

Disclosure

Commerce intends to disclose its calculations and analysis performed to interested parties for these final results within five days of any public announcement or, if there is no public announcement, within five days of the date of publication of this notice in accordance with 19 CFR 351.224(b).

Assessment Rates

Pursuant to section 751(a)(2)(C) of the Act, and 19 CFR 351.212(b)(1), Commerce has determined, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries of subject merchandise in accordance with the final results of this review. Pursuant to 19 CFR 351.212(b)(1), for Chandan, we calculated importer-specific *ad valorem* assessment rates based on the ratio of the total amount of dumping calculated for the examined sales to the total entered value of the sales. For the companies identified in Appendix II that were not selected for individual examination, we assigned an assessment rate based on the methodology described in the “Review-Specific Rate for Companies Not Selected for Individual Review” section, above. For BFN/Viraj, we will instruct CBP to assess antidumping duties on all appropriate entries based on the dumping margin listed in the “Final Results of Review” section, above.

In accordance with Commerce’s “automatic assessment” practice, for entries of subject merchandise during the POR produced by Chandan for which the company did not know that the merchandise it sold to the intermediary (*i.e.*, a reseller, trading company, or exporter) was destined for the United States, we will instruct CBP to liquidate those entries at the all-others rate (*i.e.*, 7.00 percent),⁹ if there is no rate for the intermediate company(ies) involved in the transaction.¹⁰

Commerce intends to issue assessment instructions to CBP no earlier than 35 days after the date of publication of the final results of this review in the **Federal Register**. If a timely summons is filed at the U.S. Court of International Trade, the assessment instructions will direct CBP not to liquidate relevant entries until the

time for parties to file a request for a statutory injunction has expired (*i.e.*, within 90 days of publication).

Cash Deposit Requirements

The following cash deposit requirements will be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(2)(C) of the Act: (1) the cash deposit rate for the companies listed above will be the rate established in the final results of this review; (2) for merchandise exported by producers or exporters not covered by this review but covered in a prior segment of this proceeding, the cash deposit rate will continue to be the company-specific rate published for the most recently-completed segment of this proceeding in which the company participated; (3) if the exporter is not a firm covered by this review, a previous review, or the LTFV investigation, but the producer is, then the cash deposit rate will be the rate established for the most recently-completed segment of this proceeding for the producer of the merchandise; (4) the cash deposit rate for all other producers or exporters will continue to be 7.00 percent,¹¹ the all-others rate established in the LTFV investigation. These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties and/or countervailing duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in Commerce’s presumption that reimbursement of antidumping and/or countervailing duties occurred and the subsequent assessment of double antidumping duties, and/or increase in the amount of antidumping duties by the amount of the countervailing duties.

Administrative Protective Order (APO)

This notice serves as the only reminder to parties subject to an APO of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written

notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

Notification to Interested Parties

We are issuing and publishing this notice in accordance with sections 751(a)(1) and 777(i) of the Act, and 19 CFR 351.221(b)(5).

Dated: August 17, 2026.

Christopher Abbott,

Deputy Assistant Secretary for Policy and Negotiations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.

shaft engines between 225cc and 999cc, and parts thereof (vertical shaft engines) from the People's Republic of China (China) would likely lead to the continuation or recurrence of dumping, countervailable subsidies, and material injury to an industry in the United States, Commerce is publishing a notice of continuation of these AD and CVD orders.

DATES: Applicable August 11, 2026.

FOR FURTHER INFORMATION CONTACT: Thomas Gilgunn, AD/CVD Operations, Office VII, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-4236.

SUPPLEMENTARY INFORMATION:

Background

On March 4, 2021, Commerce published in the **Federal Register** the AD and CVD orders on vertical shaft engines from China.¹ On February 2, 2026, the ITC instituted,² and Commerce initiated,³ the first sunset review of the *Orders*, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act). As a result of its reviews, Commerce determined that revocation of the *Orders* would likely lead to the continuation or recurrence of dumping and countervailable subsidies, and therefore, notified the ITC of the magnitude of the margins of dumping and subsidy rates likely to prevail should the *Orders* be revoked.⁴

¹ See *Certain Large Vertical Shaft Engines Between 25cc and 999cc, and Parts Thereof from the People's Republic of China: Amended Final Antidumping Duty Determination and Antidumping Duty Order*, 86 FR 12623 (March 4, 2021), as corrected in *Certain Large Vertical Shaft Engines Between 225cc and 999cc, and Parts Thereof, from the People's Republic of China: Notice of Correct to the Amending Final Antidumping Duty Determination and Antidumping Duty Order*, 86 FR 13694 (March 10, 2021); see also *Certain Vertical Shaft Engines Between 225cc and 999cc, and Parts Thereof from the People's Republic of China: Countervailing Duty Order and Amended Final Affirmative Countervailing Duty Determination*, 86 FR 12619 (March 4, 2021) (collectively, *Orders*).

