

including antidumping and/or countervailing duties). If you are a trade/business association, provide the information, on an aggregate basis, for the firms which are members of your association.

(a) Production (quantity) and, if known, an estimate of the percentage of total production of *Subject Merchandise* in each *Subject Country* accounted for by your firm's(s') production;

(b) Capacity (quantity) of your firm(s) to produce the *Subject Merchandise* in each *Subject Country* (that is, the level of production that your establishment(s) could reasonably have expected to attain during the year, assuming normal operating conditions (using equipment and machinery in place and ready to operate), normal operating levels (hours per week/weeks per year), time for downtime, maintenance, repair, and cleanup, and a typical or representative product mix); and

(c) the quantity and value of your firm's(s') exports to the United States of *Subject Merchandise* and, if known, an estimate of the percentage of total exports to the United States of *Subject Merchandise* from each *Subject Country* accounted for by your firm's(s') exports.

(12) Identify significant changes, if any, in the supply and demand conditions or business cycle for the *Domestic Like Product* that have occurred in the United States or in the market for the *Subject Merchandise* in each *Subject Country* after 2020, and significant changes, if any, that are likely to occur within a reasonably foreseeable time. Supply conditions to consider include technology; production methods; development efforts; ability to increase production (including the shift of production facilities used for other products and the use, cost, or availability of major inputs into production); and factors related to the ability to shift supply among different national markets (including barriers to importation in foreign markets or changes in market demand abroad). Demand conditions to consider include end uses and applications; the existence and availability of substitute products; and the level of competition among the *Domestic Like Product* produced in the United States, *Subject Merchandise* produced in each *Subject Country*, and such merchandise from other countries.

(13) (OPTIONAL) A statement of whether you agree with the above definitions of the *Domestic Like Product* and *Domestic Industry*; if you disagree with either or both of these definitions, please explain why and provide alternative definitions.

Authority: This proceeding is being conducted under authority of title VII of the Tariff Act of 1930; this notice is published pursuant to § 207.61 of the Commission's rules.

By order of the Commission.

Issued: August 26, 2026.

Lisa Barton,

Secretary to the Commission.

BILLING CODE 7020–02–P

DEPARTMENT OF JUSTICE

[OMB Number 1110–0090]

Agency Information Collection Activities; Proposed eCollection eComments Requested; Revision of a Previously Approved Collection; Title—SAFER SKIES State, Local, Tribal, and Territorial Counter-UAS Information Collection

AGENCY: Federal Bureau of Investigation, Department of Justice.

ACTION: 60-Day notice.

SUMMARY: The Federal Bureau of Investigation, Department of Justice (DOJ), will be submitting the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995.

DATES: Comments are encouraged and will be accepted for 60 days until November 2, 2026.

FOR FURTHER INFORMATION CONTACT: If you have additional comments especially on the estimated public burden or associated response time, suggestions, or need a copy of the proposed information collection instrument with instructions or additional information, please contact the Counter-UAS Operations Unit, Unmanned Aviation Section, Critical Incident Response Group, Federal Bureau of Investigation, email: cuas@fbi.gov.

SUPPLEMENTARY INFORMATION: Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Federal Bureau of Investigation, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the

proposed collection of information, including the validity of the methodology and assumptions used;—Evaluate whether and if so how the quality, utility, and clarity of the information to be collected can be enhanced; and

—Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Abstract: The SAFER SKIES Act, Title LXXXVI of the National Defense Authorization Act for Fiscal Year 2026, as implemented by the interim final rule codified at 6 CFR part 124 and 28 CFR part 124, extends counter-UAS detection and mitigation authority to State, local, tribal, and territorial (SLTT) law enforcement and correctional agencies under 6 U.S.C. 124n(a)(2). This collection covers the coordination, authorization, reporting, and recordkeeping submissions the rule requires, made through the designated Federal C–UAS coordination portal. The current approval was granted on an emergency basis and expires November 30, 2026. This revision requests a standard three-year approval.

Since the emergency clearance, the FBI has revised five instruments in response to experience during initial implementation. The advance notification (C–UAS–AN), operations plan (C–UAS–OPLAN), testing, training, and exercise plan (C–UAS–TTE), policy attestation (C–UAS–ATT), and post-operation report (C–UAS–POR) each collect additional data elements. The principal additions are structured airspace and temporary flight restriction information on the notification, operations plan, and exercise plan; a retroactive filing path for emergency invocations under 6 CFR and 28 CFR 124.9(g) on the notification; Federal Aviation Administration concurrence and frequency restriction information on the operations plan; agency identifying and policy reference information on the attestation; and expanded detection, mitigation, and enforcement outcome fields on the post-operation report.

