i. *FERC Contact*: Jeremy Jessup, (202) 502–6779, jeremy.jessup@ferc.gov.

j. *Cooperating agencies*: With this notice, the Commission is inviting federal, state, local, and Tribal agencies with jurisdiction and/or special expertise with respect to environmental issues affected by the proposal, that wish to cooperate in the preparation of any environmental document, if applicable, to follow the instructions for filing such requests described in item l below. Cooperating agencies should note the Commission's policy that agencies that cooperate in the preparation of any environmental document cannot also intervene. See 94 FERC ¶ 61,076 (2001).

k. *Water Quality Certification*: A water quality certificate under section 401 of the Clean Water Act may be required for this proposal from the Georgia Department of Natural Resources. The applicant must file no later than 60 days following the date of issuance of this notice either: (1) a copy of the request for water quality certification submitted to the Georgia Department of Natural Resources; or (2) a copy of the water quality certification or evidence of waiver of water quality certification.

l. *Deadline for filing comments, motions to intervene, and protests*: September 17, 2026, 5:00 p.m. Eastern Time.

The Commission strongly encourages electronic filing. Please file comments, motions to intervene, and protests using the Commission's eFiling system at <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov, (866) 208–3676 (toll free), or (202) 502–8659 (TTY). In lieu of electronic filing, you may submit a paper copy. Submissions sent via the U.S. Postal Service must be addressed to: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Room 1A, Washington, DC 20426. Submissions sent via any other carrier must be addressed to: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, MD 20852. The first page of any filing should include the docket number P–1218–052. Comments

emailed to Commission staff are not considered part of the Commission record.

The Commission's Rules of Practice and Procedure require all intervenors filing documents with the Commission to serve a copy of that document on each person whose name appears on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

m. *Description of Request*: The applicant requests a temporary variance from the target water surface elevation requirements of Article 401 of the license to facilitate a scheduled drawdown of the project impoundment, Lake Worth. The purpose of the drawdown is to provide for installation of new shoreline structures and maintenance of existing shoreline structures. Georgia Power would lower Lake Worth approximately 5 feet from the lower limit of the normal target elevation range, 181.3 feet, to an elevation of 176.3 feet. The drawdown is scheduled to begin on September 21, 2026. Georgia Power proposes to utilize a drawdown rate of one half-foot per day, which was a condition requested in previous consultation with the U.S. Fish and Wildlife Service. Georgia Power anticipates reaching the target drawdown elevation of 176.3 feet on September 30, 2026. Lake Worth would remain at the target drawdown elevation for four weeks until refilling begins November 1, 2026. Georgia Power states that the completion of refilling the reservoir would be dependent on precipitation and the releases from the upstream Lake Blackshear Hydroelectric Project No. 659. The applicant would continue to operate to comply with Article 401 run-of-river operations requirement when it reaches the target drawdown elevation of 176.3 feet.

n. *Locations of the Application*: This filing may be viewed on the Commission's website at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via email of new filings and issuances related to this or other pending projects. For assistance, call 1–866–208–3676 or email FERCOnlineSupport@ferc.gov, for TTY, call (202) 502–8659. Agencies may obtain copies of the application directly from the applicant.

o. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

p. *Comments, Protests, or Motions to Intervene*: Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214, respectively. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

q. *Filing and Service of Documents*: Any filing must (1) bear in all capital letters the title "COMMENTS", "PROTEST", or "MOTION TO INTERVENE" as applicable; (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; and (3) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005. All comments, motions to intervene, or protests must set forth their evidentiary basis. Any filing made by an intervenor must be accompanied by proof of service on all persons listed in the service list prepared by the Commission in this proceeding, in accordance with 18 CFR 385.2010.

r. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, contact the Office of Public Participation at (202) 502–6595 or OPP@ferc.gov.

[Project No. 7404–011]

Glencoe Mill, LLC; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission or FERC)

regulations, 18 CFR part 380, Commission staff reviewed the Glencoe Mill, LLC's application to surrender the exemption for the Glencoe Mill Hydroelectric Project No. 7404 and have prepared an Environmental Assessment (EA) for the project.¹ The exemptee is proposing to surrender the project's exemption from licensing but does not propose any additional activities at the project. The project is located on the Haw River in Alamance County, North Carolina. The project does not occupy federal lands.

The EA contains Commission staff's analysis of the potential environmental effects of the proposed surrender, alternatives to the proposed action, and concludes that the proposed surrender of exemption for the Glencoe Mill Hydroelectric Project would not constitute a major federal action that would significantly affect the quality of the human environment.

The EA may be viewed on the Commission's website at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number (P-7404) in the docket number field to access the document.
