

Background: The CASAC was established pursuant to the Clean Air Act (CAA) Amendments of 1977, codified at 42 U.S.C. 7409(d)(2), to review air quality criteria and NAAQS and recommend to the EPA Administrator any new NAAQS and revisions of existing criteria and NAAQS as may be appropriate. The CASAC shall also: advise the EPA Administrator of areas in which additional knowledge is required to appraise the adequacy and basis of existing, new, or revised NAAQS; describe the research efforts necessary to provide the required information; advise the EPA Administrator on the relative contribution to air pollution concentrations of natural as well as anthropogenic activity; and advise the EPA Administrator of any adverse public health, welfare, social, economic, or energy effects which may result from various strategies for attainment and maintenance of such NAAQS. As amended, 5 U.S.C., App. Section 109(d)(1) of the Clean Air Act (CAA) requires that EPA carry out a periodic review and revision, as appropriate, of the air quality criteria and the NAAQS for the six "criteria" air pollutants, including oxides of nitrogen.

The CASAC is a federal advisory committee chartered under the Federal Advisory Committee Act (FACA), 5 U.S.C. chapter 10, and conducts business in accordance with FACA and related regulations. The CASAC will comply with the provisions of FACA and all appropriate SAB Branch procedural policies. Pursuant to FACA and EPA policy, notice is hereby given that the CASAC will hold two public meetings to receive public comments and to peer review the NO_x ISA.

Availability of meeting materials: All meeting materials, including the agenda, will be available on the CASAC web page at <https://casac.epa.gov>.

Procedures for providing public input: Public comment for consideration by EPA's federal advisory committees and panels has a different purpose from public comment provided to EPA program offices. Therefore, the process for submitting comments to a federal advisory committee is different from the process used to submit comments to an EPA program office. Federal advisory committees and panels, including scientific advisory committees, provide independent advice to the EPA. Members of the public can submit relevant comments pertaining to the committee's charge or meeting materials. Input from the public to the CASAC will have the most impact if it provides specific scientific or technical information or analysis for the CASAC

to consider or if it relates to the clarity or accuracy of the technical information. Members of the public wishing to provide comments should follow the instructions below to submit comments.

Oral statements: In general, individuals or groups requesting an oral presentation virtually will be limited to three minutes. Each person making an oral statement should consider providing written comments as well as their oral statement so that the points presented orally can be expanded upon in writing. Persons interested in providing oral statements should contact the DFO listed in the **FOR FURTHER INFORMATION CONTACT** section; preferably via email, by September 2, 2026, to be placed on the list of registered speakers.

Written statements: Written statements will be accepted throughout the advisory process; however, for timely consideration by CASAC members, statements should be submitted to the DFO by September 2, 2026. Written statements should be supplied by email to the DFO listed in the **FOR FURTHER INFORMATION CONTACT** section. Submitters are requested to provide an unsigned version of each document because the SAB Branch does not publish documents with signatures on its websites. Members of the public should be aware that their personal contact information, if included in any written comments, may be posted to the CASAC website. Copyrighted material will not be posted without the explicit permission of the copyright holder.

Accessibility: For information on access or services for individuals with disabilities, please contact the DFO listed in the **FOR FURTHER INFORMATION CONTACT** section; at least ten business days before the meetings, to give the EPA as much time as possible to process your request.

Chief, Science Advisory Board Branch.

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. Abstract: This ICR covers the information collection activities associated with the reporting and recordkeeping requirements for sellers', lessors', and their agents' disclosure activities in target housing including the allowance of up to ten days for an optional risk assessment or inspection before being obligated under purchase or lease contract.

The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here:

Form Numbers: EPA Forms 9600-040 and 9600-041.

Respondents/affected entities: Entities potentially affected by this ICR include lessors of real estate and real estate agents North American Industrial Classification System (NAICS) codes 5311 and 5312.

Estimated number of respondents: 39,979,082 (total).

Frequency of response: On occasion.

Total estimated burden: 4,456,371 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Changes in the estimates: There is decrease of 1,024,698 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease, which is discussed in more detail in the ICR, reflects EPA's updating of burden estimates for this collection based on recent data on the number of home sales and new rental agreements over the past few years, as well as the number of real estate agents assisting buyers, sellers, and lessors of

properties. This change is an adjustment.
