

information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before October 19, 2026. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email to PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418–2918.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060–XXXX.

Title: Section 26.220; Part 26 Space Launch Coordination.

Form Number: N/A.

Type of Review: New information collection.

Respondents: Business or other for-profit entities, not-for-profit institutions, and state, local or tribal governments.

Number of Respondents and Responses: 27 respondents and 203 responses.

Estimated Hours per Response: 4 to 16 hours.

Frequency of Response: On occasion and as needed reporting requirements; Third party disclosure requirement.

Total Annual Burden: 848 hours.

Total Annual Cost: \$300,000.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this collection is contained in 47 U.S.C 151, 152, 154(i), 155(c), 301, 303(c), 303(f), and 303(r) of the Communications Act of 1934 as amended, and section 2 of the Launch Communications Act, Public Law 118–85, 138 Stat. 1546 § 2.

Needs and Uses: On September 22, 2023, the Commission released a Second Report and Order and Further Notice of Proposed Rulemaking, FCC 23–76, in ET Docket No. 13–115, allocating two of the three bands

addressed in the Launch Communications Act, the 2025–2110 MHz and 2200–2290 MHz bands, for space launch operations, and creating a new rule part to govern these operations, part 26, Space Launch Services, including licensing and service rules. On December 31, 2024, the Commission released a Third Report and Order, FCC 24–132, in ET Docket No. 13–115, modifying its rules with respect to a third band, the 2360–2395 MHz band (2.3 GHz band). Specifically, the Third Report and Order allocated the band for space launch operations and brought these operations in the 2.3 GHz band under the regulatory framework of the new part 26, in compliance with the mandate of the Launch Communications Act.

Under the part 26 framework established by the Commission, eligible space launch operators seeking authorization to use frequencies available for Space Launch Services must first apply for and obtain a non-exclusive 10-year nationwide spectrum license. After they obtain this license, operators must, for each launch (1) register in the Universal Licensing System (ULS) the launch site and each corresponding station (fixed, base, itinerant, or mobile) that will be used in the space launch operation; (2) complete a frequency coordination process using a third-party frequency coordinator; and (3) following successful coordination, register in ULS the final approved technical and operating parameters associated with the coordinated launch prior to commencing the launch operation.

This collection of information covers requirements for the second step, completing a frequency coordination process using a third-party frequency coordinator. Under Section 26.202 of the Commission's rules, each Space Launch Services licensee must, for each proposed launch operation, submit the technical and operational parameters of the launch to the space launch frequency coordinator, in order to initiate post-grant frequency coordination. Any changes to the technical and operational parameters for a launch event that occur after completion of post-grant frequency coordination also require coordination, and these changes shall be provided to initiate an updated post-frequency grant coordination. The specific information required in coordination requests is further detailed in Public Notice, “Wireless Telecommunications Bureau Announces Licensing and Coordination Procedures for the Space Launch Service,” DA 25–270 (WTB rel. Mar. 25, 2025).

This collection also covers the process for the selection of the frequency coordinator. Under that process, the Wireless Telecommunications Bureau will issue a Public Notice announcing the opening of a filing window for interested parties to submit applications. Interested parties will be required to submit an application in the Electronic Comment Filing System (ECFS), specifically in WT Docket No. 24–687. Applications must include the information specified in Public Notice, “Wireless Telecommunications Bureau Announces Mechanism and Criteria for Selecting Space Launch Frequency Coordinator,” DA 25–269 (WTB rel. Mar. 25, 2025).

These information collection requirements will enable a system of frequency coordination that provides space launch operators with licensed access to three bands for space launch operations. The Commission seeks approval for the information collection requirements discussed above.

Federal Communications Commission.

Aleta Bowers,

Federal Register Liaison Officer, Office of the Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–0800; FR ID 362770]

Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice; request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents,

including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

DATES: Written PRA comments should be submitted on or before October 19, 2026. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email to PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418–2918.

SUPPLEMENTARY INFORMATION: The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

OMB Control Number: 3060–0800.

Title: FCC Application for Assignments of Authorization and Transfers of Control: Wireless Telecommunications Bureau and Public Safety and Homeland Security Bureau.

Form Number: FCC Form 603.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities, Individuals or households, not-for-profit institutions, and State, Local or Tribal Governments.

Number of Respondents and Responses: 2,567 respondents; 2,567 responses.

Estimated Time per Response: 0.05 hours–1.80 hours.

Frequency of Response:

Recordkeeping requirement, on occasion reporting requirement and periodic reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this collection is contained in 47 U.S.C. 154, 155, 158, 161, 301, 303(r), 308, 309, 310 and 332.

Total Annual Burden: 2,957 hours.

Annual Cost Burden: \$532,728.

Needs and Uses: FCC Form 603 is a multi-purpose form that is used by radio services in Wireless Services within the Universal Licensing System (ULS) or any other electronic filing interface the Commission develops. FCC 603 is composed of a main form that contains the administrative information and a

series of schedules used for filing technical information. These schedules are required when applying for Auctioned Services, Partitioning and Disaggregation, Undefined Geographical Area Partitioning, and Notification of Consummation or Request for Extension of Time for Consummation. Applicants/ licensees in the Public Mobile Services, Personal Communications Services, Private Land Mobile Radio Services, Broadband Radio Service, Educational Broadband Service, Maritime Services (excluding Ship), and Aviation Services (excluding Aircraft) use FCC Form 603 to apply for an assignment or transfer, to establish their parties' basic eligibility and qualifications, to classify the filing, and/or to determine the nature of the proposed service. This form is also used to notify the FCC of consummated assignments and transfers of wireless licenses to which the Commission has previously consented or for which notification but not prior consent is required. Respondents are required to submit FCC 603 electronically.

The Commission seeks approval for an extension of its currently approved collection.
