- Office of Science Advisory Committee
- State Energy Advisory Board
- Technical Panel on Magnetic Fusion

5. *Justification that the information or advice provided by the Federal advisory committee or subcommittee is not available from another Federal advisory committee, another Federal Government source, or any other more cost-effective and less burdensome source:* No other advisory committee focuses only on cross-Departmental issues related to overall energy policy. This board is uniquely suited to find solutions to problems that the government alone cannot answer.

6. *If the consultation is a committee renewal, a summary of the previous accomplishments of the committee and the reasons it needs to continue:* The SEAB was first established and chartered in 1990 under the administration of President George H.W. Bush. It has lapsed and been reestablished by subsequent administrations. SEAB was most recently reestablished in August 2012. The Secretary only recently appointed membership to the SEAB so there are not yet accomplishments in this administration. There is a pressing need to receive outside independent advice for our Nation's energy policies.

7. *Explanation of why the committee/subcommittee is essential to the conduct of agency business:* The SEAB specifically promotes the idea of energy dominance. America is blessed with an abundance of natural resources and is a leader in energy technologies and innovation that are critical to the economic prosperity and national security of the American people, as well as our partners and allies. The SEAB

will help expand all forms of reliable and affordable energy production to drive down inflation, grow our economy, create good-paying jobs, reestablish American leadership in manufacturing, and lead the world in artificial intelligence. By utilizing our national assets, including our crude oil, natural gas, lease condensates, natural gas liquids, refined petroleum products, uranium, coal, biofuels, geothermal heat, the kinetic movement of flowing water, and critical minerals, we will preserve and protect our most beautiful places, reduce our dependency on foreign imports, and grow our economy—thereby enabling the reduction of our deficits and our debt. In conclusion, this public interest determination documents that renewing the committee is in the public interest and essential to the conduct of agency business, and that the information to be obtained is not already available through another advisory committee or source within the Federal Government.

Signing Authority

This document of the Department of Energy was signed on August 13, 2026, by David Borak, Committee Management Officer, pursuant to delegated authority from the Secretary of Energy. That document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE Federal Register Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect of this document upon publication in the **Federal Register**.

Signed in Washington, DC, on August 14, 2026.

Jennifer Hartzell,

*Alternate Federal Register Liaison Officer,
U.S. Department of Energy.*

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project/Docket No. 5912-004]

Town of Dover-Foxcroft; Notice of Reasonable Period of Time for Water Quality Certification Application

On August 12, 2026, Maine Department of Environmental Protection submitted to the Federal Energy Regulatory Commission (Commission) notice that it received a request for a Clean Water Act section 401(a)(1) water quality certification as defined in 40 CFR 121.5, from the Town of Dover-Foxcroft, in conjunction with the above captioned project on August 3, 2026. Pursuant to section 6.1(b) of the Commission's regulations,¹ we hereby notify the Maine Department of Environmental Protection of the following:

Date of Receipt of the Certification Request: August 3, 2026.

Reasonable Period of Time to Act on the Certification Request: August 3, 2027 (One year).

If Maine Department of Environmental Protection fails or refuses to act on the water quality certification request on or before the above date, then the certifying authority is deemed waived pursuant to section 401(a)(1) of the Clean Water Act, 33 U.S.C. 1341(a)(1).

Dated: August 13, 2026.

Debbie-Anne A. Reese,

Secretary.
