

under 47 CFR 76.934(d) states that small cable systems may obtain an extension of time to establish compliance with rate regulations provided that they can demonstrate that timely compliance would result in severe economic hardship. Requests for the extension of time should be addressed to the local franchising authorities ("LFAs") concerning rates for basic service tiers.

OMB Control Number: 3060–1103.

Title: Section 76.41 Franchise Application Process.

Type of Review: Extension of a currently approved collection.

Form Number: N/A.

Respondents: State, local or tribal government, Business or other for-profit entities.

Number of Respondents and Responses: 22 respondents and 40 responses.

Estimated Hours per Response: 0.5 to 4 hours.

Frequency of Response: On occasion reporting requirements; Third party disclosure requirement.

Total Annual Burden: 90 hours.

Total Annual Cost: No cost.

Needs and Uses: The information collection requirements are as follows: 47 CFR 76.41(b) requires a competitive franchise applicant to include the following information in writing in its franchise application, in addition to any information required by applicable state and local laws:

- (1) The applicant's name;
- (2) The names of the applicant's officers and directors;
- (3) The business address of the applicant;
- (4) The name and contact information of a designated contact for the applicant;
- (5) A description of the geographic area that the applicant proposes to serve;
- (6) The PEG channel capacity and capital support proposed by the applicant;
- (7) The term of the agreement proposed by the applicant;
- (8) Whether the applicant holds an existing authorization to access the public rights-of-way in the subject franchise service area;
- (9) The amount of the franchise fee the applicant offers to pay; and
- (10) Any additional information required by applicable state or local laws.

The information collection requirements contained in 47 CFR 76.41(d) states when a competitive franchise applicant files a franchise application with a franchising authority and the applicant has existing authority to access public rights-of-way in the

geographic area that the applicant proposes to serve, the franchising authority grant or deny the application within 90 days of the date the application is received by the franchising authority. If a competitive franchise applicant does not have existing authority to access public rights-of-way in the geographic area that the applicant proposes to serve, the franchising authority must perform grant or deny the application within 180 days of the date the application is received by the franchising authority. A franchising authority and a competitive franchise applicant may agree in writing to extend the 90-day or 180-day deadline, whichever is applicable.

OMB Control Number: 3060–1320.

Title: Section 73.1750,

Discontinuance of operation; § 73.3549, Request for extension of time to operate without required monitors, indicating instruments, and EAS encoders and decoders; § 73.3550, Requests for new or modified call sign assignments.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities; not for-profit institutions.

Number of Respondents and Responses: 300 respondents and 300 responses.

Estimated Time per Response: 0.50 hours.

Frequency of Response:

Recordkeeping requirement; on occasion reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this information collection is contained in sections 154(i) and 325(a) of the Communications Act of 1934, as amended.

Total Annual Burden: 150 hours.

Total Annual Cost: No cost.

Needs and Uses: The Commission is requesting an extension of this information collection in order to receive approval/clearance from the Office of Management and Budget (OMB) for three years. Other information collection requirements that are covered under this collection have not changed since last approved by OMB.

47 CFR 73.1750 requires that the licensee of each station provide a notification to the FCC in a Cancellation Application via the Commission's Licensing and Management System (LMS) of the permanent discontinuance of operation at least two days before operation is discontinued. Immediately after discontinuance of operation, the licensee must forward the station license and other instruments of

authorization to the FCC, Attention: Audio Division (radio) or Video Division (television), Media Bureau, for cancellation.

47 CFR 73.3549 requires that requests for extension of authority to operate without required monitors, transmission system indicating instruments, or encoders and decoders for monitoring and generating the EAS codes and Attention Signal should be made to the FCC by electronically filing via LMS. Such requests must contain information as to when and what steps were taken to repair or replace the defective equipment and a brief description of the alternative procedures being used while the equipment is out of service.

