

Length of Service

A. A member of Congress designated as a member of the Board shall be designated as a member in the first session of the applicable Congress and shall serve for the duration of such Congress.

B. Each individual designated by the President shall serve as a member of the Board for three years, except that any such member whose term of office has expired shall continue to serve until a successor is appointed by the President.

C. If a member of the Board dies or resigns, a successor shall be designated for any unexpired portion of the term of the member by the official who designated the member.

Meetings

A. Meetings are held at the call of the Board's Designated Federal Officer (DFO), who will coordinate with members of the Board to the greatest extent practicable to determine the date and time of each meeting. The DFO will make arrangements for the meeting, including publishing a timely notice in the **Federal Register**.

B. The Board will meet at least once annually at the Academy or other suitable location chosen by the Commandant.

C. Each member of the Board shall be reimbursed, to the extent permitted by law, by the U.S. Coast Guard for actual expenses incurred while engaged in their duties as a Member of the Board.

D. A meeting will have a quorum when over 50% of the members are in attendance. Board meetings are open to the public unless a determination is made by the appropriate Department of Homeland Security official in accordance with Department of Homeland Security policy and directives that the meeting should be closed in accordance with the Government in the Sunshine Act (Sunshine Act), 5 U.S.C. 552b(c).

Duration: Pursuant to 14 U.S.C. 1903, the Board is constituted indefinitely.

Michael J. Miron,

Committee Management Officer, Department of Homeland Security.

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

(1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) The accuracy of the agency's estimate of the burden of the proposed collection of information;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

HUD encourages interested parties to submit comment in response to these questions.

C. Authority

Section 2 of the Paperwork Reduction Act of 1995, 44 U.S.C. 3507.

Paul M. Olin,

Acting General Deputy Assistant Secretary for Housing.

BILLING CODE 4210-67-P

DEPARTMENT OF THE INTERIOR**Geological Survey**

[Docket No. USGS-2025-0006; OMB Control Number 1028-0082; GX26LB00TZ901]

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Revisions to the U.S. Geological Survey's Bird Banding and Marking Permit Application

AGENCY: U.S. Geological Survey, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act (PRA) of 1995, the U.S. Geological Survey (USGS) is proposing to renew an information collection with revisions.

DATES: Interested persons are invited to submit comments on or before September 23, 2026.

ADDRESSES: You may submit comments by one of the following methods:

■ *Internet:* <https://www.regulations.gov>. Search for and

submit comments on Docket No. USGS-2025-0006.

■ *U.S. Mail:* USGS, Information Collections Clearance Officer, 12201 Sunrise Valley Drive, MS 159, Reston, VA 20192.

FOR FURTHER INFORMATION CONTACT: To request additional information about this information collection request (ICR), contact Antonio Celis-Murillo by email at acelis-murillo@usgs.gov, or by telephone at 301-497-5808. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States. You may also view the ICR at <http://www.reginfo.gov/public/do/PRAMain>.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995 (PRA, 44 U.S.C. 3501 *et seq.*) and 5 CFR 1320.8(d)(1), we provide the public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

A **Federal Register** notice with a 60-day public comment period soliciting comments on this collection of information was published on April 8, 2026 (91 FR 17811). Three comment letters were received including from a Federal Bird Banding and Marking Permit holder, the Ornithological Council (OC), and the Arizona Game and Fish Department (AZGFD). All comment letters support the proposed modifications to the Federal Bird Banding and Marking Permit Application (permit application) and state that the proposed changes are common sense, reduce burden on both the agency and the applicants, and improve clarity. The OC agrees that the information collected by the permit application is necessary for the USGS Bird Banding Laboratory's (BBL) functions, and also supports the change that allows applicants to list the capture methods rather than select from a short list.

Comments were received on the proposed change that allows applicants to include other biological sampling (other than blood or feather sampling).

One comment expressed the openness of the biological sampling question may be problematic and that the USGS should be clear in what they may authorize (*e.g.*, fecal samples, biopsies, etc.) as this could potentially cause confusion with applicants that may also need a U.S. Fish and Wildlife Service scientific collection permit. A similar comment requested the addition of cloacal swabbing as an example of biological sampling. The USGS previously proposed in the 60-day notice for public comment (91 FR 17811) the addition of biological sampling examples (*e.g.*, mouth and tracheal swabbing) on the permit application for enhanced clarity. No authorization is required from the BBL for cloacal sampling/fecal samples as that is passively collected outside of a bird. The USGS intends to keep this question open to allow for flexibility if new sampling or sampling technologies are developed in the future.

The OC suggested expanding the estimated time of burden to also include development of an online submission system for permit application materials and other permit related processes. The USGS has not changed the estimated burden for the permit application. While there are additional materials required as part of the application process, *i.e.*, a project description and a banding resume, the preparation of those documents is too variable among applicants, and no standard format is required to develop a baseline of estimated time of burden. The USGS agrees with the development of a comprehensive online system for submission of all permit application materials and tracking of application status and will explore this idea through our existing Bander Portal system when funding and capacity allows for such improvements.

The AZGFD also provided additional comments that were program-level recommendations for other aspects of the USGS permitting and unrelated to the proposed modifications to the permit application or information collection.

As part of our continuing effort to reduce paperwork and respondent burdens, we are again soliciting comments from the public and other Federal agencies on the proposed ICR that is described below. We are especially interested in public comments addressing the following:

(1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.
