SUPPLEMENTARY INFORMATION: The VPP recognizes employers and workers in the private industry and federal agencies who have implemented effective safety and health management systems and maintain injury and illness rates below national Bureau of Labor Statistics averages for their respective industries. In VPP, management, labor, and OSHA work cooperatively and proactively to prevent fatalities, injuries, and illnesses through a system focused on; hazard prevention and control; worksite analysis; training; and management commitment and worker involvement. The OSHA Safety Champions Program provides interested employers and workers the opportunity to gain assistance in improving their safety and health management systems. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on April 28, 2026 (91 FR 22864).

Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) the accuracy of the agency’s estimates of the burden and

cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. SUPPLEMENTARY INFORMATION: The Department of Labor finalized a regulation under ERISA section 404(c)(5)(A). The regulation offers guidance on the types of investment vehicles that plans may choose as their “qualified default investment alternative” (QDIA) and receive fiduciary relief. The regulation also outlines two types of information collections. First, it implements the statutory requirement that plans provide annual notices to participants and beneficiaries whose account assets could be invested in a QDIA. Second, the regulation requires plans to disclose certain information regarding a QDIA to those participants and beneficiaries with assets invested in the QDIA as well to provide certain information on request. These two information collections are necessary to inform participants and beneficiaries, who do not make investment elections, of the consequences of their failure to elect investments, the ways in which their account assets will be invested through the QDIA, and of their continuing opportunity to make other investment elections, including options available under the plan. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on February 18, 2026 (91 FR 7528).
