

capability would provide a full range of protection from imminent hostile cruise missile, unmanned aerial vehicle, rotary wing, and fixed wing threats.

(v) *Justification:* This proposed sale will support the foreign policy and national security objectives of the United States by helping to improve the security of a friendly country that continues to be an important force for political stability and economic progress in the Middle East.

(vi) *Sensitivity of Technology:*

The Sensitivity of Technology Statement contained in the original notification applies to the additional items reported here.

The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

(vii) *Date Report Delivered to Congress:* July 6, 2026

[Transmittal No. 0E-26]

Arms Sales Notification

AGENCY: Defense Security Cooperation Agency, Department of Defense (DoD).

ACTION: Arms sales notice.

SUMMARY: The DoD (referred to herein as “the Department,” “Department of War” or “DoW”) is publishing the unclassified text of an arms sales notification.

FOR FURTHER INFORMATION CONTACT:

Urooj Zahra at (703) 695-6233, urooj.zahra.civ@mail.mil, or dsca.ncr.rsrcmgmt.list.cns-mbx@mail.mil.

SUPPLEMENTARY INFORMATION: This 36(b) arms sales notification is published to fulfill the requirements of section 155 of Public Law 104-164 dated July 21, 1996. The following is a copy of the attached Transmittal 0E-26.

Dated: August 25, 2026.

Stephanie J. Bost,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

Transmittal No. RSAT 0E-26

REPORT OF ENHANCEMENT OR UPGRADE OF SENSITIVITY OF TECHNOLOGY OR CAPABILITY (SEC. 36(B)(5)(A), AECA)

(i) *Prospective Purchaser:* Government of Sweden

(ii) Sec. 36(b)(1), AECA Transmittal No.: 23-33

Date: July 7, 2023

Implementing Agency: Air Force

(iii) *Description:* On July 7, 2023, Congress was notified by congressional certification transmittal number 23-33 of the possible sale, under Section 36(b)(1) of the Arms Export Control Act, of up to two hundred fifty (250) AIM-120C-8 Advanced Medium Range Air-to-Air Missiles (AMRAAM); and up to six (6) AMRAAM C-8 guidance sections. Also included were spare AIM-120 control sections and containers; AMRAAM test set telemetry kits; encryption devices; munitions support and support equipment; classified software delivery and support; spare parts, consumables, and accessories; repair and return support; transportation support; classified publications and technical documentation; studies and surveys; U.S. Government and contractor technical engineering, and logistics support services; and other related elements of logistical and program support. The estimated total cost was \$605 million. Major defense equipment (MDE) constituted \$530 million of this total.

This transmittal notifies the following additional MDE items: ten (10) AIM 120C-8 AMRAAM air-instrumented vehicles. The following non-MDE items will also be included: AMRAAM training missiles; KGV-135A encryption devices; and other related elements of logistics and program support. The estimated total value of the new items is \$25 million. The estimated total cost of the new MDE items is \$24 million and does not result in a net increase in total cost of MDE. The estimated total MDE cost remains \$530 million. The estimated total cost of the new non-MDE items is \$1 million and does not result in a net increase in total cost of non-MDE. The total non-MDE cost remains \$75 million. The total case value does not increase and remains \$605 million.

(iv) *Significance:* This notification accounts for requested additional MDE and non-MDE items not included in the original notification. The inclusion of this MDE represents an increase in capability over what was previously notified. The proposed articles and services will support Sweden's capability to meet and deter current and future threats in the region by ensuring Sweden has modern, capable air-to-air munitions. The proposed sale will further advance the Swedish Air Force interoperability with U.S. joint forces and other regional and NATO forces.

(v) *Justification:* This proposed sale will support the foreign policy goals and national security objectives of the United States by improving the security

of a NATO Ally that is a force for political stability and economic progress in Europe.

