

horsepower of incremental compression (i.e., "Constitution Transfer Station") and other miscellaneous modifications as well as modification and upgrade of the existing delivery meter to the Tennessee Gas Pipeline or construction of a new delivery meter.

The Commission mailed a copy of the *Notice of Availability* of the EA to federal, state, and local government representatives and agencies; elected officials; Native American Tribes; environmental and public interest groups; potentially affected landowners and other interested individuals and groups; and media outlets and libraries in the Projects area. The EA is only available in electronic format. It may be viewed and downloaded from the FERC's website (www.ferc.gov), on the natural gas environmental documents page (<https://www.ferc.gov/industries-data/natural-gas/environment/environmental-documents>). In addition, the EA may be accessed by using the eLibrary link on the FERC's website. Click on the eLibrary link (<https://elibrary.ferc.gov/eLibrary/search>), select "General Search" and enter the docket number in the "Docket Number" field, excluding the last three digits (i.e., CP13-499 and/or CP13-502). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FercOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659.

The EA is not a decision document. It presents Commission staff's independent analysis of the environmental issues for the Commission to consider when addressing the merits of all issues in this proceeding. Under section 7(c) of the NGA, the Commission determines whether interstate natural gas transportation facilities are in the public convenience and necessity and, if so, grants a Certificate of Public Convenience and Necessity to construct and operate them. The Commission bases its decisions on both economic issues, including need, and environmental effects.

Your comments should focus on the EA's disclosure and discussion of potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental effects. The more specific your comments, the more useful they will be. For your convenience, there are three methods you can use to file your comments to the Commission. The Commission encourages electronic filing of comments and has staff available to assist you at (866) 208-3676 or FercOnlineSupport@ferc.gov. Please

carefully follow these instructions so that your comments are properly recorded.

(1) You can file your comments electronically using the eComment feature on the Commission's website (www.ferc.gov) under the link to FERC Online. This is an easy method for submitting brief, text-only comments on a project;

(2) You can also file your comments electronically using the eFiling feature on the Commission's website (www.ferc.gov) under the link to FERC Online. With eFiling, you can provide comments in a variety of formats by attaching them as a file with your submission. New eFiling users must first create an account by clicking on "eRegister." You must select the type of filing you are making. If you are filing a comment on a particular project, please select "Comment on a Filing"; or

(3) You can file a paper copy of your comments by mailing them to the Commission. Be sure to reference the project docket number (CP13-499-006 and/or CP13-502-003) on your letter. Submissions sent via the U.S. Postal Service must be addressed to: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Room 1A, Washington, DC 20426. Submissions sent via any other carrier must be addressed to: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, Maryland 20852.

Filing environmental comments will not give you intervenor status, but you do not need intervenor status to have your comments considered. Only intervenors have the right to seek rehearing or judicial review of the Commission's decision. At this point in this proceeding, the timeframe for filing timely intervention requests has expired. Any person seeking to become a party to the proceeding must file a motion to intervene out-of-time pursuant to Rule 214(b)(3) and (d) of the Commission's Rules of Practice and Procedures (18 Code of Federal Regulations § 385.214(b)(3) and (d)) and show good cause why the time limitation should be waived. Motions to intervene are more fully described at <https://www.ferc.gov/how-intervene>.

For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, contact the Office of Public Participation at (202) 502-6595 or OPP@ferc.gov. Additional information about the Projects is available from the FERC website (www.ferc.gov) using the eLibrary link. The eLibrary link also provides access to the texts of all formal

documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to <https://www.ferc.gov/ferc-online/overview> to register for eSubscription.

