Abstract: Under the authority of sections 3004, 3005, 3008 and 3010 of the Resource Conservation and Recovery Act (RCRA) as amended, EPA revised the RCRA hazardous waste permitting program to allow a "standardized permit." The standardized permit is available to facilities that generate hazardous waste and routinely manage the waste on-site in non-thermal units such as tanks, containers, and containment buildings. In addition, the standardized permit is available to facilities that receive hazardous waste generated off-site by a generator under the same ownership as the receiving facility and then store or non-thermally treat the hazardous waste in containers, tanks, or containment buildings. The RCRA standardized permit consists of two components: a uniform portion that is included in all cases, and a supplemental portion that the director of a regulatory agency includes at his or her discretion. The uniform portion consists of terms and conditions relevant to the unit(s) at the permitted facility and is established on a national basis. The supplemental portion imposes site-specific permit terms and conditions that the director determines necessary to institute corrective action under § 264.101 (or state equivalent), or otherwise necessary to protect human health and the environment. Owners and operators have to comply with the terms and conditions in the supplemental portion, in addition to those in the uniform portion.

Form Numbers: None.

Abstract: The information collection activities will occur primarily at the program-level through the State Capitalization Grant Agreement/Intended Use Plan and Annual Report. The information on the Intended Use Plan (IUP) is needed annually to describe how the State intends to use available State Revolving Fund (SRF) funds for the year to meet the objectives of the Clean Water Act (CWA) or Safe Drinking Water Act (SDWA) and to further the goal of protecting public health. The Annual Report is needed to provide detailed information on how the State has met its goals and objectives of the previous one or two fiscal years as stated in the IUP and grant agreement. The CWA and SDWA require this information to ensure the national accountability, adequate public review and comment, fiscal integrity, and consistent management needed to achieve public health and CWA and SDWA compliance objectives.
