**Notice of Inventory Completion: U.S.
Department of the Interior, Bureau of
Land Management, California State
Office, Sacramento, CA**

AGENCY: National Park Service, Interior.
ACTION: Notice.

SUMMARY: In accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), the U.S. Department of the Interior, Bureau of Land Management, California State Office (BLM CA) has completed an inventory of human remains and associated funerary objects (belongings) and has determined that there is a cultural affiliation between the human remains and associated funerary belongings and Indian Tribes or Native Hawaiian organizations in this notice.

DATES: Repatriation of the human remains and associated funerary belongings in this notice may occur on or after September 14, 2026.

ADDRESSES: Send written requests for repatriation of the human remains and associated funerary belongings in this notice to Amy Girado, Bureau of Land Management, California State Office, 2800 Cottage Way, Suite W1623, Sacramento, CA 95825, email blm_ca_nagpra@blm.gov.

SUPPLEMENTARY INFORMATION: This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of BLM CA, and additional information on the determinations in this notice, including the results of consultation, can be found in its inventory or related records. The National Park Service is not responsible for the determinations in this notice.

Abstract of Information Available

In Lassen County, California, between 1982 and 1984, ancestral remains representing at least two individuals and 588 (both single items and lots) of associated funerary belongings were removed from site CA-LAS-973 by the Applegate Field Office in response to vandalism and erosion. The 588 associated funerary belongings include shell beads, pine nut beads, pendants of shell and stone, projectile points, bifaces, choppers, cores, flake tools, a perforator, groundstone fragments, an iron plate, pine nut seeds and shells, wood fragments, ochre fragments, a

fragment of mud with imprints, an unworked stone nodule, debitage, a faunal claw, faunal bones and teeth, charcoal fragments, flora fragments including roots, shells and shell fragments, baked clay fragments, gravels, stones, and skat.

The ancestors and their belongings are held at the Nevada State Museum. No known hazardous or potentially hazardous substances were used to treat any of the human remains or funerary objects.

Cultural Affiliation

Based on the information available and the results of consultation, cultural affiliation is reasonably identified by the geographical location or acquisition history of the human remains and associated funerary belongings described in this notice.

Determinations

The BLM CA has determined that:

- The human remains described in this notice represent the physical remains of at least two individuals of Native American ancestry.
- The 588 belongings described in this notice are reasonably believed to have been placed intentionally with or near individual human remains at the time of death or later as part of the death rite or ceremony.
- There is a connection between the human remains and associated funerary belongings described in this notice and the Alturas Indian Rancheria, California; Pit River Tribe, California (includes XL Ranch, Big Bend, Likely, Lookout, Montgomery Creek, and Roaring Creek Rancheria); and the Susanville Indian Rancheria, California.

Requests for Repatriation

Written requests for repatriation of the human remains and associated funerary belongings in this notice must be sent to the authorized representative identified in this notice under **ADDRESSES**. Requests for repatriation may be submitted by:

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice.
2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or an Indian Tribe or Native Hawaiian organization with cultural affiliation.

Repatriation of the human remains and associated funerary belongings described in this notice to a requestor may occur on or after September 14, 2026. If competing requests for repatriation are received, the BLM CA

must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains and associated funerary belongings are considered a single request and not competing requests. The BLM CA is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice and any other consulting parties.

Authority: Native American Graves Protection and Repatriation Act, 25 U.S.C. 3003, and the implementing regulations, 43 CFR 10.10.

Dated: August 4, 2026.

Melanie O'Brien,

Manager, National NAGPRA Program.

**Notice of Inventory Completion:
Sonoma State University, Rohnert
Park, CA**

AGENCY: National Park Service, Interior.
ACTION: Notice.

SUMMARY: In accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), Sonoma State University has completed an inventory of associated funerary objects and has determined that there is a cultural affiliation between the associated funerary objects and Indian Tribes or Native Hawaiian organizations in this notice.

DATES: Repatriation of the associated funerary objects in this notice may occur on or after September 14, 2026.

ADDRESSES: Send written requests for repatriation of the associated funerary objects in this notice to Kirsten Twork, Sonoma State University, 1801 E Cotati Avenue, Rohnert Park, CA 94928, email tworkk@sonoma.edu.

SUPPLEMENTARY INFORMATION: This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of the Sonoma State University, and additional information on the determinations in this notice, including the results of consultation, can be found in its inventory or related records. The National Park Service is not responsible for the determinations in this notice.

Abstract of Information Available

Based on the information available a total of one lot of associated funerary objects were identified.

