SUPPLEMENTARY INFORMATION: The Gulf, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with the NMFS and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the SEDAR process, a multi-step method for determining the status of fish stocks in the Southeast Region SEDAR is a participatory process for developing, evaluating and reviewing information used for fisheries management advice. The process may include (1) a Data stage, and (2) an Assessment stage, and (3) a Review stage. The product of the Data stage is a report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment stage is a report which compiles and evaluates recommended model configurations that describes the fisheries, evaluates the status of the stock, estimates biological benchmarks and projects future population conditions. The product of the Review Workshop is a Review Summary documenting panel opinions regarding the strengths and weaknesses of the products reviewed. Participants for SEDAR Workshops are appointed by the Gulf, South Atlantic, and Caribbean Fishery Management Councils and National Marine Fisheries Service Southeast Regional Office, Highly Migratory Species Management Division, and Southeast Fisheries Science Center. Participants include data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and non-governmental organizations; International experts; and staff of Councils, Commissions, and state and Federal agencies.

The items of discussion in the Post-Development Workshop Webinar are as follows:

The Panel will finalize decisions that were not completed at the in-person development workshop. Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the

subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.