47 CFR 73.3550(a) requires that all requests for new or modified call sign assignments for radio and television broadcast stations be made via LMS with the FCC. Paragraph (j) provides that a change in call sign assignment will be made effective on the date specified in the Call Sign Request Authorization generated by LMS acknowledging the assignment of the requested new call sign and authorizing the change.

Federal Communications Commission.

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice; request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the

information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before October 19, 2026. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email to PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418–2918.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060–XXXX.

Title: Section 26.220; Part 26 Space Launch Coordination.

Form Number: N/A.

Type of Review: New information collection.

Respondents: Business or other for-profit entities, not-for-profit institutions, and state, local or tribal governments.

Number of Respondents and Responses: 27 respondents and 203 responses.

Estimated Hours per Response: 4 to 16 hours.

Frequency of Response: On occasion and as needed reporting requirements; Third party disclosure requirement.

Total Annual Burden: 848 hours.

Total Annual Cost: \$300,000.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this collection is contained in 47 U.S.C 151, 152, 154(i), 155(c), 301, 303(c), 303(f), and 303(r) of the Communications Act of 1934 as amended, and section 2 of the Launch Communications Act, Public Law 118–85, 138 Stat. 1546 § 2.

Needs and Uses: On September 22, 2023, the Commission released a Second Report and Order and Further Notice of Proposed Rulemaking, FCC 23–76, in ET Docket No. 13–115, allocating two of the three bands

addressed in the Launch Communications Act, the 2025–2110 MHz and 2200–2290 MHz bands, for space launch operations, and creating a new rule part to govern these operations, part 26, Space Launch Services, including licensing and service rules. On December 31, 2024, the Commission released a Third Report and Order, FCC 24–132, in ET Docket No. 13–115, modifying its rules with respect to a third band, the 2360–2395 MHz band (2.3 GHz band). Specifically, the Third Report and Order allocated the band for space launch operations and brought these operations in the 2.3 GHz band under the regulatory framework of the new part 26, in compliance with the mandate of the Launch Communications Act.

Under the part 26 framework established by the Commission, eligible space launch operators seeking authorization to use frequencies available for Space Launch Services must first apply for and obtain a non-exclusive 10-year nationwide spectrum license. After they obtain this license, operators must, for each launch (1) register in the Universal Licensing System (ULS) the launch site and each corresponding station (fixed, base, itinerant, or mobile) that will be used in the space launch operation; (2) complete a frequency coordination process using a third-party frequency coordinator; and (3) following successful coordination, register in ULS the final approved technical and operating parameters associated with the coordinated launch prior to commencing the launch operation.

This collection of information covers requirements for the second step, completing a frequency coordination process using a third-party frequency coordinator. Under Section 26.202 of the Commission's rules, each Space Launch Services licensee must, for each proposed launch operation, submit the technical and operational parameters of the launch to the space launch frequency coordinator, in order to initiate post-grant frequency coordination. Any changes to the technical and operational parameters for a launch event that occur after completion of post-grant frequency coordination also require coordination, and these changes shall be provided to initiate an updated post-frequency grant coordination. The specific information required in coordination requests is further detailed in Public Notice, “Wireless Telecommunications Bureau Announces Licensing and Coordination Procedures for the Space Launch Service,” DA 25–270 (WTB rel. Mar. 25, 2025).

This collection also covers the process for the selection of the frequency coordinator. Under that process, the Wireless Telecommunications Bureau will issue a Public Notice announcing the opening of a filing window for interested parties to submit applications. Interested parties will be required to submit an application in the Electronic Comment Filing System (ECFS), specifically in WT Docket No. 24–687. Applications must include the information specified in Public Notice, “Wireless Telecommunications Bureau Announces Mechanism and Criteria for Selecting Space Launch Frequency Coordinator,” DA 25–269 (WTB rel. Mar. 25, 2025).

These information collection requirements will enable a system of frequency coordination that provides space launch operators with licensed access to three bands for space launch operations. The Commission seeks approval for the information collection requirements discussed above.
