

KBR need to revise their dive procedures to accommodate changes in their diving operations that affect their ability to comply with the conditions of the permanent variance;

g. Obtain OSHA's written approval prior to implementing the revision in their dive procedures to accommodate changes in their diving operations that affect KBR's ability to comply with the conditions in the permanent variance;

h. By the fifteenth (15th) of January, at the beginning of each new calendar year, provide OTPCA and Houston South Texas OSHA Area Office with a report summarizing the dives completed during the previous year and evaluating the effectiveness of the variance conditions in providing a safe and healthful work environment and in preventing dive-related incidents;

i. Notify the OTPCA and the Houston South OSHA Area Office as soon as possible, but no later than seven (7) days, after KBR has knowledge that it will:

- a. Cease doing business;
- b. Change the location and address of the main office for managing the diving operations specified herein; or
- c. Transfer the operations specified herein to a successor company.
- j. Notify all affected employees of this permanent variance by the same means required to inform them of its application for a permanent variance.

2. This permanent variance cannot be transferred to another company.

OSHA hereby grants a permanent variance to KBR, subject to the conditions outlined above.

[Docket No. OSHA-2012-0005]

Cadmium in General Industry Standard; Extension of the Office of Management and Budget's (OMB) Approval of Information Collection (Paperwork) Requirements

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Request for public comments.

SUMMARY: OSHA solicits public comments concerning the proposal to extend Office of Management and Budget's (OMB) approval of the information collection requirements specified in the Cadmium in General Industry Standard.

DATES: Comments must be submitted (postmarked, sent, or received) by October 20, 2026.

ADDRESSES:

Electronically: You may submit comments and attachments electronically at <https://www.regulations.gov>, which is the Federal eRulemaking Portal. Follow the instructions online for submitting comments.

Docket: To read or download comments or other material in the docket, go to <https://www.regulations.gov>. Documents in the docket are listed in the <https://www.regulations.gov> index; however, some information (e.g., copyrighted material) is not publicly available to read or download through the websites. All submissions, including copyrighted material, are available for inspection through the OSHA Docket Office. Contact the OSHA Docket Office at (202) 693-2350 (TTY (877) 889-5627) for assistance in locating docket submissions.

Instructions: All submissions must include the agency name and OSHA docket number (OSHA-2012-0005) for the Information Collection Request (ICR). OSHA will place all comments, including any personal information, in the public docket, which may be made available online. Therefore, OSHA cautions interested parties about submitting personal information such as social security numbers and birthdates.

For further information on submitting comments, see the "Public Participation" heading in the section of this notice titled **SUPPLEMENTARY INFORMATION**.

FOR FURTHER INFORMATION CONTACT: Belinda Cannon, Directorate of

Standards and Guidance, OSHA, U.S. Department of Labor; telephone (202) 693-1950.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of the continuing effort to reduce paperwork and respondent (*i.e.*, employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, the collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of effort in obtaining information (29 U.S.C. 657).

The following sections describe who uses the information collected under each requirement, as well as how they use it. The purpose of these requirements is to protect workers from the health effects associated with occupational exposure to cadmium. Such exposure to cadmium may cause lung cancer, prostate cancer, non-malignant respiratory disease, acute pneumonitis, fever and chest pain, severe weakness, coughing and tightness of the chest, and kidney disease.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the agency's functions to protect workers, including whether the information is useful;

- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;

- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection, and transmission techniques.

III. Proposed Actions

OSHA is requesting that OMB extend the approval of the information collection requirements contained in the Cadmium in General Industry Standard. The agency is seeking an adjustment decrease in burden of 38,575 hours going from 115,626 to 77,051 hours. The decrease is due to an error in the labor time per response for the notification of the monitoring results in the previous ICR. The labor time per response for this collection requirement is 5 minutes instead of the 30 minutes that was taken in the previously approved paperwork package. Additionally, the agency is requesting an increase in capital cost going from \$5,483,542 to 6,480,423, a total increase of \$996,881.

OSHA will summarize the comments submitted in response to this notice and will include this summary in the request to OMB to extend the approval of the information collection requirements.

Type of Review: Extension of a currently approved collection.

Title: Cadmium in General Industry Standard (29 CFR 1910.1027).

OMB Control Number: 1218-0185.

Affected Public: Business or other for-profits.

Number of Respondents: 56,355.

Number of Responses: 248,931

Frequency of Responses: On occasion.

Average Time per Response: Varies.

Estimated Total Burden Hours: 77,051.

Estimated Cost (Operation and Maintenance): \$6,480,423.
