

Overview of This Information Collection

1. *Type of Information Collection:* Revision of a previously approved collection.

The Title of the Form/Collection: Reporting Portal for Civil Rights Violations.

2. *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* There is no agency form number for this collection. The applicable component within the Department of Justice is the Civil Rights Division.

3. *Affected public who will be asked or required to respond, as well as the obligation to respond:* Affected Public: Individuals or households.

4. *An estimate of the total number of respondents and the amount of time*

estimated for an average respondent to respond: The total or estimated number of respondents for this collection is 132,655. The time per response is 6 minutes.

5. *An estimate of the total annual burden (in hours) associated with the collection:* The total annual burden hours for this collection is 13,265.5 hours.

Abstract: This collection is authorized by 18 U.S.C. 245, Federally Protected Activities and 18 U.S.C. 241, 242, Official Misconduct. Civil Rights Division of the U.S. Department of Justice enforces the nation's federal civil rights statutes. Members of the public play a critical role in this effort by reporting civil rights violations to the Division. To facilitate this reporting process, the Division is developing a

streamlined online Reporting Portal for Civil Rights Violations. This Portal is designed to facilitate and enhance individual complainant's reporting opportunities.

6. *Affected Public:* Households and individuals.

7. *Obligation to Respond:* The obligation to respond is voluntary.

8. *Total Estimated Number of Respondents:* The total or estimated number of respondents for this collection is 132,655.

9. *Estimated Time per Respondent:* The time per response is 6 minutes.

10. *Frequency:* Varies per complainant.

11. *Total Estimated Annual Time Burden:* Burden Hours: \$666,000.

NATIONAL SCIENCE FOUNDATION**Agency Information Collection Activities: Comment Request; Qualitative Feedback on Agency Service Delivery**

AGENCY: National Science Foundation.

ACTION: Submission for OMB review; comment request.

SUMMARY: The National Science Foundation (NSF) has submitted the following information collection

requirement to OMB for review and clearance under the Paperwork Reduction Act of 1995. This is the second notice for public comment; the first was published in the **Federal Register**, and no comments were received. NSF is forwarding the proposed submission to the Office of Management and Budget (OMB) for clearance simultaneously with the publication of this second notice.

DATES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

Comments: Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; and (d) ways to

minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

FOR FURTHER INFORMATION CONTACT:

Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 401 Dulany Street, Alexandria, VA 22314, or send email to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including federal holidays).

Copies of the submission may be obtained by calling 703-292-7556.

SUPPLEMENTARY INFORMATION: NSF may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Title of Collection: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

OMB Number: 3145-0215.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: The proposed information collection activity provides a means for the National Science Foundation (NSF) to garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Agency's commitment to improving service delivery.

By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences, and expectations; provide an early warning of issues with service; or focus attention on areas where communication, training, or changes in operations might improve delivery of products or services. This collection will allow for ongoing, collaborative and actionable communications between the Agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

The solicitation of feedback will target areas such as: Timeliness,

appropriateness, accuracy of information, courtesy, efficiency of service delivery, and resolution of issues with service delivery. Responses will be assessed to plan and inform efforts to improve or maintain the quality of service offered to the public. If this information is not collected, vital feedback from customers and stakeholders on the Agency's services will be unavailable.

NSF will only submit a collection for approval under this generic clearance if it meets the following conditions:

- The collection is voluntary;
- The collection is low-burden for respondents (based on considerations of total burden hours, total number of respondents, or burden-hours per respondent) and is low-cost for both the respondents and the Federal Government;
- The collection is non-controversial and does not raise issues of concern to other Federal agencies;
- The collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future;
- Personally identifiable information (PII) is collected only to the extent necessary and is not retained;
- Information gathered is intended to be used only internally for general service improvement and program management purposes and is not intended for release outside of NSF (if released, NSF must indicate the qualitative nature of the information);
- Information gathered will not be used for the purpose of substantially informing influential policy decisions; and
- Information gathered will yield qualitative information; the collection will not be designed or expected to yield statistically reliable results or used as though the results are generalizable to the population of study.

Feedback collected under this generic clearance provides useful information, but it does not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: The target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate,

methods for assessing potential nonresponse bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior to fielding this study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

As a general matter, this information collection will not result in any new system of records containing privacy information and will not ask questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

Below we provide the National Science Foundation's projected average estimates for the next three years:

Affected public: Individuals and Households, Businesses and Organizations, State, Local or Tribal Government.

Average expected annual number of activities: 50.

Respondents: 500 per activity.

Annual responses: 25,000.

Frequency of response: Once per request.

Average minutes per response: 30.

Burden hours: 12,500.

Dated: August 24, 2026.
