NATIONAL SCIENCE FOUNDATION

Agency Information Collection

Activities: Request for Comment Regarding Common Disclosure Forms for the Biographical Sketch and Current and Pending (Other) Support

AGENCY: National Science Foundation.

ACTION: Notice.

SUMMARY: The National Science Foundation (NSF) is announcing plans to renew this collection. In accordance with the requirements of the Paperwork Reduction Act of 1995, we are providing opportunity for public comments on this action. After obtaining and considering public comments, NSF will prepare the submission requesting Office of Management and Budget (OMB) clearance of this collection for no longer than 3 years.

DATES: Written comments on this notice must be received by October 26, 2026 to be assured consideration. Comments received after that date will be considered to the extent practicable.

ADDRESSES: Please address comments to Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 401 Dulany Street, Alexandria, Virginia 22314; telephone (703) 292-7556; or send an email to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including Federal holidays).

Comments: Comments are requested on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of

information technology; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

SUPPLEMENTARY INFORMATION:

Title of Collection: Request for Comment regarding Common Disclosure Forms for the Biographical Sketch and Current and Pending (Other) Support.

OMB Approval Number: 3145-0279.

Type of Request: Intent to seek approval to renew an information collection.

I. Background

Section 4(b) of NSPM-33 directs that "research funding agencies shall require the disclosure of information related to potential conflicts of interest and commitment from participants in the Federally funded R&D enterprise The appropriate disclosure requirement varies depending on the individual's role in the United States R&D enterprise." Section 4(b)(vi) directs that "agencies should standardize forms for initial disclosures as well as annual updates, . . . and should provide clear instructions to accompany these forms and to minimize any associated administrative burden."

The National Science and Technology Council (NSTC) Research Security Subcommittee developed consistent disclosure requirements from senior personnel, as well as common disclosure forms for the Biographical Sketch and Current and Pending (Other) Support sections of an application for Federal research and development (R&D) grants or cooperative agreements. The purpose of the Biographical Sketch is to assess how well qualified the individual, team, or organization is to conduct the proposed activities. The purpose of Current and Pending (Other) Support is to assess the capacity of the individual to carry out the research as proposed and to help identify any potential scientific and budgetary overlap/duplication, as well as overcommitment with the project being proposed. NSF has agreed to continue to serve as the steward for collection and resolution of public comments, as well as for posting and maintaining the latest versions of the above-mentioned

documents of the common forms and other associated documents.

These common forms are intended to clarify what is expected of senior personnel applying for R&D funding from Federal research funding agencies. Variations among research agencies will be limited to cases: (a) where required by statute or regulation; (b) where more stringent protections are necessary for protection of R&D that is classified, export-controlled, or otherwise legally protected; or (c) for other compelling reasons consistent with individual agency authorities and as coordinated through the NSTC.

As stated in the NSPM-33 Implementation Guidance, "the goal of these common forms and accompanying instructions is to ensure that applying for awards from any Federal research funding agency will require disclosing the same information in the same manner, to increase clarity and reduce administrative burden on the research community. In some cases, research agencies may adapt the forms and instructions, where required by their legal authorities. Such common forms also will allow the research community to identify and point out where greater clarity may be needed."

Agencies may develop agency- or program-specific data elements and instructions, if necessary, to meet programmatic requirements, although agencies will be instructed to minimize the degree to which they supplement the common forms. Modification and/or supplementation of these common forms will require clearance by OMB/OIRA under the PRA process.

These common forms replace forms/formats currently used by agencies for these sections of applications, thereby increasing the consistency of disclosure forms and reducing administrative burden.

II. Invitation To Comment

The following documents are available for review and comment on the NSF website (see https://www.nsf.gov/bfa/dias/policy/nstc_disclosure.jsp):

- a. A common Biographical Sketch form, including data elements and associated instructions; and
- b. A common Current and Pending (Other) Support form, including data elements and associated instructions.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-498; NRC-2026-4192]

STP Nuclear Operating Company; South Texas Project, Unit 1; License Amendment Application

AGENCY: Nuclear Regulatory Commission.

ACTION: Opportunity to comment, request a hearing, and petition for leave to intervene.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC, the Commission) is considering issuance of an amendment to Renewed Facility Operating License No. NPF-76, issued to STP Nuclear Operating Company (STPNOC); Constellation South Texas, LLC; City Public Service Board of San Antonio; and City of Austin, Texas, for operation of South Texas Project, Unit 1 (STP). The proposed license amendment would, if granted, make a one-time exigent change to the technical specifications (TS) to extend the allowed outage time (AOT) for TS 3.7.1.7, “Main Feedwater System”. This proposed amendment is being requested to facilitate repairs to the Unit 1 train D main feedwater isolation valve (MFIV). This proposed amendment is being requested under exigent circumstances pursuant to NRC regulations.

DATES: Submit comments by September 9, 2026. Comments received after this date will be considered if it is practical to do so, but the Commission is able to ensure consideration only for comments received before this date. Requests for a hearing or petitions for leave to intervene must be filed by October 26, 2026.

ADDRESSES: You may submit comments by any of the following methods; however, the NRC encourages electronic

comment submission through the Federal rulemaking website.

- *Federal rulemaking website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2026-4192.
