The investigation schedules became staggered when Commerce postponed the final determination for its antidumping duty investigations regarding Australia and Norway, and aligned its countervailing duty investigations with its antidumping duty investigations with respect to Australia and Norway, but did not postpone the final determinations for its antidumping investigations regarding Angola and Laos, and its countervailing duty investigations for Laos and Thailand. On April 6, 2026, the Commission issued final affirmative determinations in the antidumping investigations of silicon metal regarding Angola and Laos and its countervailing duty investigations of silicon metal from Laos (91 FR 18004, April 9, 2026). The Commission terminated the countervailing duty investigation of silicon metal from Thailand because it determined that subject imports from that country are negligible. Following notification of final determinations by Commerce that imports of silicon metal from Australia and Norway were being sold at LTFV within the meaning of section 735(a) of the Act (19 U.S.C. 1673d(a)) and were being subsidized within the meaning of section 703(b) of the Act (19 U.S.C. 1671b(b)), notice of the supplemental scheduling of the final phase of the Commission's antidumping duty and countervailing duty investigations was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of July 9, 2026 (91 FR 42559).

The Commission made these determinations pursuant to § 735(b) of the Act (19 U.S.C. 1673d(b)). It completed and filed its determinations in these investigations on August 14, 2026. The views of the Commission are contained in USITC Publication 5774 (August 2026), entitled *Silicon Metal from Australia and Norway: Investigation Nos. 701-TA-760 and 762 and 731-TA-1744 and 1746 (Final)*.

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701-TA-449 and 731-TA-1118-1121 (Third Review)]

Light-Walled Rectangular Pipe and Tube From China, Mexico, South Korea, and Turkey; Determinations

On the basis of the record¹ developed in the subject five-year reviews, the United States International Trade Commission ("Commission") determines, pursuant to the Tariff Act of 1930 ("the Act"), that revocation of the countervailing duty order on light-walled rectangular pipe and tube from China and the antidumping duty orders on light-walled rectangular pipe and tube from China, Mexico, South Korea, and Turkey would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.²

Background

The Commission instituted these reviews on July 1, 2025 (90 FR 28771) and determined on November 24, 2025 that it would conduct full reviews (90 FR 56801, December 8, 2025). Notice of the scheduling of the Commission's reviews and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** on January 29, 2026 (91 FR 3928). The Commission conducted its hearing on June 25, 2026. All persons who requested the opportunity were permitted to participate.

The Commission made these determinations pursuant to section 751(c) of the Act (19 U.S.C. 1675(c)). It completed and filed its determinations in these reviews on August 14, 2026. The views of the Commission are contained in USITC Publication 5775 (August 2026), entitled *Light-Walled Rectangular Pipe and Tube from China, Mexico, South Korea, and Turkey: Investigation Nos. 701-TA-449 and 731-TA-1118-1121 (Third Review)*.

By order of the Commission.

¹ The record is defined in § 207.2(f) of the Commission's Rules of Practice and Procedure (19 CFR 207.2(f)).

² Commissioners Amy A. Karpel and Peter-Anthony Pappas not participating.

Issued: August 14, 2026.
