NUCLEAR REGULATORY COMMISSION

[Docket Nos. 70–7033, M70–7033; CLI–26–12]

Global Laser Enrichment, llc; Paducah Laser Enrichment Facility; Commissioners: Ho. K. Nieh, Chairman; David A. Wright; Bradley R. Crowell; Matthew J. Marzano; Douglas W. Weaver; Order

On March 4, 2026, the Commission of the U.S. Nuclear Regulatory Commission (NRC) issued an order in the above-captioned docket providing notice of the receipt of an application from Global Laser Enrichment, LLC (GLE) for a license to possess and use special nuclear material for the purpose of constructing and operating a uranium enrichment facility in McCracken County, Kentucky.[1] The *GLE* order also provided specific guidance on the adjudicatory procedures to be used in the conduct of the proceeding, including direction regarding the conduct of an on-the-record uncontested hearing as well as the opportunity to request a contested hearing.

Subsequently, on August 7, 2026, the Commission issued an order in a separate proceeding concerning the receipt and notice of an application from Orano Enrichment USA LLC (Orano) also for a license to receive, acquire, possess, and transfer byproduct, source, and special nuclear material but for the purpose of constructing and operating the Project IKE Enrichment Facility in Oak Ridge, Tennessee.[2] In the *Orano* order, the Commission provided guidance on the adjudicatory procedures to apply in the proceeding, including an expectation that in the event a contested hearing on the application is held, the Commission would not also conduct an uncontested hearing.

On our own motion, we have considered the procedural guidance provided for both proceedings. Pursuant to our inherent supervisory authority to oversee and manage the NRC's adjudicatory proceedings, we have decided to modify the GLE proceeding to eliminate the previously noticed uncontested hearing and adopt the adjudicatory procedures outlined in the *Orano* order.[3]

To effectuate our decision today and comply with the requirements of section 193.(b) of the Atomic Energy Act, we re-open the contested proceeding previously terminated by the Atomic Safety and Licensing Board (Board) regarding the GLE license application.[4] Further, we hereby terminate the uncontested hearing established by the Board on July 13, 2026.

It is so ordered.

Dated at Rockville, Maryland, this 26th day of August, 2026.

Decision of the Governors of the United States Postal Service on Changes in Rates of General Applicability for Competitive Products (Governors' Decision No. 26–7)

August 19, 2026

Statement of Explanation and Justification

Pursuant to authority under section 3632 of title 39, as amended by the Postal Accountability and Enhancement Act of 2006 (''PAEA''), we establish new prices of general applicability for certain domestic shipping services (competitive products), and concurrent classification changes to effectuate the new prices. These prices shall be in effect at 12:00 a.m. CDT on October 4, 2026, until 12:00 a.m. CST on January 17, 2027, at which time prices will be restored to approved levels. The changes are described generally below, with a detailed description of the changes in the attachment. The attachment includes the draft Mail Classification Schedule sections with the new prices that will take effect on October 4 displayed in the price charts, as well as the Mail Classification Schedule sections with the prices that will be restored on January 17, 2027, unless the Governors take further action to adjust prices.

As shown in the nonpublic annex being filed under seal herewith, the changes we establish should enable each competitive product to cover its attributable costs (39 U.S.C. 3633(a)(2)) and should result in competitive products as a whole complying with 39 U.S.C. 3633(a)(3), which, as implemented by 39 CFR 3035.107(c), requires competitive products collectively to contribute a minimum of 8.1 percent to the Postal Service's institutional costs. Accordingly, no issue of subsidization of competitive products by market dominant products should arise (39 U.S.C. 3633(a)(1)). We therefore find that the new prices are in accordance with 39 U.S.C. 3632–3633 and 39 CFR 3035.102.