This revision also re-estimates burden for every instrument. Several per-response estimates are lower than those approved under the emergency clearance even though the instruments collect more data. The revised forms replace free-text entry with structured selections, allow the operations plan to

inherit previously entered data from the advance notification so that operational information is entered once, and retrieve known venue airspace data rather than requiring manual entry. The FBI invites comment on these estimates.

Overview of This Information Collection

1. *Type of Information Collection:* Revision of a currently approved collection.

2. *The Title of the Form/Collection:* SAFER SKIES State, Local, Tribal, and Territorial Counter-UAS Information Collection.

3. *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* Form numbers: C-UAS-ATT; C-UAS-OPLAN; C-UAS-AN; C-UAS-MAA; C-UAS-NOI; C-UAS-LAD; C-UAS-OAN; C-UAS-POR; C-UAS-ERN; C-UAS-SUM; C-UAS-VSR; C-UAS-ASLN; C-UAS-ARR; C-UAS-TTE. A C-UAS Operator Training and Certification Record (Form C-UAS-OTC) is under development and will be added to this collection by a subsequent submission to OMB before it is deployed. The sponsoring component is the Federal Bureau of Investigation, Department of Justice.

4. *Affected public who will be asked or required to respond, as well as the obligation to respond:* Affected Public: State, Local, or Tribal Government. Respondents are State, local, tribal, and territorial law enforcement and correctional agencies; territorial agencies are reported within the State, Local, or Tribal Government category. The obligation to respond is required to obtain or retain a benefit for most instruments (the accreditation and certification needed to exercise counter-UAS authority under 6 U.S.C. 124n(a)(2) and 6 CFR and 28 CFR part 124); certain reports and notifications are mandatory under the same authorities, and a small number of instruments are voluntary.

5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* The estimated number of unduplicated respondents is approximately 1,850 SLTT agencies (approximately 1,500 detection-tier agencies and 350 mitigation-tier agencies).

The time per response varies by instrument, from approximately 5 minutes for feedback on a listed counter-UAS system to approximately 5 hours for initial policy adoption and attestation, which includes developing

and adopting the underlying implementation policy. A detection and warning operations plan is estimated at approximately 45 minutes; a mitigation operations plan at approximately 1 hour. These estimates are derived from analysis of the deployed instruments rather than from measured completion times, and the FBI specifically invites comment on their accuracy.

6. *An estimate of the total annual burden (in hours) associated with the collection:* The estimated total annual burden associated with this collection is 25,314 hours, across approximately 24,355 annual responses, as shown in the table below.

7. *An estimate of the total annual cost burden associated with the collection, if applicable:* There are no capital, start-up, operation, or maintenance costs associated with this collection. Respondents use existing personnel and equipment and submit electronically through the Federal C-UAS coordination portal at no charge. Counter-UAS systems and related equipment are acquired for the underlying protective mission and are not acquired for purposes of this collection. The estimated total annual cost burden is \$0.

TOTAL BURDEN HOURS

Activity	Number of respondents	Frequency	Total annual responses	Time per response	Total annual burden (hours)
C-UAS-ATT—initial (policy + attestation).	617	once (annualized)	617	5 hrs	3,085
C-UAS-ATT—annual renewal.	1,233	annually	1,233	30 min	617
C-UAS-OPLAN—mitigation ..	350	on occasion	1,350	1 hr	1,350
C-UAS-OPLAN—detection and warning.	1,500	on occasion	9,000	45 min	6,750
C-UAS-AN—mitigation operations.	350	per operation	2,250	1 hr	2,250
C-UAS-AN—RF-emitting detection.	25	per operation	100	1 hr	100
C-UAS-MAA	150	on occasion	150	30 min	75
C-UAS-NOI	200	on occasion	200	10 min	33
C-UAS-LAD	50	on occasion	50	20 min	17
C-UAS-OAN—activation and termination.	150	on occasion	650	10 min	108
C-UAS-OAN—unintended consequences.	50	on occasion	100	30 min	50
C-UAS-POR	350	per operation	2,250	45 min	1,688
C-UAS-ERN	150	on occasion	300	30 min	150
C-UAS-SUM	1,850	semiannually	3,700	30 min	1,850
C-UAS-VSR	100	on occasion	100	30 min	50
C-UAS-ASLN—system nomination.	50	on occasion	50	60 min	50
C-UAS-ASLN—feedback on listed system.	100	on occasion	100	5 min	8
C-UAS-ARR	5	on occasion	5	90 min	8
C-UAS-TTE	150	annually	300	2 hrs	600
Recordkeeping/retention/audit (§ 124.14).	1,850	ongoing	1,850	3.5 hrs	6,475
Unduplicated Totals	1,850		24,355		25,314