² See *Large Vertical Shaft Engines from China: Institution of Five-Year Reviews*, 91 FR 4625 (February 2, 2026).

³ See *Initiation of Five-Year (Sunset) Reviews*, 91 FR 4499 (February 2, 2026).

⁴ See *Certain Large Vertical Shaft Engines Between 225cc and 999cc, and Parts Thereof from the People's Republic of China: Final Results of the Expedited First Sunset Review of the Antidumping Duty Order*, 91 FR 31702 (May 28, 2026), and accompanying Issues and Decision Memorandum (IDM); and *Certain Large Vertical Shaft Engines Between 225cc and 999cc, and Parts Thereof from the People's Republic of China: Final Results of the Expedited First Sunset Review of the Countervailing Duty Order*, 91 FR 33141 (June 3, 2026), and accompanying IDM.

On August 11, 2026, the ITC published its determination, pursuant to sections 751(c) and 752(a) of the Act, that revocation of the *Orders* would likely lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.⁵

Scope of the Orders

The merchandise covered by these *Orders* consists of spark-ignited, non-road, vertical shaft engines, whether finished or unfinished, whether assembled or unassembled, primarily for riding lawn mowers and zero-turn radius lawn mowers. Engines meeting this physical description may also be for other non-hand-held outdoor power equipment such as, including but not limited to, tow-behind brush mowers, grinders, and vertical shaft generators. The subject engines are spark ignition, single or multiple cylinder, air cooled, internal combustion engines with vertical power take off shafts with a minimum displacement of 225 cubic centimeters (cc) and a maximum displacement of 999cc. Typically, engines with displacements of this size generate gross power of between 6.7 kilowatts (kw) to 42 kw.

Engines covered by this scope normally must comply with and be certified under Environmental Protection Agency (EPA) air pollution controls title 40, chapter I, subchapter U, part 1054 of the Code of Federal Regulations standards for small non-road spark-ignition engines and equipment. Engines that otherwise meet the physical description of the scope but are not certified under 40 CFR part 1054 and are not certified under other parts of subchapter U of the EPA air pollution controls are not excluded from the scope of this proceeding. Engines that may be certified under both 40 CFR part 1054 as well as other parts of subchapter U remain subject to the scope of these *Orders*.

For purposes of these *Orders*, an unfinished engine covers at a minimum a sub-assembly comprised of, but not limited to, the following components: crankcase, crankshaft, camshaft, piston(s), and connecting rod(s). Importation of these components together, whether assembled or unassembled, and whether or not accompanied by additional components such as an oil pan, manifold, cylinder head(s), valve train, or valve cover(s), constitutes an unfinished engine for purposes of these *Orders*. The inclusion

⁵ See *Large Vertical Shaft Engines from China: Determinations*, 91 FR 51747 (August 11, 2026) (ITC Final Determination).

of other products such as spark plugs fitted into the cylinder head or electrical devices (e.g., ignition modules, ignition coils) for synchronizing with the motor to supply tension current does not remove the product from the scope. The inclusion of any other components not identified as comprising the unfinished engine subassembly in a third country does not remove the engine from the scope.

The engines subject to these *Orders* are typically classified in the Harmonized Tariff Schedule of the United States (HTSUS) at subheadings: 8407.90.1020, 8407.90.1060, and 8407.90.1080. The engine subassemblies that are subject to these *Orders* enter under HTSUS 8409.91.9990. Engines subject to these *Orders* may also enter under HTSUS 8407.90.9060 and 8407.90.9080. The HTSUS subheadings are provided for convenience and customs purposes only, and the written description of the merchandise subject to these *Orders* is dispositive.

Continuation of the Orders

As a result of the determinations by Commerce and the ITC that revocation of the *Orders* would likely lead to continuation or recurrence of dumping, countervailable subsidies, and material injury to an industry in the United States, pursuant to section 751(d)(2) of the Act, Commerce hereby orders the continuation of the *Orders*. U.S. Customs and Border Protection will continue to collect AD and CVD cash deposits at the rates in effect at the time of entry for all imports of subject merchandise.

