcc.gov. Include in the comments the OMB control number as shown in the **SUPPLEMENTARY INFORMATION** below.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection, contact Cathy Williams at (202) 418–2918. To view a copy of this information collection request (ICR) submitted to OMB: (1) go