Notes to the table: The initial policy attestation line is annualized over the phase-in of the accreditation program, and the annual renewal line covers only agencies that have already attested, so the two lines do not overlap. Advance notification responses exceed mitigation operations plan responses because a single operations plan may support multiple notified operations under a standing operational window or may be incorporated by reference for a subsequent operation under 6 CFR and 28 CFR 124.8. The operational action notification line reflects only notifications made outside the advance notification process; emergency invocations under 6 CFR and 28 CFR 124.9(g) are filed on the advance notification and are not counted twice.

If additional information is required contact: Darwin Arceo, Department Clearance Officer, United States Department of Justice, Justice Management Division, Enterprise Portfolio Management, Two Constitution Square, 145 N Street NE, 4W-218, Washington, DC.

Dated: August 28, 2026.

Darwin Arceo,

Department Clearance Officer for PRA, U.S. Department of Justice.

BILLING CODE 4410-02-P

DEPARTMENT OF LABOR

Employment and Training Administration

Agency Information Collection Activities; Comment Request; Student Safety Assessment (SSA) of Job Corps Students

ACTION: Notice.

SUMMARY: The Department of Labor's (DOL or Department) Employment and Training Administration (ETA) is soliciting comments concerning a proposed revision for the authority to conduct the information collection request (ICR) titled, "Student Safety Assessment (SSA) of Job Corps students." This comment request is part of continuing Departmental efforts to reduce paperwork and respondent burden in accordance with the Paperwork Reduction Act of 1995 (PRA).

DATES: Consideration will be given to all written comments received by November 2, 2026.

ADDRESSES: A copy of this ICR with applicable supporting documentation, including a description of the likely

respondents, proposed frequency of response, and estimated total burden, may be obtained for free by contacting Shao Zhang by email at zhang.shao@dol.gov.

Submit written comments about, or requests for a copy of, this ICR by mail or courier to the attention of Shao Zhang, U.S. Department of Labor, Employment and Training—Job Corps, 200 Constitution Ave. NW, N-4459, Washington, DC 20210; by email: zhang.shao@dol.gov.

FOR FURTHER INFORMATION CONTACT:

Shao Zhang by email at zhang.shao@dol.gov.

SUPPLEMENTARY INFORMATION: DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the Office of Management and Budget (OMB) for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

In accordance with 5 CFR 1320, the Department is seeking approval for data collection to obtain necessary information from Job Corps students, on a voluntary basis, through the Student Safety Assessment (SSA). The SSA is necessary to evaluate whether Job Corps centers provide a safe and hazard free environment as required under the Workforce Innovation and Opportunity Act (20 CFR 686.220(c), 686.530(a), and 20 CFR 686.920(a)). The revision is prompted by updates to survey items, a decrease in the estimated number of respondents, a change in sampling method, and a decrease in the frequency of administration. Survey items were removed to reduce duplicative data collection and improve focus on evaluating student perceptions of safety. The number of respondents has changed as the Job Corps program has not fully regained its typical enrollment strength. Additionally, the frequency of administration was reduced to lessen the burden on center staff and students, which also prompted a change to the sampling method.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by OMB under the PRA and

displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the **ADDRESSES** section. Comments must be written to receive consideration, and they will be summarized and included in the request for OMB approval of the final ICR. To help ensure appropriate consideration, comments should mention OMB Control Number 1205-0542.

Submitted comments will also be a matter of public record for this ICR and posted on the internet without redaction. DOL encourages commenters not to include personally identifiable information, confidential business data, or other sensitive statements/information in any comments.

DOL is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, (e.g., permitting electronic submission of responses).

Agency: DOL-ETA.

Type of Review: Revision.

Title of Collection: Student Safety Assessment (SSA) of Job Corps Students.

Forms: Student Safety Assessment (English), Student Safety Assessment (Spanish).

OMB Control Number: 1205-0542.

Affected Public: Individuals or Households.

Estimated Number of Respondents: 48,000.

Frequency: Biannually.

Total Estimated Annual Responses: 48,000.

Estimated Average Time per Response: .25 of an hour.

Estimated Total Annual Burden Hours: 12,000 hours.
