SUPPLEMENTARY INFORMATION: In compliance with 44 U.S.C. 3507, FDA has submitted the following proposed collection of information to OMB for review and clearance.

Potential Tobacco Product Violations Reporting Form

OMB Control Number 0910–0716—Extension

This information collection supports the opportunity to accept consumer and other stakeholder feedback and notification of potential violations of the FD&C Act, as amended by the Tobacco Control Act. Tobacco products are generally governed by chapter IX of the Federal Food, Drug, and Cosmetic Act (FD&C Act) (sections 900 through 920) (21 U.S.C. 387 through 21 U.S.C. 387u). The FD&C Act provides FDA authority to monitor compliance with Federal tobacco laws and regulations and take corrective action when violations occur.

As part of its enforcement strategy, FDA accepts information from the public regarding potential tobacco product violations of the FD&C Act. Potential tobacco product violations include (but are not limited to): (1) sales to underage purchasers (persons under 21); (2) flavored cigarette sales; (3) illegal marketing and advertising; (4) distribution of free samples of tobacco products except in limited circumstances; (5) placement of cigarette or smokeless tobacco product vending machines in prohibited areas (or providing access to self-service or direct access of tobacco products in prohibited areas); (6) the manufacture or sale of unauthorized tobacco products; and (7) sale of cigarettes in packages of less than 20.

FDA currently provides a form that may be used to collect this information from the public (Form FDA 3779, Potential Tobacco Product Violations Report). The Potential Tobacco Product Violations Report, Form FDA 3779, asks for the following information: (1) date potential violation occurred; (2) product type (*e.g.*, cigarette, smokeless, roll-your-own, cigar, e-cigarette, hookah, pipe tobacco); (3) tobacco brand; (4) potential violation type; (5) type of potentially violative promotional materials; (6) description of the potential violation (7) who potentially violated; (8) name and address of the potential violator (if known); (9) potential violator’s website or internet address URL (if available); (10) Optional filer contact information if additional information is needed or to receive notification the complaint was received; and (11) any additional files or information pertinent to the potential violation.

The public and interested stakeholders can report possible tobacco product violations of the FD&C Act by submitting information on Form FDA 3779 online, via email or postal mail, or by calling FDA’s Tobacco Call Center. Information on how to submit possible tobacco product violations using the options above can be found at <https://www.accessdata.fda.gov/scripts/ptvr/index.cfm>. Further details about reporting possible tobacco product violations of the FD&C Act can also be found at <https://www.fda.gov/tobacco-products/compliance-enforcement-training/report-potential-tobacco-product-violation>.

In the **Federal Register** of June 23, 2026 (91 FR 37410), FDA published a 60-day notice requesting public comment on the proposed collection of information. No comments were received.

FDA estimates the burden of this collection of information as follows:

TABLE 1—ESTIMATED ANNUAL REPORTING BURDEN ¹

Activity and form FDA 3779	Number of respondents	Number of responses per respondent	Total annual responses	Average burden per response in hours	Total hours
Reporting potential tobacco product violations of the FD&C Act.	3,000	2	6,000	0.25 (15 minutes) ..	1,500

¹ There are no capital costs or operating and maintenance costs associated with this collection of information.

The burden hour estimates for this collection of information were based on the type and rate of reporting submitted through the Potential Tobacco Violation Report Form and based on a review of

the information collection since our last request for OMB approval. FDA estimates that submitting the information (online, telephone, email,

or mail) will take 0.25 hours (*i.e.*, 15 minutes) per response. FDA estimates the number of annual respondents to this collection of information will be 3,000, who will each submit 2 reports. Each report is

expected to take 0.25 hours to complete and submit; therefore, total burden hours for this collection of information is estimated to be 1,500 hours (6,000 responses $\times$ 0.25 hours per response).

Based on a review of the information collection since our last request for OMB approval, we have made no adjustments to our burden estimate.

Grace R. Graham,

Deputy Commissioner for Policy, Legislation, and International Affairs.
