## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Project No. 7883-020]

#### Power House Systems, LLC; Notice of Reasonable Period of Time for Water Quality Certification Application

On July 22, 2026, New Hampshire Department of Environmental Services (New Hampshire DES) submitted to the Federal Energy Regulatory Commission (Commission) notice that it received a complete request for a Clean Water Act section 401(a)(1) water quality certification as defined in 40 CFR 121.5, from Power House Systems, LLC, in conjunction with the above captioned project, on June 3, 2026. Pursuant to the Commission's regulations,<sup>1</sup> we hereby

notify New Hampshire DES of the following:

*Date of Receipt of the Certification Request:* June 3, 2026.

*Reasonable Period of Time To Act on the Certification Request:* One year, June 3, 2027.

If New Hampshire DES fails or refuses to act on the water quality certification request on or before the above date, then the certifying authority is deemed waived pursuant to section 401(a)(1) of the Clean Water Act, 33 U.S.C. 1341(a)(1).

(Authority: 18 CFR 2.1)

Dated: August 20, 2026.

**Carlos D. Clay,**  
Deputy Secretary.

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. RD26-8-000]

#### Commission Information Collection Activities (FERC-725S); Comment Request

**AGENCY:** Federal Energy Regulatory Commission.

**ACTION:** Notice of information collection and request for comments.

**SUMMARY:** In compliance with the requirements of the Paperwork Reduction Act of 1995, 44 U.S.C. 3506(c)(2)(A), the Federal Energy Regulatory Commission (Commission or FERC) is soliciting public comment on the currently approved information collection, FERC-725S (OMB Control No. 1902-0270), Emergency Preparedness and Operations (EOP) Reliability Standards.

**DATES:** Comments on the collections of information are due October 26, 2026.

**ADDRESSES:** Please submit comments via email to [DataClearance@FERC.gov](mailto:DataClearance@FERC.gov). You must specify Docket No. (RD26-8-000) and the FERC Information Collection number (FERC-725S) in your email. If you are unable to file electronically, comments may be filed by USPS mail or by hand (including courier) delivery:

• *Mail via U.S. Postal Service only, addressed to:* Federal Energy Regulatory Commission, Secretary of the

Commission, 888 First Street NE, Washington, DC 20426.

• *Hand (including courier) delivery to:* Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, MD 20852.

#### SUPPLEMENTARY INFORMATION:

*Title:* FERC-725S, Emergency Preparedness and Operations (EOP) Reliability Standards.

*OMB Control No.:* 1902-0270.

*Type of Request:* Approval of the FERC-725S information collection requirements with changes to the current reporting requirements.

*Type of Respondents:* Draft Reliability Standard EOP-004-5 improves upon the existing Reliability Standard EOP-004-4 by ensuring timely reporting by industry to the North America Electric Reliability Corporation (NERC) through the reporting of events involving Inverter Based-Resources (IBRs). Changes were made to Attachment 1 for an unexpected loss of generation within a Balancing Authority Area from IBR(s) in a period of 30 seconds or less following a disturbance. Additionally, a new classification for generator owner category 2 and generator operator category 2 will now be applicable to potential reporting of events and will be included in estimates for EOP-004 going forward.

For providing accurate reporting of events to NERC's event analysis group to review the impact on the reliability of the bulk electric system, staff estimates that for EOP-004-5, fifty percent of the applicable entities will have an annual reporting burden, and this is captured in the associated table below.

*Estimate of Annual Burden<sup>1</sup> and cost:<sup>2</sup>* The Commission estimates the annual public reporting burden for the information collection as:

<sup>1</sup> The Commission defines burden as the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For further explanation of what is included in the information collection burden, refer to 5 Code of Federal Regulations 1320.3.

<sup>2</sup> The estimated hourly cost (salary plus benefits) is a combination of the following categories from the BLS website, *Occupational Employment and Wage Statistics—source for hourly wages*: 75% of the average of an Electrical Engineer (17-2071) \$92.32/hr., × .75 = \$69.24 (\$69.24/hour); and 25% of an Information and Record Clerk (43-4199) \$56.60/hr., × .25 = \$14.15 (\$14.15/hour), for a total (\$69.24/hour + \$14.15/hour = \$83.39/hour).

<sup>1</sup> 18 CFR 4.34(b)(5)(iii).

**FERC-725S**

## ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPP-2009-0361; FRL-13597-01-OCSPP]

### Glyphosate Open Literature Search To Inform Human Health Risk Assessment Notice of Availability

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** This notice announces the availability of the Environmental Protection Agency's (EPA or the Agency) open literature search in support of the ongoing registration review of glyphosate. This open literature search is intended to inform

the hazard assessment for the upcoming updated glyphosate human health risk assessment, currently scheduled to be completed in late 2026. EPA is soliciting comments on the completeness of the Agency's open literature search results, and this notice opens a comment period on the open literature search.

**DATES:** Comments must be received on or before September 24, 2026.

**ADDRESSES:** Submit your comments, identified by docket identification (ID) number EPA-HQ-OPP-2009-0361, through <https://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Additional instructions on commenting or visiting the docket, along with more information about dockets generally, is available at <https://www.epa.gov/dockets>.

#### FOR FURTHER INFORMATION CONTACT:

Cathryn Britton, Risk Management and Implementation Branch 5, Pesticide Re-evaluation Division, Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001; telephone number: (202) 566-2339; email address: [glyphosatereview@epa.gov](mailto:glyphosatereview@epa.gov).

#### SUPPLEMENTARY INFORMATION:

##### I. General Information

###### A. Does this action apply to me?

This notice is directed to the public in general and may be of interest to a wide range of stakeholders including environmental, human health, farm workers, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others may also be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action.

###### B. What should I consider as I prepare my comments for EPA?

###### 1. Submitting CBI

Do not submit CBI to EPA through <https://www.regulations.gov> or email. If you wish to include CBI in your comment, please follow the applicable instructions at <https://www.epa.gov/dockets/commenting-epa-dockets#rules> and clearly mark the information that you claim to be CBI. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR parts 2 and 703, as applicable.

###### 2. Tips for Preparing Your Comments

When preparing and submitting your comments, see the commenting tips at <https://www.epa.gov/dockets/commenting-epa-dockets>.

#### II. What action is the Agency taking?

The EPA's Office of Pesticide Programs (OPP) is currently reevaluating glyphosate as part of registration review, which is required by law every 15 years to ensure that pesticide products on the market continue to meet the statutory standard for registration as science evolves and new information becomes available. In addition to guideline studies, required under 40 CFR part 158, and non-guideline studies that are submitted to the EPA to support pesticide registration, EPA searches for relevant studies published in peer-reviewed scientific journals in the open literature. In the case of glyphosate, there are a large number of independent studies available in the open literature. Since the initiation of Registration Review, EPA has performed multiple searches of open literature to identify, screen, and evaluate potentially relevant studies using systematic review approaches consistent with Executive Order 14303, Restoring Gold Standard Science and Gold Standard Science (90 FR 22601; May 23, 2025) objectives. In addition, EPA has received additional studies to consider during public comment periods in the Registration Review

<sup>3</sup> The number of respondents is based on NERC compliance registration information as of July 21, 2026.

<sup>4</sup> The number of respondents for GOs and GOP has increased with registration of applicable Category 2 resources which came into effect May 2026.

<sup>5</sup> For EOP-004-5 it is estimated that fifty percent of applicable entities will have an annual reporting burden and values in the table reflect that consideration (rounded up).
