

a prompt timeframe. Agencies may also request applicants to revise and resubmit their application.

- **Access to Confidential Data:** Approved applicants are notified through the SAP Portal that their proposal has been accepted. This concludes the SAP Portal process. Agencies will contact approved applicants to initiate completion of their security documents. The completion and submission of the agency's security requirements will take place outside of the SAP Portal.

- **Collection of Information for Data Security Requirements:** In the instance of a positive determination for an application requesting access to a SAMHSA-owned confidential data asset, SAMHSA will contact the applicant(s) to initiate the process of collecting information to fulfill its data security requirements. This process allows SAMHSA to place the applicant(s) in a trusted access category.

The estimated response burden is as follows:

The amount of time to complete the agreements and other paperwork that comprise SAMHSA's security requirements will vary based on the confidential data assets requested. To obtain access to SAMHSA confidential data assets, it is estimated that the average time to complete and submit SAMHSA's data security agreements and other paperwork is 40 minutes. This estimate does not include the time needed to complete and apply within the SAP Portal. All efforts related to SAP Portal applications occur prior to and separate from SAMHSA's effort to collect information related to data security requirements.

The expected number of applications in the SAP Portal that receive a positive determination from SAMHSA each year may vary. Overall, per year, SAMHSA estimates it will collect data security information for 15 application submissions that received a positive determination within the SAP Portal. SAMHSA estimates that the total burden for the collection of information for data security requirements over the course of the three-year OMB clearance will be about 30 hours and, as a result, an average annual burden of 10 hours.
