

submit comments on this rule, including the regulatory and information collection impacts of this action on small businesses.

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), the Order's information collection requirements have been previously approved by OMB and assigned OMB No. 0581-0178, "Vegetable and Specialty Crops." No changes in those requirements are necessary because of this final rule. Should any changes become necessary, they would be submitted to OMB for approval.

This final rule will not impose any additional reporting or recordkeeping requirements on either small or large California olive handlers. As with all Federal marketing order programs, reports and forms are periodically reviewed to reduce information requirements and duplication by industry and public sector agencies.

AMS is committed to complying with the E-Government Act, to promote the use of the internet and other information technologies to provide increased opportunities for citizen access to Government information and services, and for other purposes.

AMS has not identified any relevant Federal rules that duplicate, overlap, or conflict with this final rule.

A proposed rule concerning this action was published in the **Federal Register** on March 9, 2026 (91 FR 11184). Copies of the proposed rule were provided to all California olive handlers. In addition, the proposal was made available through the internet by AMS and the Office of the Federal Register via <https://www.regulations.gov>. A 30-day comment period ending April 8, 2026, was provided for interested persons to respond to the proposal. AMS received one comment during the comment period. The comment did not address the merits of the proposal. Accordingly, AMS made no changes to the rule as proposed.

After consideration of all relevant material presented, including the information and recommendations submitted by the Committee and other available information, AMS has determined that this final rule is consistent with and effectuates the purposes of the Act.

List of Subjects in 7 CFR Part 932

Marketing agreements, Olives, Reporting and recordkeeping requirements.

For the reasons set forth in the preamble, AMS amends 7 CFR part 932 as follows:

PART 932—OLIVES GROWN IN CALIFORNIA

■ 1. The authority citation for part 932 continues to read as follows:

Authority: 7 U.S.C. 601–674.

■ 2. Section 932.230 is revised to read as follows:

§ 932.230 Assessment rate.

On and after January 1, 2025, an assessment rate of \$24 per ton is established for California olives.

Erin Morris,

Administrator, Agricultural Marketing Service.

7 CFR Part 1414

[Docket ID FSA–2026–0001]

RIN 0560–AI87

Farmer Bridge Assistance (FBA) Program; Correction

AGENCY: Commodity Credit Corporation, U.S. Department of Agriculture (USDA).

ACTION: Correcting amendment.

SUMMARY: The Commodity Credit Corporation (CCC) announced the Farmer Bridge Assistance (FBA) Program in a final rule on February 23, 2026. This correction amends the definition of "corn" to add blue and red corn, which are eligible commodities for the FBA Program.

DATES: Effective on August 27, 2026.

FOR FURTHER INFORMATION CONTACT: Jamie Garriott; telephone: (202) 253–9843; or email: Jamie.Garriott@usda.gov. Individuals with disabilities who require alternative means for communication should contact the USDA Target Center at (202) 720–2600 (voice and text telephone (TTY mode)) or dial 711 for Telecommunications Relay Service (both voice and text telephone users can initiate this call from any telephone).

SUPPLEMENTARY INFORMATION: On February 23, 2026, CCC published a final rule (91 FR 8360) announcing the FBA program, which provides up to \$11 billion in one-time bridge payments to American farmers in response to temporary trade market disruptions and increased production costs. Corn is an eligible commodity for the FBA Program, and the final rule defined "corn" as, "only white, yellow,

amylose, popcorn (excluding strawberry popcorn), waxy, and high amylase corn." (7 CFR 1414.3). That definition inadvertently omitted blue and red corn, which are also eligible for the FBA Program. This document corrects that omission by adding those types of corn to the definition of "corn."

The deadline to apply for the FBA Program was April 17, 2026. Due to the omission of blue and red corn from the definition of "corn", those types of corn were not included on pre-filled FBA Program applications and producers of those commodities could not apply by the deadline. CCC is announcing that it will generate a CCC–555, Farmer Bridge Assistance (FBA) Program Application, for each eligible producer who timely reported eligible 2025 crop year acres of blue or red corn, as provided in § 1414.5. CCC is extending the deadline for producers to submit a CCC–555 for blue and red corn until September 28, 2026, as authorized under § 1414.6(b). As indicated in § 1414.6(c), producers must also submit all eligibility forms by April 19, 2027.

List of Subjects in 7 CFR Part 1414

Agricultural commodities, Cotton, Feed grains, Fruits, Nuts, Oilseeds, Peanuts, Reporting and recordkeeping requirements, Rice, Vegetables, Wheat.

For the reasons discussed above, CCC amends the regulations in 7 CFR part 1414 as follows:

PART 1414—BRIDGE ASSISTANCE

■ 1. The authority citation for part 1414 continues to read as follows:

Authority: 15 U.S.C. 714, *et seq.*

Subpart A—Farmer Bridge Assistance Program

§ 1414.3 [Amended]

■ 2. Amend the definition of "Corn" in § 1414.3 by adding the words "blue, red," after the word "only".

William Beam,

Executive Vice President, Commodity Credit Corporation.
