[RTID 0648-XF995]

Fisheries of the Caribbean; Southeast Data, Assessment, and Review; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration, Commerce (NOAA).

ACTION: Notice of webinar.

SUMMARY: The Southeast Data Assessment and Review (SEDAR) 103 assessment process of Caribbean Alternate Assessment Methods will consist of a Development Workshop, a series of Assessment Webinars, and a Review Workshop. See **SUPPLEMENTARY INFORMATION**.

DATES: The SEDAR 103 Post-Data Workshop Webinar will be held from 2 p.m. until 4 p.m. EDT September 25, 2026.

ADDRESSES:

SEDAR address: 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405. www.sedarweb.org.

Meeting address: The SEDAR 103 Post-Data Workshop Webinar will be

held via webinar. The webinar is open to members of the public. The established times may be adjusted as necessary to accommodate the timely completion of discussion relevant to the assessment process. Such adjustments may result in the meeting being extended from or completed prior to the time established by this notice.

FOR FURTHER INFORMATION CONTACT:

Emily Ott, SEDAR Coordinator; (843)

302-8434. Email: Emily.Ott@sqfmc.net.

SUPPLEMENTARY INFORMATION: The Gulf, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with the NMFS and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the SEDAR process, a multi-step method for determining the status of fish stocks in the Southeast Region SEDAR is a participatory process for developing, evaluating and reviewing information used for fisheries management advice. The process may include (1) a Data stage, and (2) an Assessment stage, and (3) a Review stage. The product of the Data stage is a report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment stage is a report which compiles and evaluates recommended model configurations that describes the fisheries, evaluates the status of the stock, estimates biological benchmarks and projects future population conditions. The product of the Review Workshop is a Review Summary documenting panel opinions regarding the strengths and weaknesses of the products reviewed. Participants for SEDAR Workshops are appointed by the Gulf, South Atlantic, and Caribbean Fishery Management Councils and National Marine Fisheries Service Southeast Regional Office, Highly Migratory Species Management Division, and Southeast Fisheries Science Center. Participants include data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and non-governmental organizations; International experts; and staff of Councils, Commissions, and state and Federal agencies.

The items of discussion in the Post-Development Workshop Webinar are as follows:

The Panel will finalize decisions that were not completed at the in-person development workshop. Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the

subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Council office (see **ADDRESSES**) at least 5 business days prior to each workshop.

Note: The times and sequence specified in this agenda are subject to change.

Nominations for Advisory Committee and Species Working Group Technical Advisor Appointments to the U.S. Section to the International Commission for the Conservation of Atlantic Tunas

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of request for nominations.

SUMMARY: NMFS is soliciting nominations (which may include self-nominations) to the Advisory Committee to the U.S. Section to the International Commission for the Conservation of Atlantic Tunas (ICCAT) as established by the Atlantic Tunas Convention Act (ATCA). NMFS is also soliciting nominations for Technical Advisors to the Advisory Committee's species working groups.

DATES: Nominations must be received by October 31, 2026.

ADDRESSES: Nominations, including a letter of interest and a resume or curriculum vitae, should be sent via email to Bryan Keller at bryan.keller@noaa.gov. Include in the subject line whether the nomination is for a position as an Advisory Committee member or as a Technical Advisor to one of the Committee's species working groups.

FOR FURTHER INFORMATION CONTACT: Bryan Keller, Office of International Affairs, Trade, and Commerce; email: bryan.keller@noaa.gov; phone: 301-427-7725.

SUPPLEMENTARY INFORMATION:

The Convention and the Commission

ICCAT was established to provide an effective program of international cooperation in research and conservation in recognition of the unique problems related to the highly migratory nature of tunas and tuna-like species. The International Convention for the Conservation of Atlantic Tunas (Convention), which established ICCAT, entered into force in 1969. ICCAT usually holds an Annual Meeting in November of each year, and convenes meetings of its working groups and other subsidiary bodies between annual meetings as needed. Under ATCA (see 16 U.S.C. 971a), the United States is represented at ICCAT by not more than three U.S. Commissioners. Additional information about ICCAT is available at <https://www.iccat.int>.

Advisory Committee to the U.S. Section to ICCAT and its Species Working Groups

ATCA (see 16 U.S.C. 971 *et seq.*) establishes an advisory committee comprising: (1) Not less than 5 nor more than 20 individuals appointed by the U.S. Commissioners to ICCAT who shall select such individuals from the various groups concerned with the fisheries covered by the ICCAT Convention; and (2) the chairs (or their designees) of the New England, Mid-Atlantic, South Atlantic, Caribbean, and Gulf Fishery Management Councils. Each appointed member of the Advisory Committee shall serve for a term of 2 years and be eligible for reappointment (see 16 U.S.C. 971b). The Committee meets at least twice a year during which members receive information and provide advice on ICCAT-related matters. All appointed members of the Advisory Committee serve in their individual professional capacity and undergo a background screening. Any individual appointed to the Committee who is unable to attend all or part of an Advisory Committee meeting may not appoint another person to attend such meetings as his or her

proxy. Nominees should be able to fulfill the time and travel commitments required to participate in the Committee's annual spring and fall meetings, in addition to ad hoc meetings as necessary throughout the year. The annual spring and fall meetings are normally 2 days long and are usually held in Silver Spring, Maryland, or Miami, Florida.

Members of the Advisory Committee receive no compensation for their services. The Secretary of Commerce and the Secretary of State may pay the necessary travel expenses of members of the Advisory Committee. The terms of all currently appointed Advisory Committee members expire on December 31, 2026. NMFS is soliciting nominees to serve as members of the Advisory Committee for a term of 2 years that will begin January 1, 2027, and expire December 31, 2028.

ATCA specifies that the U.S. Commissioners may establish species working groups for the purpose of providing advice and recommendations to the U.S. Commissioners and to the Advisory Committee on matters relating to the conservation and management of any highly migratory species covered by the ICCAT Convention (see 16 U.S.C. 971b-1). Any species working group shall consist of no more than seven members of the Advisory Committee and no more than four scientific or technical personnel, as considered necessary by the Commissioners. Currently, there are four species working groups advising the Committee and the U.S. Commissioners: a Bluefin Tuna and Albacore Working Group, a Swordfish/Sharks Working Group, a Billfish Working Group, and a Bigeye, Yellowfin, and Skipjack Tunas Working Group. Scientific or technical personnel (known as Technical Advisors) appointed to species working groups serve at the pleasure of the Commissioners; therefore, the Commissioners can choose to alter these appointments at any time. As with Committee Members, Technical Advisors may not be represented by a proxy during meetings of the Advisory Committee. Nominees should be able to fulfill the time and travel commitments required to participate in the annual spring meeting of the Advisory Committee, when the species working groups are convened, in addition to ad hoc meetings throughout the year, as appropriate.

Procedure for Submitting Nominations

Nominations to either the Advisory Committee or a species working group should include a letter of interest and a resume or curriculum vitae that

describes the individual's knowledge and experience in a field related to the highly migratory species covered by the ICCAT Convention. Self-nominations are acceptable. Letters of recommendation are useful but not required. When making a nomination, please specify which appointment (Advisory Committee member or Technical Advisor to a species working group) is being sought. Nominees are also encouraged to indicate which of the four species working groups is preferred, although placement on the requested group is not guaranteed.

Dated: August 26, 2026.

Alexa Cole,

Director, Office of International Affairs, Trade, and Commerce, National Marine Fisheries Service.
