DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 7883-020]

Power House Systems, LLC; Notice of Reasonable Period of Time for Water Quality Certification Application

On July 22, 2026, New Hampshire Department of Environmental Services (New Hampshire DES) submitted to the Federal Energy Regulatory Commission (Commission) notice that it received a complete request for a Clean Water Act section 401(a)(1) water quality certification as defined in 40 CFR 121.5, from Power House Systems, LLC, in conjunction with the above captioned project, on June 3, 2026. Pursuant to the Commission's regulations,¹ we hereby

notify New Hampshire DES of the following:

Date of Receipt of the Certification Request: June 3, 2026.

Reasonable Period of Time To Act on the Certification Request: One year, June 3, 2027.

If New Hampshire DES fails or refuses to act on the water quality certification request on or before the above date, then the certifying authority is deemed waived pursuant to section 401(a)(1) of the Clean Water Act, 33 U.S.C. 1341(a)(1).

(Authority: 18 CFR 2.1)

Dated: August 20, 2026.

Carlos D. Clay,
Deputy Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. RD26-8-000]

Commission Information Collection Activities (FERC-725S); Comment Request

AGENCY: Federal Energy Regulatory Commission.

ACTION: Notice of information collection and request for comments.

SUMMARY: In compliance with the requirements of the Paperwork Reduction Act of 1995, 44 U.S.C. 3506(c)(2)(A), the Federal Energy Regulatory Commission (Commission or FERC) is soliciting public comment on the currently approved information collection, FERC-725S (OMB Control No. 1902-0270), Emergency Preparedness and Operations (EOP) Reliability Standards.

DATES: Comments on the collections of information are due October 26, 2026.

ADDRESSES: Please submit comments via email to DataClearance@FERC.gov. You must specify Docket No. (RD26-8-000) and the FERC Information Collection number (FERC-725S) in your email. If you are unable to file electronically, comments may be filed by USPS mail or by hand (including courier) delivery:

• *Mail via U.S. Postal Service only, addressed to:* Federal Energy Regulatory Commission, Secretary of the

Commission, 888 First Street NE, Washington, DC 20426.

• *Hand (including courier) delivery to:* Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, MD 20852.

SUPPLEMENTARY INFORMATION:

Title: FERC-725S, Emergency Preparedness and Operations (EOP) Reliability Standards.

OMB Control No.: 1902-0270.

Type of Request: Approval of the FERC-725S information collection requirements with changes to the current reporting requirements.

Type of Respondents: Draft Reliability Standard EOP-004-5 improves upon the existing Reliability Standard EOP-004-4 by ensuring timely reporting by industry to the North America Electric Reliability Corporation (NERC) through the reporting of events involving Inverter Based-Resources (IBRs). Changes were made to Attachment 1 for an unexpected loss of generation within a Balancing Authority Area from IBR(s) in a period of 30 seconds or less following a disturbance. Additionally, a new classification for generator owner category 2 and generator operator category 2 will now be applicable to potential reporting of events and will be included in estimates for EOP-004 going forward.

For providing accurate reporting of events to NERC's event analysis group to review the impact on the reliability of the bulk electric system, staff estimates that for EOP-004-5, fifty percent of the applicable entities will have an annual reporting burden, and this is captured in the associated table below.

Estimate of Annual Burden¹ and cost:² The Commission estimates the annual public reporting burden for the information collection as:

¹ The Commission defines burden as the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For further explanation of what is included in the information collection burden, refer to 5 Code of Federal Regulations 1320.3.

² The estimated hourly cost (salary plus benefits) is a combination of the following categories from the BLS website, *Occupational Employment and Wage Statistics—source for hourly wages*: 75% of the average of an Electrical Engineer (17-2071) \$92.32/hr., × .75 = \$69.24 (\$69.24/hour); and 25% of an Information and Record Clerk (43-4199) \$56.60/hr., × .25 = \$14.15 (\$14.15/hour), for a total (\$69.24/hour + \$14.15/hour = \$83.39/hour).

¹ 18 CFR 4.34(b)(5)(iii).