The effective date of the continuation of the *Orders* will be August 11, 2026.⁶ Pursuant to section 751(c)(2) of the Act and 19 CFR 351.218(c)(2), Commerce intends to initiate the next five-year reviews of the *Orders* not later than 30 days prior to fifth anniversary of the date of the last determination by the ITC.

Administrative Protective Order (APO)

This notice also serves as a final reminder to parties subject to an APO of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the

⁶ See *ITC Final Determination*.

regulations and terms of an APO is a violation which is subject to sanction.

Notification to Interested Parties

These five-year (sunset) reviews and this notice are in accordance with sections 751(c) and 751(d)(2) of the Act and published in accordance with section 777(i) of the Act, and 19 CFR 351.218(f)(4).

Dated: August 13, 2026.
Scot Fullerton,
Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Light-Walled Rectangular Pipe and Tube From Mexico: Final Results of Antidumping Duty Administrative Review; 2023–2024

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.
SUMMARY: The U.S. Department of Commerce (Commerce) determines that light-walled rectangular pipe and tube (LWRPT) from Mexico was sold in the United States at less than normal value during the period of review (POR), August 1, 2023, through July 31, 2024.
DATES: Applicable August 20, 2026.
FOR FURTHER INFORMATION CONTACT: John Conniff or Charles Doss, AD/CVD Operations, Office III, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–1009 or (202) 482–4474, respectively.

SUPPLEMENTARY INFORMATION:
Background
On February 23, 2026, Commerce published the *Preliminary Results* of this review in the **Federal Register** and invited interested parties to comment on those results.¹ On April 30, 2026, we extended the deadline for these final results to August 14, 2026.² For a summary of the events that occurred since the *Preliminary Results*, see the Issues and Decision Memorandum.³ Commerce conducted this administrative review in accordance with section 751(a)(1)(B) of the Tariff Act of 1930, as amended (the Act).

Scope of the Order⁴
The products covered by the *Order* are light-walled rectangular pipe and tube from Mexico. For a complete description of the scope, see the Issues and Decision Memorandum.

Analysis of Comments Received
All issues raised in the case and rebuttal briefs are addressed in the Issues and Decision Memorandum. A list of the issues that parties raised and to which we responded in the Issues and Decision Memorandum is attached as the appendix to this notice. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS), which is available to registered users at <https://access.trade.gov>. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at <https://access.trade.gov/frnotices>.

Changes Since the Preliminary Results
Based on our review of the record and comments received from interested parties regarding the *Preliminary*

Results, we made certain changes to the margin calculations for Perfiles LM, S.A. de C.V. (Perfiles) and Regiomontana de Perfiles y Tubos S. de R.L. de C.V. (Regiopytsa). For a discussion of these changes, see the Issues and Decision Memorandum.

Rates for Companies Not Selected for Individual Examination

For the rate for non-selected respondents in an administrative review, generally, Commerce looks to section 735(c)(5) of the Act, which provides instructions for calculating the all-others rate in a market economy investigation. Under section 735(c)(5)(A) of the Act, the all-others rate is normally “an amount equal to the weighted-average of the estimated weighted-average dumping margins established for exporters and producers individually investigated, excluding any zero or *de minimis* margins, and any margins determined entirely {on the basis of facts available}.” In this segment of the proceeding, we calculated weighted-average dumping margins for Perfiles and Regiopytsa that are not zero, *de minimis*, or determined entirely on the basis of facts available. Accordingly, in these final results, Commerce is assigning the weighted-average, based on the mandatory respondents’ publicly-ranged volumes of U.S. sales made during the POR, of the weighted-average dumping margins calculated for Perfiles and Regiopytsa as the dumping margin for the companies not selected for individual examination, consistent with section 735(c)(5)(B) of the Act.⁵

Final Results of Review

Commerce determines that the following weighted-average dumping margins exist for the period August 1, 2023, through July 31, 2024:

Producer or exporter	Weighted-average dumping margin (percent)
Perfiles LM, S.A. de C.V.	10.23
Regiomontana de Perfiles y Tubos S. de R.L. de C.V.	6.36
Aceros Cuatro Caminos S.A. de C.V./Productos Laminados de Monterrey S.A. de C.V. ⁶	8.16
Maquilacero S.A. de C.V./Tecnicas de Fluidos S.A. de C.V. ⁷	8.16
