In contrast, other questions suggested by commenters have not been validated, would substantially increase respondent burden, violate the 2022 Census supplement policy requiring CPS supplements to use behavioral measures, and/or are inconsistent with National Academy of Sciences recommendations that alternative data collections are better suited for attitudinal and outcome measures.

Title of Collection: Current Population Survey Civic Engagement and Volunteering Supplement.

OMB Control Number: 3045–0139.

Type of Review: Revision.

Respondents/Affected Public: Individuals and households.

Total Estimated Number of Annual Responses: 60,000.

Total Estimated Number of Annual Burden Hours: 6,670.

Abstract: AmeriCorps is mandated by the Serve America Act of 2009 to facilitate the establishment of a Civic Health Assessment in partnership with the National Conference on Citizenship. AmeriCorps aggregates and presents key indicators of civic health through its Volunteering and Civic Life in America (VCLA) research. The agency makes reports, tables, and data publicly available on the AmeriCorps website. Specialized tables are made available upon request. The survey is the only source of nationally representative data on civic engagement trends across the United States and over time. Key measures include formally volunteering through an organization; informally interacting with family, friends, and neighbors; participating in associations; charitable giving; learning about and engaging with issues of public concern; and interacting with public and private institutions. AmeriCorps has partnered with the U.S. Census Bureau (Census) to collect data and publish reports on civic engagement trends since 2002. This request is a revision because AmeriCorps is seeking clearance of rephrased questions to expedite testing in the event that Census introduces an internet self-response mode to the CEV before this OMB Control Number expires. Census is currently field-testing an internet self-response mode for the core CPS module as part of its modernization efforts. AmeriCorps is directed by Congress to collect data and produce reports on the nation's civic health (Authority: 42 U.S.C. 12639(a); 13 U.S.C. 8(b), 182; 29 U.S.C. 1.). The currently approved information

collection is due to expire on August 31, 2026.

Director, Office of Research and Evaluation.

SUPPLEMENTARY INFORMATION:

I. Background

DTS supports the DoD in managing temporary duty (TDY) travel by collecting and maintaining records necessary for the authorization, processing, and reimbursement of official travel. Records maintained in DTS include personal information, travel itineraries, financial data, and supporting documentation related to travel claims. These records are used to verify eligibility, facilitate travel arrangements, ensure compliance with applicable regulations, and process payments. DTS also captures audit trails and approval workflows to support oversight, accountability, and reporting requirements across DoD components. Subject to public comment, the DoD proposes revisions to the routine uses section. The routine uses section has been reorganized to present the DoD standard routine uses (A through J) at the beginning of the list, enhancing clarity and consistency. Routine Use (M) has been updated to expand and clarify the scope of disclosures to banking establishments, and routine use (R) was added to include the Department of the Treasury's Do Not Pay routine use clause. Additionally, the system purpose, categories of individuals, and categories of records have been restructured to reflect consolidation with the DHRA 14 DoD system of records. Additional updates include changes to the system location, system manager, authority for maintenance, record source categories, policies and practices for storage, retrieval, and disposal, safeguards, and procedures for access, contesting records, and notification.

DoD SORNs have been published in the **Federal Register** and are available from the address in **FOR FURTHER INFORMATION CONTACT** or at the Oversight and Compliance Directorate, Privacy and Civil Liberties Division website at <https://doc.defense.gov/DIRECTORATES/Privacy-and-Civil-Liberties-Directorate/Privacy/SORNs/>.

PURPOSE(S) OF THE SYSTEM:

A. DTS provides a DoD-wide travel management process that covers official TDY travel, from pre-travel arrangements to post-travel payments. DTS verifies individual travel information is accurate, current, and meets DoD foreign nation requirements for travel within the continental United States and outside the continental United States. The system facilitates the processing of official travel requests for DoD personnel and other individuals traveling on DoD travel orders. DTS provides information to financial systems to reimburse individual travel expenses, as well as to a commercial system to facilitate a voluntary rewards program for travelers using government travel charge cards (GTCC) for select purchases. DTS includes a tracking and reporting system to monitor travel authorizations, obligations, and payments. Additionally, the DoD uses DTS data to conduct surveys of program effectiveness, provide insight into the gap between product/service delivery and customer expectations, and assist in

understanding the drivers of customer satisfaction.

B. The DTS business intelligence tool and archives provide a repository for reporting and archiving travel records. It assists with planning, budgeting, and allocating resources for future DoD travel, conducting oversight operations, analyzing travel, budgetary, or other trends, detecting fraud and abuse, and provides a mechanism for responding to authorized internal and external requests for data relating to DoD official travel and travel-related services.

C. The Commercial Travel Information Management (CTIM) establishes a repository of DoD travel records consisting of travel booked within the DTS as well as through commercial travel vendors in order to satisfy reporting requirements, identify and notify travelers in potential distress due to natural or man-made disaster, assist in the planning, budgeting, and allocation of resources for future DoD travel, conduct oversight operations, analyze travel, budgetary, or other trends, detect potential fraud and abuse, conduct surveys for the evaluation of program effectiveness, calculate travel and housing allowances, provide insight into the gap between product/service delivery and customer expectations, and assist in understanding what drives customer satisfaction, and respond to authorized internal and external requests for data relating to DoD official travel and travel related services, including premium class travel. In addition, CTIM contains rental car program data for US Federal Government travelers. CTIM also provides website-registered guests an online customer support site for submitting inquiries regarding commercial travel within the DoD, including assistance with DTS.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

DoD civilian personnel, active, former, and retired military members, Reserve and National Guard personnel, military academy nominees, applicants, and cadets, all other individuals in receipt of DoD travel orders, dependents of DoD sponsors accompanying the DoD sponsors on travel, and registered website guests submitting inquiries regarding DoD commercial travel.
