

whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate forms of information technology. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: EPA developed the Underground Injection Control Program under the authority of the Safe Drinking Water Act to establish a Federal-State regulatory system to protect underground sources of drinking water (USDWs) from injection fluids and injection-related activities. Injected fluids can include hazardous waste; produced oil field brines or fluids used to enhance oil recovery; mineral processing fluids; various types of industrial fluids; automotive, sanitary, and other wastes; and carbon dioxide injected for geologic sequestration. Owners or operators of injection wells must obtain permits, conduct environmental monitoring, maintain records, and report results to EPA or—if the State in which the well is operated has been granted primary enforcement authority by EPA—the State agency. States must report to EPA on permitting activities, permittee compliance, and related information. This mandatory information is reported using standardized forms, online tools, and annual reports. Reporting data are used by UIC authorities to ensure the protection of USDWs.

Form Numbers: 7520–1, 7520–2A, 7520–2B, 7520–3, 7520–4, 7520–6, 7520–7, 7520–8, 7520–11, 7520–16, 7520–17, 7520–18, and 7520–19.

Respondents/affected entities: Owners or operators of underground injection wells and State UIC primacy agencies.

Respondent's obligation to respond: mandatory (40 CFR parts 144 through 148).

Estimated number of respondents: 37,143 (total).

Frequency of response: annual, semi-annual, and quarterly.

Total estimated burden: 1,689,674 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$948,837,355 (per year), which includes \$829,055,263 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an increase of 58,313 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This increase is due to adjustments that include an increase in the number of Class I, Class III, and Class VI permit applications expected to be prepared and reviewed. This is offset by a decrease in the number of Class II permit applications expected to be submitted and the number of Class II and Class III owners or operators who will be performing monitoring and reporting activities (associated with decreases in the injection well inventory). The unit burden for completing a permit application has not changed but the number of permit applications, and therefore the number of entities performing these activities has. EPA is implementing electronic reporting options, which will reduce the burden to operators and primacy agencies. Programmatic changes that result in changes to the burden estimate include anticipated approval of Class VI UIC Program primacy for several states, which will increase state burden (by shifting burden from EPA to the approved States).

Jennifer L. McLain,

Director, Office of Ground Water and Drinking Water.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

Commission Meeting—Sunshine Act Notice

TIME AND DATE: Wednesday, August 26, 2026, 10:00 a.m. Eastern Time.

PLACE: The meeting will be held at the Jacqueline A. Berrien Training Center, 131 M Street NE, Washington, DC 20507. The meeting will also be held as a listen-only audio. The public may attend in person or connect to the audio only by following the instructions that will be posted on www.eeoc.gov at least 24 hours before the meeting. ASL services will be available for those attending the meeting in person and a closed captioning link will be posted on our website prior to the meeting.

If you wish to attend the meeting in person, you must email

commissionmeetingcomments@eeoc.gov to register by providing your name as it appears on your driver's license or other government-issued identification at least 24 hours prior to the meeting. You will be asked to show your ID upon arrival.

STATUS: The meeting will be open to the public.

MATTERS TO BE CONSIDERED: The following items will be considered at the meeting:

- EEOC Strategic Plan for Fiscal Years 2026–2030
- Draft Notice of Proposed Rulemaking—Revision of Federal-sector EEO Complaint Regulations (29 CFR part 1614)

NOTE: In accordance with the Sunshine Act, the public will be able to observe the Commission's deliberations and voting. (In addition to publishing notices on Commission meetings in the **Federal Register**, the Commission also provides information about Commission meetings on its website, www.eeoc.gov and provides a recorded announcement one week in advance of future Commission meetings.) Public observation does not include participation. Observers seeking to take still photographs, video, or audio recordings of the meeting must seek permission by contacting the Executive Secretariat at commissionmeetingcomments@eeoc.gov at least 24 hours before the meeting to discuss the manner of recording and ensure it does not interfere with the meeting.

Please telephone (202) 921–2705, or email commissionmeetingcomments@eeoc.gov at any time for information on this meeting.

CONTACT PERSON FOR MORE INFORMATION: Raymond Windmiller, Executive Officer, (202) 921–2705.

Dated: August 19, 2026.

Raymond D. Windmiller,

Executive Officer, Executive Secretariat.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency for Healthcare Research and Quality

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Agency for Healthcare Research and Quality, HHS.

ACTION: Notice.

SUMMARY: This notice announces the intention of the Agency for Healthcare Research and Quality (AHRQ) to request that the Office of Management and Budget (OMB) approve the reinstatement with change of the previously approved information collection project “AHRQ Research Reporting System (ARRS)” OMB No 0935–0122. This information collection was previously published in the **Federal**

Register on June 17, 2026, and allowed 60 days for public comment. AHRQ did not receive any comments. The purpose of this notice is to allow an additional 30 days for public comment. The package expired on July 31, 2027.

DATES: Comments on this notice must be received by September 21, 2026.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function. Copies of the proposed collection plans, data collection instruments, and specific details on the estimated burden can be obtained from the AHRQ Reports Clearance Officer.

FOR FURTHER INFORMATION CONTACT: Margie Shofer, AHRQ Reports Clearance Officer, 301–427–1696 or by email at REPORTSCLEARANCEOFFICER@ahrq.hhs.gov.

SUPPLEMENTARY INFORMATION:

Proposed Project

In 2007, AHRQ developed a systematic method for its grantees to report project progress, and important preliminary findings called the Grants Reporting System (GRS). In 2008, GRS was renamed AHRQ Research Reporting System (ARRS) and in addition to reporting on grant progress, also supported reporting on jobs created under contracts pursuant to the American Recovery and Reinvestment Act of 2009. ARRS is still being used to track grant progress and may also support administrative progress reporting for AHRQ-funded research activities conducted under contracts and challenge competition awards, as applicable. Such information may be entered by award recipients, contractors, or authorized AHRQ officials, as appropriate. ARRS is no longer used for contract job creation.

The system addressed the shortfalls in the previous reporting process and established a consistent and comprehensive reporting solution for AHRQ. The ARRS provides a centralized repository of AHRQ-supported research progress and administrative project information across grants, and where applicable, research contracts and challenge competition awards, that can be used to support initiatives within the Agency. This includes future research planning and support to administration activities such as performance monitoring,