[Project No. 15422–000]

Chugach Electric Association, Inc.; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On February 6, 2026, as supplemented on May 8, 2026, Chugach Electric Association, Inc. filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Canyon Creek Hydroelectric Project No. 15422 (project), to be located on Canyon Creek, in Kenai Peninsula Borough, Alaska. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) a concrete-faced rockfill embankment dam; (2) a 40-acre impoundment with a storage volume of 8,000 acre-feet at a normal maximum surface elevation of 830 feet above mean sea level; (3) a concrete intake structure on the left abutment of the dam; (4) a 2,900-foot-long, 5-foot-diameter steel penstock; (5) a 40-foot-long, 50-foot-wide concrete powerhouse containing a 6.3 megawatt Kaplan turbine-generator unit; (6) a 30-foot long, 10-foot-wide tailrace channel excavated in rock; (7) a 1,500-foot-long, 115-kilovolt transmission line extending from a new switchyard near the powerhouse to the point of interconnection with an existing transmission line adjacent to Seward Highway; and (8) appurtenant facilities. The proposed project would have an estimated average annual generation of 14,100 megawatt-hours. The project would be located on federal lands managed by the U.S. Forest Service in the Chugach National Forest.

Applicant Contact: Dustin Highers, Chugach Electric Association, Inc., 5601 Electron Drive, Anchorage, AK 99518; phone: (907) 563–7494.

FERC Contact: John Matkowski; phone: (202) 502–8576, or by email at *john.matkowski@ferc.gov*.

Deadline for filing comments, motions to intervene, competing applications (without notices of intent), or notices of intent to file competing applications: by 5:00 p.m. Eastern Time on October 20, 2026. Competing applications and notices of intent must meet the requirements of 18 CFR 4.36.

The Commission strongly encourages electronic filing. Please file comments, motions to intervene, notices of intent, and competing applications using the Commission's eFiling system at *https://ferconline.ferc.gov/eFiling.aspx*. Commenters can submit brief comments up to 10,000 characters, without prior registration, using the eComment system at *https://ferconline.ferc.gov/QuickComment.aspx*. For assistance, please contact FERC Online Support at *FERCOnlineSupport@ferc.gov*, (866) 208–3676 (toll free), or (202) 502–8659 (TTY). In lieu of electronic filing, you may submit a paper copy. Submissions sent via the U.S. Postal Service must be addressed to: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Room 1A, Washington, DC 20426. Submissions sent via any other carrier must be addressed to: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, Maryland 20852. The first page of any filing should include docket number P–15422–000.

For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, contact the Office of Public Participation at (202) 502–6595 or *OPP@ferc.gov*.

More information about this project, including a copy of the application, can be viewed on the Commission's website (*http://www.ferc.gov*) using the "eLibrary" link. Enter the docket number, excluding the last three digits (P–15422), in the docket number field to access the document. For assistance, contact FERC Online Support.

[Project No. 2600–088]

Bangor-Pacific Hydro Associates; Notice of Intent To Prepare an Environmental Assessment

On May 27, 2022, Bangor-Pacific Hydro Associates (Bangor Hydro) filed an application to relicense the 1,300-kilowatt West Enfield Hydroelectric Project No. 2600. The project is located on the Penobscot River in Penobscot County, Maine.

In accordance with the Commission's regulations, on December 9, 2025, Commission staff issued a notice that the project was ready for environmental analysis (REA notice).¹ Based on the information in the record, including comments filed on the REA notice, staff does not anticipate that licensing the project would constitute a major federal action significantly affecting the quality of the human environment. Therefore, staff intends to prepare an environmental assessment (EA) on the application to relicense the project.²

The EA will be issued and circulated for review by all interested parties. All comments filed on the EA will be analyzed by staff and considered in the Commission's final licensing decision.

For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, contact the Office of Public Participation at (202) 502–6595 or *OPP@ferc.gov*.

The application will be processed according to the following schedule. The EA will be issued for a 30-day comment period. Revisions to the schedule may be made as appropriate.

Milestone	Target date
Commission issues EA	June 30, 2027.

Any questions regarding this notice may be directed to Michael Watts by telephone at (202) 502–6123 or by email at *michael.watts@ferc.gov*.

(Authority: 18 CFR 2.1)

¹ Subsequently, on January 12, 2026, and April 22, 2026, the Commission granted two requests from Bangor Hydro to extend the deadlines established in the REA notice by 120 and 60 days, respectively.

² For tracking purposes under the National Environmental Policy Act, the unique identification number for documents relating to this environmental review is EAXX–019–20–000–1784196507.
