

E&T programs; and (3) staff at providers that offer direct services to SNAP E&T participants.

Estimated number of respondents. SNAP E&T participants will be asked to participate in either a photovoice interview or an in-depth interview (which include several possible notifications), as well as a possible video interview for the multimedia deliverable. State and local government staff and staff that provide SNAP E&T services will respond to study recruitment efforts (which include several possible notifications), and an administrative data request. The total estimated number of unique respondents—which includes everyone contacted for data collection regardless of whether they participate—is 1,825. This includes up to 1,756 individuals/households, 23 State and local government staff, and 46 staff that provide E&T services. The study team will contact 1,825 individuals/households; 779 will be respondents and 977 will be non-respondents. Of the 779 respondents, 20 will participate in photovoice interviews, 160 will participate in an in-depth interview, and 11 will participate in pre-testing the photovoice and in-depth interview instruments.

Among individuals participating in the photovoice and in-depth interviews, 15 will also be contacted again to participate in video interviews for the multimedia deliverable; of these, 10 will be respondents and 5 will be non-respondents.

Before the start of data collection in one non-study State, the study team will pretest all photovoice activities (including the consent form, the kickoff session, the photo submission form, and the interview discussion guide) with three SNAP E&T participants. We will also pretest the in-depth interview guide with eight SNAP E&T participants in two non-study States.

To begin recruiting participants, the study team will contact 23 State SNAP agency staff, which includes State program staff and State data systems staff; 14 will be respondents and 9 will be non-respondents. All four of the State data systems staff will provide administrative data which will be used to recruit SNAP E&T participants. The study team will contact 32 staff from not-for-profit and eight staff at for-profit organizations that serve as SNAP E&T providers to support the recruitment effort for the photovoice interviews and in-depth interviews. Among staff that provide E&T services participating in the recruitment effort, eight individuals will also be contacted again to

participate in interviews for the multimedia deliverable.

Estimated number of responses per respondent. Across all 1,825 unique respondents (839 respondents and 986 non-respondents) and 3,235 annual responses, the average number of responses is 1.77.

Estimated total annual responses. 3,235.

Estimated time per response. The estimated time per response ranges from 0.033 hours for activities related to reading flyers for photovoice and in-depth interview recruitment to 8 hours for State data systems staff to provide administrative data. The response time will vary depending on the respondent group, with an average estimated time of 11.74 minutes (0.20 hours).

Estimated total annual burden on respondents. The total estimated annual burden on respondents is 37,971.62 minutes (632.86 hours).

Eve Stoodly,

Deputy Administrator, Nutrition Research and Regulations.

Foreign-Trade Zones Board

[B–102–2026]

Foreign-Trade Zone (FTZ) 129, Notification of Proposed Production Activity; Corvus Energy USA Ltd.; (Energy Storage Systems); Bellingham, Washington

Corvus Energy USA Ltd., submitted a notification of proposed production activity to the FTZ Board (the Board) for its facility in Bellingham, Washington within Subzone 129C. The notification conforming to the requirements of the Board's regulations (15 CFR 400.22) was received on August 17, 2026.

Pursuant to 15 CFR 400.14(b), FTZ production activity would be limited to the specific foreign-status material(s)/component(s) and specific finished product(s) described in the submitted notification (summarized below) and subsequently authorized by the Board. The benefits that may stem from conducting production activity under FTZ procedures are explained in the background section of the Board's website—accessible via www.trade.gov/ftz. The proposed material(s)/component(s) would be added to the production authority that the Board previously approved for the operation, as reflected on the Board's website.

The proposed foreign-status materials/components include: stainless steel snap rings; steel compression springs; aluminum end plates; aluminum enclosure weldments; and, printed circuit boards (duty rate ranges from duty-free to 2.5%).

The request indicates that certain materials/components are subject to duties under section 232 of the Trade Expansion Act of 1962 (section 232), and section 301 of the Trade Act of 1974 (section 301), depending on the country of origin. The applicable section 232 and section 301 decisions require subject merchandise to be admitted to FTZs in privileged foreign status (19 CFR 146.41). The request also indicates that aluminum end plates and aluminum enclosure weldments are subject to an antidumping/countervailing duty (AD/CVD) order/investigation if imported from China. The Board's regulations (15 CFR 400.13(c)(2)) require that merchandise subject to AD/CVD orders, or items which would be otherwise subject to suspension of liquidation under AD/CVD procedures if they entered U.S. customs territory, be admitted to the zone in privileged foreign status.

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary and sent to: ftz@trade.gov. The closing period for their receipt is September 30, 2026.

A copy of the notification will be available for public inspection in the "Online FTZ Information System" section of the Board's website.

For further information, contact Christopher Wedderburn at Chris.Wedderburn@trade.gov.

Dated: August 19, 2026.

Elizabeth Whiteman,
Executive Secretary.