(vi) *Sensitivity of Technology:*

The AIM 120C-8 AMRAAM air-instrumented vehicle is a live launch test vehicle used primarily for flight test integration with a rocket motor and instrumentation unit in place of a warhead. The AIM 120C-8 AMRAAM air-instrumented vehicle verifies and assesses the ability to safely launch an AMRAAM and validate the missile's performance.

The KGV-135A communications device is a high-speed general purpose encryptor and decryptor module used for wideband data encryption.

The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

SUPPLEMENTARY INFORMATION: This 36(b) arms sales notification is published to fulfill the requirements of section 155 of Public Law 104-164 dated July 21, 1996. The following is a copy of the attached Transmittal 0F-26.

Dated: August 25, 2026.

Stephanie J. Bost,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

Transmittal No. RSAT 0F-26

REPORT OF ENHANCEMENT OR UPGRADE OF SENSITIVITY OF TECHNOLOGY OR CAPABILITY (SEC. 36(B)(5)(A), AECA)

(i) *Prospective Purchaser:* Government of Poland

(ii) *Sec. 36(b)(1), AECA Transmittal No.*: 24–33

Date: March 12, 2024

Implementing Agency: Air Force

Funding Source: National Funds

(iii) *Description*: On March 12, 2024, Congress was notified by congressional certification transmittal number 24–33 of the possible sale, under Section 36(b)(1) of the Arms Export Control Act, of up to eight hundred twenty-one (821) AGM–158B–2 Joint Air-to-Surface Standoff Missiles (JASSM) with Extended Range All-Up-Rounds. The following non-major defense equipment (MDE) items were also included: AGM–158 JASSM classified test equipment; weapon system support; integration and test support equipment; classified software delivery and support; unclassified publications and technical documentation; transportation; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support. The total estimated value was \$1.77 billion. MDE constituted \$1.67 billion of this total.

This transmittal notifies the inclusion of the following MDE items: up to five (5) AGM–158 inert JASSMs with test instrumentation kits (1 installed, 4 spares). The following non-MDE items will also be included: other related elements of program and logistics support. The estimated total value of the new items is \$21 million but will not require an increase in the estimated total case value. The estimated total value of the new MDE items is \$18 million and does not result in a net increase in total cost of MDE. The estimated total cost of the new non-MDE items is \$3 million and does not result in a net increase in total cost of non-MDE. The estimated total case value of \$1.77 billion will remain unchanged. MDE remains \$1.67 billion of this total.

(iv) *Significance*: This notification accounts for requested additional MDE and non-MDE items not included in the original notification. The inclusion of this MDE represents an increase in capability over what was previously notified. The proposed articles and services will support Poland's AGM–158 flight test program required for the Poland F–16 Viper configuration upgrade.

(v) *Justification*: This proposed sale will support the foreign policy and national security of the United States by improving the security of a NATO Ally that is a force for political and economic stability in Europe.

(vi) *Sensitivity of Technology*:

The flight certification vehicle will be used during flight testing to verify compatibility of the AGM–158

munitions with the F–16 aircraft software under Poland's F–16 Viper upgrade program. The Global Positioning System/Precise Positioning Service is to be provided by either Selective Availability Anti-Spoofing Module or M-Code.

The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

(vii) *Date Report Delivered to Congress*: July 22, 2026

POLICY JUSTIFICATION

Greece—Switchblade 300 Block 20 Lethal Miniature Aerial Missile System

The Government of Greece has requested to buy three hundred fifty (350) Switchblade 300 Block 20 (SB300B20) Lethal Miniature Aerial Missile System (LMAMS) and thirty-five (35) SB300B20 LMAMS Fire Control Systems (FCS). The following non-major defense equipment items will also be included: Switchblade 600 (SB600) Selective Availability Anti-Spoofing Module Global Positioning System LMAMS; SB600 FCS; SB300B20 tactical battery chargers; SB600 smart battery chargers; spares packages; training services; field service representative support; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support. The estimated total cost is \$80.1 million.

This proposed sale will support the foreign policy and national security of the United States by improving the security of a NATO Ally that continues to be a force for political and economic stability in Europe.