The remains of at least three Ancestors and additional associated funerary objects originating from CA–NAP–261, published in a Notice of Inventory Completion in the **Federal Register** on December 18, 2025 (90 FR 59182), were repatriated by Sonoma State University. The material in this inventory includes soil samples located at the University that were not previously acknowledged in the original inventory and notice. The soil was removed from its context during an excavation in 1977.

CA–NAP–261 was originally recorded in 1967 as an area directly affected by the Napa River Flood Control Project (Jackson 1978:1.1). The site was subject to a subsequent inspection in 1974 that revealed that the site had been disturbed during the interim time between 1967 to 1974 (Jackson 1978:1.1). The site was revisited a third time in November of 1975 to confirm the resource's location. In 1977, the site was subject to data recovery investigations as a mitigation for the implementation of the Napa River Flood Control Project (Jackson 1978:1.1)

In the case of missing cultural items, any additional items when located will also be repatriated from the collections discussed above. Based on records concerning the associated funerary objects and the institution in which they are housed, there is no evidence of the ancestors or items being treated with hazardous substances.

Cultural Affiliation

Based on the information available and the results of consultation, cultural affiliation is reasonably identified by the geographical location or acquisition history of the associated funerary objects described in this notice.

Determinations

Sonoma State University has determined that:

- The one lot of objects described in this notice are reasonably believed to have been placed intentionally with or near individual human remains at the time of death or later as part of the death rite or ceremony.

- There is a connection between the associated funerary objects described in this notice and the Cachil DeHe Band of Wintun Indians of the Colusa Indian Community of the Colusa Rancheria, California; Kletsel Dehe Wintun Nation of the Cortina Rancheria (previously listed as Kletsel Dehe Band of Wintun

Indians); and the Yocha Dehe Wintun Nation, California.

Requests for Repatriation

Written requests for repatriation of the associated funerary objects in this notice must be sent to the authorized representative identified in this notice under **ADDRESSES**. Requests for repatriation may be submitted by:

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice.

2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or an Indian Tribe or Native Hawaiian organization with cultural affiliation.

Repatriation of the associated funerary objects described in this notice to a requestor may occur on or after September 14, 2026. If competing requests for repatriation are received, Sonoma State University must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the associated funerary objects are considered a single request and not competing requests. Sonoma State University is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice and any other consulting parties.

Authority: Native American Graves Protection and Repatriation Act, 25 U.S.C. 3003, and the implementing regulations, 43 CFR 10.10.

Dated: August 4, 2026.

Notice of Inventory Completion: The University of Tennessee, Department of Anthropology, Knoxville, TN, and the Frank H. McClung Museum of Natural History & Culture, Knoxville, TN

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: In accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), The University of Tennessee, Department of Anthropology and the Frank H.

McClung Museum of Natural History & Culture (UTK), has completed an inventory of human remains and associated funerary objects and has determined that there is a cultural affiliation between the human remains and associated funerary objects and Indian Tribes or Native Hawaiian organizations in this notice.

DATES: Repatriation of the human remains and associated funerary objects in this notice may occur on or after September 14, 2026.

ADDRESSES: Send written requests for repatriation of the human remains and associated funerary objects in this notice to Dr. Ellen Lofaro, University of Tennessee, Office of Repatriation, 5723 Middlebrook Pike, Knoxville, TN 37996, email nagpra@utk.edu.

SUPPLEMENTARY INFORMATION: This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of UTK, and additional information on the determinations in this notice, including the results of consultation, can be found in its inventory or related records. The National Park Service is not responsible for the determinations in this notice.

Abstract of Information Available

Human remains representing, at least, one individual have been identified from site 40KN17 in Knox County, TN. There are no associated funerary objects present with this Ancestor. 40KN17 is an open habitation site with cultural layers indicating occupation from the Archaic to Woodland temporal periods.

Human remains representing, at least, five individuals have been identified from site 40KN51 in Knox County, TN. There are two associated funerary objects present with these Ancestors comprising lots of faunal and ceramic materials. 40KN51 is a cave site with features identified with the Mississippian cultural period.

Human remains representing, at least, two individuals have been identified from site 40KN55 in Knox County, TN. There are a minimum of 152 associated funerary objects present with these Ancestors, comprising lots of ceramic, faunal, shell, lithic, charcoal, and other materials. 40KN55 is a Mississippian mound site with Dallas and Pisgah cultural features.

Human remains representing, at least, five individuals have been identified from a rock shelter site on the Little Tennessee River in Knox County, TN. There are two associated funerary objects comprising lots of faunal and
