

TABLE 3—TEST INFORMATION RECEIVED—Continued

Case No.	Received date	Type of test information	Chemical substance
P-10-0470	05/29/2026	Analytical Data	(G) Fluoro modified, polyether modified and alkyl modified polymethylsiloxane.
P-10-0471	05/29/2026	Analytical Data	(G) Fluoro modified, polyether modified polyacrylate.
P-10-0472	05/29/2026	Analytical Data	(G) Fluoro modified, polyether modified polyacrylate.
P-14-0712	06/18/2026	Notice of Transfer	(S) Waste plastics, pyrolyzed, C5-55 fraction.
P-14-0712	06/30/2026	Analytical Report	(S) Waste plastics, pyrolyzed, C5-55 fraction.
P-16-0543	06/04/2026	Monitoring Report	(G) Halogenophosphoric acid metal salt.
P-24-0044	05/29/2026	Freshwater Alga and Cyanobacteria, Growth Inhibition Test (OECD Test Guideline 201).	(G) Oxirane, 2-methyl-, polymer with oxirane, ether with N-[4-[[4-bis(2-hydroxyethyl) amino] phenyl] (2-substitutedphenyl) methylene]-2,5-cyclohexadien-1-ylidene]-2-hydroxy-N-(2-hydroxyethyl) ethanaminium inner salt (4:1).
P-26-0063	06/16/2026	Process flow diagram and Clean Harbors incineration booklet	(G) Alkene, halo-substituted, oligomer.
P-26-0071	06/22/2026	Reproduction/Developmental Toxicity Screening Test (OECD Test Guideline 421); Subchronic Inhalation Toxicity: 90-day Study (OECD Test Guideline 413); Defined Approaches on Skin Sensitization (OECD Test Guideline 497); Mammalian Erythrocyte Micronucleus Test (OECD Test Guideline 474); Reconstructed human Cornea-like Epithelium (RhCE) test method for identifying chemicals not requiring classification and labelling for eye irritation or serious eye damage (OECD Test Guideline 492); Daphnia sp. Acute Immobilization Test (OECD Test Guideline 202).	(S) 3-Hexene, 1,1,1,2,2,5,5,6,6,6-decafluoro-, (3E).

IV. Status Reports

Information about the TSCA section 5 PMNs, SNUNs, MCANs, and exemption applications received, including the date of receipt, the status of EPA's review, the final EPA determination, and the effective date of EPA's determination, is available online at: <https://www.epa.gov/reviewing-new-chemicals-under-toxic-substances-control-act-tsca/pre-manufacture-notices>.

Authority: 15 U.S.C. 2601 *et seq.*

Dated: August 17, 2026.

Jan Krysa,

Acting Director, Information Technology and Security Division, Office of Mission Critical Operations.

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; Emergency Planning and Community Right-to-Know Act (EPCRA) Hazardous Chemical Inventory Reporting

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) is planning to submit an information collection request (ICR), Emergency Planning and Community Right-to-Know Act (EPCRA) Hazardous

Chemical Inventory Reporting (EPA ICR Number 1352.19, OMB Control Number 2050-0072) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (PRA). This is a proposed extension of the ICR, which is currently approved through August 31, 2026. Public comments were previously requested via the **Federal Register** on April 9, 2026, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

DATES: Comments must be submitted on or before September 28, 2026.

ADDRESSES: Submit your comments, referencing Docket ID No. EPA-HQ-SFUND-2004-0006, to EPA online using www.regulations.gov (our preferred method), by email to superfund.docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public

Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Jennifer Barre, Office of Resource Conservation and Recovery, Mail Code 5303T, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (240) 644-4559; email address: Barre.Jennifer@epa.gov.

SUPPLEMENTARY INFORMATION: This is a proposed extension of the ICR, which is currently approved through August 31, 2026. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the **Federal Register** on April 9, 2026 during a 60-day comment period (91 FR 17966). This notice allows for an additional 30 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: The authority for these requirements is sections 311 and 312 of the Emergency Planning and Community Right-to-Know Act (EPCRA) of 1986 (42 U.S.C. 11011, 11012). EPCRA section 311 requires owners and operators of facilities subject to the Occupational Safety and Health

Administration (OSHA) Hazard Communication Standard (HCS) to submit a list of chemicals or Material Safety Data Sheets (MSDSs) (for those chemicals that exceed thresholds, specified in 40 CFR part 370) to the State Emergency Response Commission (SERC) or Tribal Emergency Response Commission (TERC), Local Emergency Planning Committee (LEPC) or Tribal Emergency Planning Committee (TEPC), and the local fire department (LFD) with jurisdiction over their facility. This is a one-time requirement unless a facility becomes subject to the regulations or has updated information on the hazardous chemicals that were already submitted by the facility. EPCRA section 312 requires owners and operators of facilities subject to the OSHA HCS to submit an inventory form (for those chemicals that exceed the thresholds, specified in 40 CFR part 370) to the SERC (or TERC), LEPC (or TEPC), and LFD with jurisdiction over their facility. This inventory form, the Tier II Emergency and Hazardous Chemical Inventory Form, is to be submitted on or before March 1 of each year and must include the inventory of hazardous chemicals present at the facility in the previous calendar year. Currently, all states require facilities to submit the Federal Tier II form or the state-equivalent, including electronic submission.

Form Numbers: Tier II Emergency and Hazardous Chemical Inventory Form, EPA Form No. 8700–30.

Respondents/affected entities: Entities potentially affected by this ICR are manufacturers and non-manufacturers required to have available a Safety Data Sheet (SDS) under the OSHA HCS.

Respondent's obligation to respond: Mandatory (sections 311 and 312 of EPCRA).

Estimated number of respondents: 465,692 facilities (total). This figure includes 3,052 LEPCs and SERCs.

Frequency of response: Annual.

Total estimated burden: 6,963,271 hours (per year, including LEPCs and SERCs). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$524,449,374 per year, which includes \$2,007,713 annualized operation & maintenance costs.

Changes in Estimates: There is an increase in the annual respondent labor cost of \$205,291,540 compared to the previous ICR. This includes an increase of \$203,794,731 for facilities and \$1,496,809 for state and local governments. The increase in labor cost compared to the previous ICR is due to updates to the associated labor rates to 2025 values. Similarly, this ICR renewal

results in an increase in estimated O&M costs of \$292,618 (\$289,239 for facilities and \$3,379 for state and local governments) due to updating the previous estimates to 2025 dollars. EPA's estimated respondent burden—6,963,271 hours annually—is unchanged compared to the previous ICR renewal.

Courtney Kerwin,

Deputy Director, Data and Enterprise Programs Division.

trans-1,2-Dichloroethylene Draft Risk Evaluation Under the Toxic Substances Control Act (TSCA); Notice of Availability and Request for Comment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA or Agency) is announcing the availability of and seeking public comment on the draft risk evaluation under the Toxic Substances Control Act (TSCA) for *trans*-1,2-dichloroethylene. The purpose of risk evaluations under TSCA is to determine whether a chemical substance presents an unreasonable risk of injury to health or the environment under the conditions of use (COUs), including unreasonable risk to potentially exposed or susceptible subpopulations identified as relevant to the risk evaluation by EPA, and without consideration of costs or non-risk factors. EPA is seeking comment on the draft risk evaluation for *trans*-1,2-dichloroethylene.

DATES: Comments must be received on or before October 26, 2026.

ADDRESSES: To submit comments on the *trans*-1,2-dichloroethylene draft risk evaluation, submit your comments, identified by docket ID number EPA–HQ–OPPT–2018–0465, online at <https://www.regulations.gov>.

Follow the online instructions for submitting comments. Do not electronically submit any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Members of the public should also be aware that personal information included in any written comments may be posted on the

internet at <https://www.regulations.gov>. Additional information on commenting or visiting the docket, along with more information about dockets generally, is available at <https://www.epa.gov/dockets>.

FOR FURTHER INFORMATION CONTACT:

For technical information on trans-1,2-dichloroethylene: Daniel Whitby, Existing Chemical Risk Management Division, Office of Pollution Prevention and Toxics, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460–0001; telephone number: (202) 564–0598; email address: trans-1.2-Dichloroethylene.TSCA@epa.gov.

For general information: The TSCA Assistance Information Service Hotline, Goodwill Vision Enterprises, 422 South Clinton Ave., Rochester, NY 14620; telephone number: (800) 471–7127 or (202) 554–1404; email address: TSCA-Hotline@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Executive Summary

A. Does this action apply to me?

This action is directed to the public in general and may be of particular interest to those involved in the manufacture (defined under TSCA section 3(9) to include import), processing, distribution, use, and disposal of *trans*-1,2-dichloroethylene, related industry trade organizations, non-governmental organizations with an interest in human and environmental health, State and local governments, Tribal Nations, and/or those interested in the assessment of risks involving chemical substances and mixtures regulated under TSCA. As such, the Agency has not attempted to describe all the specific entities that this action might apply to. If you need help determining applicability, consult the relevant technical contact listed under **FOR FURTHER INFORMATION CONTACT**.

B. What is the Agency's authority for taking this action?

The Agency is conducting these risk evaluations under TSCA section 6, (15 U.S.C. 2605) which requires that EPA conduct risk evaluations on chemical substances and identifies the minimum components EPA must include in the risk evaluations. Each risk evaluation must be conducted consistent with the best available science, be based on the weight of the scientific evidence, and consider reasonably available information, and not consider costs or non-risk factors (15 U.S.C. 2625(h), (i), and (k)). See also the implementing procedural regulations at 40 CFR part 702.
